Hi Joanne,

Just wondering how you are going with responding to the track changed version of the provisions I sent you?

As I mentioned, my cut-off for the next Strategy Committee is 4 March, so need any feedback tomorrow or Wednesday really in order to have time to consider and make any changes.

Kind regards

Blair

Importance: High

Hi Ian,

Just wondering if you have had a chance to consider the email below? When we last spoke on the phone you were intending to discuss this with your planning consultant at Mitchell partnerships? I am happy to talk to them directly if that would assist?

In the next day or two I will send through a track changed version of what the alterations to the provisions might look like. When the revised plan is notified in October 2013 you will of course have an opportunity to submit and request any changes to the provisions or structure plan. As the chapter was only recently made operative, we are not proposing any major changes, just what is listed below.

Kind regards
Blair

To: 'pillans@xtra.co.nz'
Subject: Kingston Village Special Zone

Good afternoon Ian,

Ralph Henderson here at QLDC passed on your email address to me in relation to the Kingston Village Special Zone.

You may be aware that we are currently working on a review of the District Plan. Most of our operative District Plan was made fully operative in 2003, and under the RMA it is due for its ten year review in October next year. The objectives for the District Plan Review are:

- Simplification
- Streamline Resource Consents
- Streamlined monitoring
- Fix known problems
- Reflecting community feedback
- Implementing Community Strategies
- Aligning with the National Policy Statements, National Environmental Standards, Regional Policy Statements etc
- Community visioning
- Council priorities.

I am looking after the 'Special Zones' chapter of the Plan, one of which is the Kingston Village Special Zone (KVSZ). As the KVSZ has only recently been made fully operative, we do not propose to do any monitoring of the provisions, or to make any major changes. However we do seek to alter the format, and some defined terms that appear throughout the District Plan such as 'building', and this might have implications for the KVSZ. Therefore we intend to include the KVSZ in the District Plan Review, but not change anything meaningful other than those defined terms that apply across the district.

Through the Review we are also aiming to simplify and streamline the District Plan, and are proposing to remove a lot of the descriptive text from the District Plan and put it into the section 32 report (which will be much more widely available than currently). We are proposing to limit the revised District Plan to a statement of zone purpose, objectives, policies, rules and assessment matters. Under s75(1) which came in with the 2005 amendment (see below), we *must* have objectives, policies and rules, but the rest is all optional. So we are still retaining the zone purpose and assessment matters even though not necessarily required to.

I would be interested in your feedback on the following matters, and would be happy to meet up if you are in Queenstown anytime in the next few months.

1. Any concerns about deleting descriptive material from the KVSZ chapter, leaving just the zone purpose, objectives, policies, rules and assessment matters. This would include removing the following:
 - a. Kingston Village Resources, Activities and Values.
 - b. Kingston Village issues
 - c. All text under headings 'explanation and principal reasons for adoption'
 - d. All text under headings 'implementation methods'

The material would still be available in the section 32 report.

2. Whether there are any minor errors or alterations that you have identified with the KVSZ that we could tidy up as part of the Review.

Kind regards
Blair Devlin

75 Contents of district plans

- (1) A district plan must state—
 - (a) the objectives for the district; and
 - (b) the policies to implement the objectives; and
 - (c) the rules (if any) to implement the policies.
- (2) A district plan may state—
 - (a) the significant resource management issues for the district; and
 - (b) the methods, other than rules, for implementing the policies for the district; and
 - (c) the principal reasons for adopting the policies and methods; and
 - (d) the environmental results expected from the policies and methods; and
 - (e) the procedures for monitoring the efficiency and effectiveness of the policies and methods; and
 - (f) the processes for dealing with issues that cross territorial authority boundaries; and
 - (g) the information to be included with an application for a resource consent; and
 - (h) any other information required for the purpose of the territorial authority's functions, powers, and duties under this Act.
- (3) A district plan must give effect to—
 - (a) any national policy statement; and
 - (b) any New Zealand coastal policy statement; and
 - (c) any regional policy statement.
- (4) A district plan must not be inconsistent with—

Subject: Kingston Village Special Zone - proposed amendments to provisions as part of District Plan Review

Hi Ian,
As per my email from earlier this week, please find attached a track changed version of the Kingston Village Special Zone. As discussed we are proposing to limit the revised District Plan to a statement of zone purpose, objectives, policies, rules and assessment matters. Under s75(1) which came in with the 2005 amendment, we *must* have objectives, policies and rules, but the rest is all optional. So we are still retaining the zone purpose and assessment matters even though not necessarily required to. If there are any other minor changes to the provisions that you think are necessary we would be grateful to hear back.

I am hoping this chapter of the District Plan can go to the Council's Strategy Committee on 19 March, which has a cut-off date of 4 March, so your prompt feedback would be appreciated.

Kind regards
Blair
