INTRODUCTION

FROM THE MAYOR

We are fortunate to live in one of the world's most beautiful regions and it's my mission as Mayor and that of my fellow elected members to keep our lifestyle in tune with our surroundings.

Our Annual Plan is a bold move to shift our Council from reactive to proactive. Since being elected I have listened and I have learned and my priorities have not moved. We have to plan better and we need to make better decisions.

#1: making public transport such a great and cheap service that it's too good to refuse. We need to get alongside the Otago Regional Council and continue to encourage them to deliver on public transport and water quality issues, because issue #2 is that keeping our lakes and waterways pristine needs work.

#3: We need to work closely with the Government to give our people affordable housing options. We are working hard on plans in this regard because housing is the biggest handbrake on our community's future.

#4: We all know that congestion on our roads is at unacceptable levels. We are working with government agencies to achieve a solution, not years out but now.

#5 We have to get ahead of growth when it comes to our infrastructure. We must find affordable solutions for our smaller communities.

#6: This Council needs to have its offices on one site in the Wakatipu, not four, and it's a no-brainer that we need staffing levels that match growth to meet your expectations for service.

Most of these issues are district-wide. There is an obvious focus required on the Wakatipu but we need an appropriate response to Wanaka's growth, which is also far above the national norm. Meanwhile we are already delivering the Wanaka pool, the upgrade of Project Shotover and Hawthorne Drive.

I have no desire to bring you a rates increase but it's unavoidable. Put simply, we have underinvested in the past. Now we have no choice but to invest in right-sizing our response to growth and I expect this Council to deliver.

Finally I would like to extend a huge vote of thanks to the 593 groups and individuals who took the time to tell us what you think through the submission process. I am pleased to say that the process directly influenced a number of decisions in this plan.

A handwritten signature in black ink, appearing to read 'Jim Boulton', with a large, stylized loop at the end.

Jim Boulton
Mayor

SUMMARY FROM THE CHIEF EXECUTIVE

We are officially the fastest growing district in New Zealand with a whopping 7.1% rise in population last year alone. In 2015 our district's population was 32,410 – by next year it is projected to be 38,048. This is more than predicted and faster than we had provided for in our last 10-Year Plan. It's time to catch up. In less than 20 years we have almost doubled in population and are picked to be a key growth destination for the next decade. The solution is investment. This plan identifies the need to significantly address the pressure of growth through:

- Investment in traffic solutions
- Investment in increased services and resourcing (staff)
- Investment in our environment (lake quality, wilding pines, recreation)
- Investment in our people (living and housing affordability, education and health)

Our community can't continue to shoulder the burden of increasing tourism. Some form of visitor levy is the answer

but this can only happen with the Government's agreement. Watch this space. In the meantime we will be putting together smarter business cases to attract the right support from NZTA (for State Highway funding) and the Government's Infrastructure Fund.

By deferring both some debt repayment and the proposed Convention Centre Project, we have kept the rates increase below 5%. The average proposed increase is 4.15% after allowing for 3% growth. The proposed rates increase has reduced slightly by (down from 4.25%) as

result of the submission process and an increase in refuse income, which has positively offset the rates. That's an average so the impact on your own rates will depend on where you live, what services you receive, the type of property you own and its value.

A handwritten signature in black ink, appearing to read 'Mike Theelen', with a long horizontal stroke extending to the right.

Mike Theelen
Chief Executive

2017/18 FINANCIAL HIGHLIGHTS

BACKGROUND

According to the Local Government Act, the Annual Plan process is secondary to the 10-Year Plan process and there is no requirement to consult unless there are significant variations from the budget for the same year in the 10-Year Plan. QLDC has decided to consult this year, through the 2017/18 consultation document.

The 10-Year Plan was prepared in October 2014 and since this time the region has experienced unprecedented growth. We're playing catch-up through decisive leadership, so we can be a proactive Council, rather than reactive. The key messages are that we need to improve levels of service in the following areas:

- > Improve transport (including public transport)
- > Improve public toilets and street cleaning
- > Address water quality issues
- > Address exceptionally high volumes of applications for consents and regulatory approvals
- > Provide a positive customer experience through a "can do" council approach
- > Increase the organisation's capacity for dealing with growth

The following graphs demonstrate the difference in forecast growth from the 10-Year Plan to current forecasts and the growth we have experienced within some of our activities at Council. The current forecast for 2023 is significantly higher than the previously forecast figures for 2025!

COMPARISON OF GROWTH FORECASTS FOR THE DISTRICT AS A WHOLE

BUILDING CONSENT APPLICATIONS RECEIVED PER MONTH (CUMULATIVE)

RESOURCE CONSENT APPLICATIONS RECEIVED PER MONTH (CUMULATIVE)

BUDGET APPROACH

QLDC has taken the following approach to the budget process for 2017/18:

Capital Expenditure (Capex)

A full review of the proposed capex programme has been undertaken. The capex programme has increased from \$61.18m in the 10-Year Plan to \$64.12m. This is an overall increase of \$2.94m. The main variations are as follows:

- Deferred works to later years of \$39.4m, the majority of which is the proposed Queenstown Convention Centre which has been deferred to 18/19 pending further consultation.
- Transferred works from 16/17 into 17/18 of \$19.2m, these transfers have been made to align with the construction budgets for the Eastern Arterial Route (Hawthorne Drive), Wanaka Aquatic Centre and the rising main between Shotover Country and Glenda Drive.

- Additional works of \$19.0m as follows:

- Roading of \$3.6m including the widening of Mt Aspiring Access Road, investigation into Queenstown central business district upgrades and parking.
- Water supply of \$4.1m including additional works for Kawarau Bridge connections, chlorination upgrades and upgrades to the Frankton ring main.
- Wastewater \$4.5m including additional works for Kawarau Bridge connections, construction of Marine Parade pumping station and upgrades to screenings at Project Pure.
- Property of \$0.9m including works to investigate suitability of the Queenstown Events Centre as an Emergency Operations Centre and suitability of Council Offices to service growth in the District.
- Queenstown Town Centre Master Plan implementation of \$2.0m to enable commencement of the strategy.

Operating Expenditure

The 2017/18 year is Year 3 of the 10-Year Plan. The Annual Plan budget for 16/17 has been used as the base for the 17/18 Annual Plan budget, due to adjustments for growth on the 10-Year Plan budgets already incorporated.

Generally speaking, activity has increased across the board since the original 10-Year Plan was prepared. All major corporate budgets have been fully reviewed. This includes staff costs, vehicles, insurance, energy, interest etc. Assumptions have been tested to ensure that the proposed Annual Plan budget reflects current needs and the Council's aspirations.

Revenue budgets have also been reviewed and updated where appropriate. This includes the incorporation of a realistic fee structure to cover costs for some activities as a result of the 16/17 Funding and Rates review.

BUDGET COMPARISON

The table below highlights the main changes between the Annual Plan budget for 2017/18 to the 10-Year Plan budget for the same year:

BUDGET COMPARISON	10YP YR 3	AP	
	17/18	17/18	Change
	\$m	\$m	\$m
Capital Works	61.18	64.12	2.94
Rate Funded Capex	6.34	6.90	0.56
Operating Cost	101.98	117.55	15.57
Total Revenue	146.96	138.39	-8.57
Debt Repayment	16.35	14.97	-1.38
New Loans	19.84	38.95	19.11
Rates Increase	2.81%	4.15%	1.34%

The rates increase for 2017/18 is 4.15% (after allowing for growth of 3.0% in the rates database). This is above the 2.81% signalled in the 10-Year Plan for 2017/18.

Please refer to the next section for a discussion on the proposed rates increase.

The capital budget has increased by \$2.94m as explained above.

Operating costs have increased by \$15.52m compared to the 10-Year Plan which is largely due to the following:

- > Increases in staff costs of \$5.5m due to a continued increase in activity and services provided by consenting, regulatory services and planning. These costs are largely offset by increased revenue.
- > Forestry costs of \$2.9m for clearance of Coronet Forest have been offset by additional revenue.
- > Increased landfill costs of \$2.67m due to sludge disposal and increased volumes of waste (partly covered by additional revenue of \$2.2m).

- > Costs of District Plan review are \$1.48m higher than initially forecast for 2017/18 due to timing changes for the full project.
- > Subsidy for enhanced public transport system \$0.6m
- > Other costs higher than forecast: depreciation (\$0.9m), cleaning (\$0.5m) and energy (\$0.4m).

The budget for total revenue has decreased by \$8.57m overall. This is largely the result of the deferral of a capital grant for the Queenstown Convention Centre of \$26.7m which was included in year 3 of the 10-Year Plan. Operating revenue has in fact increased by \$18.1m once this deferral is removed. This is as a result of the following:

- > Increased user charges (\$6.9m) due to growth in activity levels for consenting and regulatory (\$4.6m) and waste management volumes (\$2.2m).
- > Forestry income of \$2.9m for proceeds from clearance of Coronet Forest.
- > Increased lease income of \$2.7m for both commercial and reserve based leases.

RATES IMPACT

The rates increase for 2017/18 is sitting at 4.15% (after allowing for growth of 3.0% in the rates database). This is above the 2.81% signalled in the 10YP for 17/18 but follows several years of lower increases to forecasts but follows several years where increases were lower than forecast.

In simple terms, the amount of rates required is made up of the balance of operating costs less operating revenue plus any rate funded capital expenditure (mostly loan repayments). We have adjusted some rate funded loan repayments for 2017/18 to keep the rates increase down to an acceptable level. This does not have a significant impact on our debt profile going forward but it does allow rates increases to be smoothed between years.

The impact of a 4.15% rates increase will not be even across all property types and locations. This is because of the impact of targeted rates which are often ward or scheme based. The following tables show the indicative impacts for a range of properties:

SUMMARY OF INDICATIVE TOTAL RATE MOVEMENTS 17/18

Residential	\$708,860	Kingston	0.06%	\$1
Residential	\$831,000	Arthurs Point	4.12%	\$96

THE MAIN FEATURES OF THE RATES INCREASES FOR 17/18 ARE:

- Increase in rates for Wastewater (Project Shotover) \$90 per connection per annum - this is within forecast. (Queenstown, Arrowtown, Lake Hayes/Shotover Country, Arthurs Point)
- Increase in rates for Wastewater (Project Pure) of \$68 per connection per annum largely attributable to sludge disposal costs. (Wanaka, Albert Town)
- Increase in rates for Wanaka Pool of \$86 per annum - this is within forecast. (Residential in Wanaka ward)
- Increase in rates for Wanaka Tourism Promotion of around \$4.2% per annum - this is within forecast. (Businesses in Wanaka ward)
- Reduction in waste management rates of \$11 for residential properties

WHAT'S DIFFERENT?

The following decisions are points of difference from the 10-Year Plan.

TRAFFIC

Sorting our traffic congestion needs a multi-pronged approach. Investing in Hawthorne Drive (the Eastern Access Route) ahead of schedule and working with NZTA on other solutions is one aspect but getting cars off our roads by delivering a far cheaper, far better public transport service is critical.

Public Transport is a function of the Otago Regional Council but we have stepped up in partnership with ORC and NZTA to propose a radical shift in public transport in the Wakatipu. We have included \$600,000 in the budget to ramp up the subsidy already contributed by ORC and to add the sizeable contribution by NZTA, keen to reduce traffic on the highways. We propose a blanket \$2 fare and a more convenient

service. A further \$300,000 is at risk if the uptake doesn't happen but we are banking on the change.

TOWN CENTRE MASTER PLAN

We have earmarked \$2 million for projects within central Queenstown this year, under the umbrella of the Town Centre Master Plan. This is a placeholder as we are still in the early stages of consulting on how our community would like this area to be redeveloped. Budgets for more specific aspects of the project will be included in next year's 10-Year Plan.

UPPING LEVELS OF SERVICE

Our annual survey results show that we needed to do better at things like cleaning public toilets and keeping our towns free of rubbish. These are two examples where the level of service was adequate when it was set more

than two years ago but no longer caters for growth. We are cleaning toilets and emptying bins more often to meet community and visitor expectations that our streets and public toilets will be clean.

RESOURCING RIGHT

In 2013 QLDC undertook an organisational review. Staff numbers were reduced to match needs at that time. Four years on and in the face of unprecedented growth, we can no longer meet community expectations and our staff are under pressure. We recruit in a highly competitive market and it can be difficult to attract and retain good people, particularly when they – like you – are grappling with the cost of living here.

The reality is that we can't deliver for you if we don't have staff.

We recover part or all of the cost of many of our services from users, for example in building and planning, regulatory or sport and recreation, so the full cost of employing staff does not always fall on rates. In some areas, such as legal advice, employing our own staff is more cost-effective than paying for a consultant. Corporate functions such as Human Resources and IT are essential to keep our front-facing services operating and as we provide more services, we need to hire more support staff. This plan provides for that, as well as staff for the new Wanaka Aquatic Centre. The staffing budget has been increased by \$2.6 million and includes an increase of 34 full-time equivalents to a total staff of 323, including overheads and provision for salary reviews.

PLANNING RIGHT – THE DISTRICT PLAN

Last year we consulted on an increased cost for reviewing the District Plan. With Stage 1 well underway and Stage 2 yet to begin, we have reforecast our position and budgeted an additional \$1.6m for this project. This is subject to the availability of staff so the timing may change.

LAKESIDE PLAYGROUND

An upgrade of the playground in the Queenstown Gardens beside the Bathhouse was anticipated in the 10-Year Plan and is included in this Annual Plan. The existing playground was built in 1994. This is an exciting project that will inject new life into a much loved and well-used play area. We have included \$680,000 in the Annual Plan for a complete refresh including landscaping and state of the art play gear. The result will be akin to the hugely popular destination playground on the shores of Lake Wanaka.

CHLORINATION FOR OUR COMMUNITY WATER SUPPLIES

Supplying safe and clean drinking water is a core responsibility and legal obligation. Adding chlorine is one of the most common and effective treatments because it disinfects the water all the way from the source through to your taps. It kills small bugs such as bacteria that can get through filtration systems and viruses that cannot be physically removed from water. Most of our district is already serviced by a chlorinated supply.

Following the Havelock North water contamination crisis last year and after advice from Public Health South, we began chlorinating the Arrowtown, Hawea and Glendhu Bay water supplies on a temporary basis over summer. The Council's view is that we cannot afford to risk lives and health of vulnerable people, a community's economy or the district's reputation through an outbreak of waterborne disease linked to a contaminated public supply.

We have included \$500,000 in the budget to enable the permanent chlorination of all QLDC community water supplies that don't already have this level of treatment. This includes Arrowtown, Glendhu Bay, Hawea, Arthur's Point, Luggate and Glenorchy. A significant programme of works will be

considered as part of the 10-Year Plan to ensure all our drinking water supplies meet NZ Drinking Water Standards.

In direct response to community submissions on the matter the Council is seeking additional information before it is prepared to make a decision. In particular the Council is seeking to better understand:

- The risks associated with non-chlorination of supplies?
- The liability of staff and Councillors if Council's decision is non-chlorination of supplies. Including the implications of taking 'all practical steps' to mitigate risk?
- What if any options exist to alleviate the requirement to chlorinate with a particular focus on the risk of contamination through 'back flow'?
- What we are doing to mitigate the risk in terms of scheduled works for example bore head security?
- What future proofing of supplies are scheduled?

The Council has decided that the provisioning of the ability to chlorinate supplies is an important first step, and has decided to continue to fund \$500k budget to enable the installation of the equipment on all its supplies that

would allow chlorination to be easily and quickly implemented if the need arose, or where other management controls were considered to be inadequate. This decision must not be considered in any way prejudicial to the decision whether to proceed as outlined, amend the proposal or not proceed. Council has requested a paper on the matter and will determine the decision at a later date.

SPREADING THE COSTS

In our last 10-Year Plan we asked whether there was a fairer way of structuring water and wastewater rates across the district. We need to continue to put our small communities onto a more sustainable footing for wastewater, though we recognise that the cost of doing so can be significant. Everyone benefits from infrastructure that makes our environment safe. If we spread this cost differently between the beneficiaries and the wider community it might be more affordable for all. We want to pick this conversation up again over the coming year as we lead into the next 10-Year Plan.

FURTHER CONSULTATION

There were three other matters that Council consulted on by way of special consultation outside the annual plan consultation.

CORONET FOREST

In the interests of keeping the wilding pine scourge at bay, we are proposing to do the right thing and deal to a major seed source sooner rather than later by bringing forward the harvest of Coronet Forest. We signalled this last year. The cost of harvest versus the projected income from the harvest is expected to be cost neutral. This issue is being treated as a special consultation, outside the draft Annual Plan, because it requires the forest's management plan to be amended. Budget has been included in the Annual Plan but this should not be seen as predetermination of the decision which as of 30 June 2017 was still pending.

POLICY ON DEVELOPMENT CONTRIBUTIONS

We have completed consultation on the proposed amendments to the Policy on Development Contributions for 2017/18. In total 4 submissions were received in relation to this matter and after due consideration of the issues raised, Council intends to adopt the amendments as proposed.

The main amendment is the annual update of contribution levels resulting from the incorporation of the latest actual expenditure and the revised capital programme as outlined in the Annual Plan 2017/18.

Other amendments that will simplify and clarify areas of the policy that have not been amended since the policy was first introduced have also been adopted. The proposed changes involve the introduction of clearer definitions and a simpler assessment methodology for non-residential subdivisions where the details of the proposed development are not known.

BUILDING AND RESOURCE CONSENT FEE SCHEDULE

We have undertaken a review of the present fees and charges, which were reviewed as part of the 2016/17 Annual Plan. The Council is now considering whether a small number of fees and charges should be amended and replaced for the 2017/18 year.

These changes are best summarised into three categories:

- A. Proposed changes to monitoring fees
- B. Proposed removal of footpath bonds
- C. Proposed amendments to update some fees following a review of actual costs and to make other updates and amendments as required.

In total 2 submissions were received in relation to this matter and after due consideration of the issues raised, Council adopted the amendments as proposed.

ANNUAL PLAN 2017/18 SUBMISSION PROCESS

SUMMARY OF CHANGES

The following is a summary of the changes to the 2017/18 Annual Plan that have been approved as a result of the submission process:

NEW UNBUDGETED REQUESTS FOR FUNDING:

1. Approve grant to Arrowtown Charitable Trust upgrade of lighting on Council property of sculpture and feature trees Buckingham Green (\$57k)
2. Approve grant to Festive Lighting Strategy Downtown Queenstown (\$15k)
3. Approve an increase of grant for Allenby Park Upgrade Friends of Allenby Park (\$30k increase)
4. Approve a grant to the Queenstown Mountain Bike Club (\$20k) for the development of trails
5. Approve increase in Glenorchy Swimming Pool budget (\$2.5k increase)
6. Approve grant to Lakes District Air Rescue Trust (\$25k)
7. Approve grant for Red Bridge Reserve to Luggate Community Association (\$5k per annum for two years)
8. Approve additional grant funding to Shaping our Future (\$10k increase)
9. Approve grant to Upper Clutha Water Group (\$22.5k – note Council seeking ‘dollar for dollar’ equivalent funding from Otago Regional Council)
10. Approve grant for Wakatipu Reforestation Trust (\$5k)
11. Approve grant to Wanaka Chamber for CUBE (\$50k)
12. Approve grant to Wanaka Residents Association for Corrections Supervision of Community Projects (\$5k)
13. Approve grant to Downtown Queenstown (\$50k)

EXISTING BUDGETED REQUESTS FOR FUNDING:

1. Community Association Grants
2. Arrowtown Promotion and Business Association
3. Community Networks Wanaka
4. Destination Queenstown
5. Happiness House
6. Lake Wanaka Tourism (note the additional \$30k sought for data collection was not approved)
7. Queenstown Trails Trust
8. Ruby Island Management Committee
9. Skyline Queenstown MTB
10. Sport Central
11. Upper Clutha Tracks Trust
12. Wilding Conifer Group
13. Queenstown Chamber of Commerce

**INTERNAL (QLDC) UNBUDGETED
REQUESTS FOR FUNDING:**

1. Approve two additional waste storage areas for Queenstown CBD (\$80K)
2. Sludge Disposal Investigation and vermicomposting trial with Central Otago District Council (\$80K)
3. Public litter bin upgrade (\$180k)
4. Pipeline replacement (\$485k)
5. Kawarau Falls Bridge Pipeline additional budget (\$2.9m)
6. Electronic Document Management System additional budget (\$255k)
7. Arrowtown Pool heating investigation (\$25k)
8. Increase Refuse Fees & Charges to recover cost of carbon credits (\$1.01m)
9. Increase refuse disposal costs to cover additional cost of carbon credits (\$668k)
10. Update property revenue to reflect latest lease details (\$32k)
11. Increase cemetery budgets to allow for natural burials (\$15k)
12. Increase corporate vehicle budgets (\$11k)

**THE FOLLOWING GROUPS ARE
ENCOURAGED TO APPLY FOR
LOCAL COMMUNITY SUPPORT
(IN KIND FUNDING UP TO \$5K IN
VALUE):**

1. Anti-Plastic Population
2. Plastic Bag Free Wanaka
3. Te Kakano Aotearoa Trust

STRATEGIC PERFORMANCE FRAMEWORK

OUR PLAN

SUSTAINABLE GROWTH MANAGEMENT

IS THE PRIMARY FOCUS

Our long term aspirations
for the district

COMMUNITY OUTCOMES

Sustainable growth
management

Quality landscapes and
natural environment with
enhanced public access

A safe and healthy
community that is strong,
diverse and inclusive for
people of all age groups
and incomes

Effective and efficient
infrastructure that meets
the needs of growth

High quality urban
environments, respectful
of the character of
individual communities

A strong and diverse
economy

Preservation and
celebration of the
district's local cultural
heritage

What we want to achieve during this 10YP cycle

What we want to achieve before the next 10YP cycle

How we will deliver our priorities

What you can expect from the Council

OUR LONG TERM COUNCIL OUTCOMES

OUR SHORT TERM COUNCIL PRIORITIES

OUR ACTIVITIES

DEFINED LEVELS OF SERVICE FOR OUR ACTIVITIES

CORE INFRASTRUCTURE AND SERVICES

High performing infrastructure and services that:

- > meet current and future user needs and are fit for purpose;
- > are cost-effectively & efficiently managed on a full life-cycle basis;
- > are affordable for the District.

COMMUNITY SERVICES AND FACILITIES

The District's parks, libraries, recreational and other community facilities and services are highly valued by the community.

REGULATORY FUNCTIONS AND SERVICES

Regulatory requirements and services delivered by the Council:

- > encourage compliance;
- > are user friendly;
- > protect the interests of the District;
- > are cost effective; and achieve the regulatory objectives.

ENVIRONMENT

The District's natural and built environment is high quality and makes the District a place of choice to live, work and visit.

ECONOMY

The District has a resilient and diverse economy.

LOCAL DEMOCRACY

The community is well informed and engaged in the activities of Council.

FINANCIAL SUPPORT AND SERVICES

Council expenditure is cost-effective and sustainable.
The Council is trusted and respected for its customer service and stewardship of the District.

Improving long-term asset management planning and project delivery.

Increasing levels of community use and participation.

Improving the cost-effectiveness and efficiency of core services and processes.

Improving the quality and safety of CBDs.
Delivering a new District Plan that enables economic growth and enhances the use, development and protection of the District's natural and physical resources.

Implementing an economic development framework that facilitates a stronger and more diverse economy, and avoids unnecessary compliance costs.

Modernising the way the community engages with the Council and accesses Council services.

Enhancing the quality of our financial reporting and management.
Developing the internal skills, resources and service ethic to deliver the core services more effectively.

KEY PERFORMANCE INDICATORS

HOW WE WILL REPORT OUR SUCCESS

The Key Performance Indicators contained in the report were consulted on in the 10-Year Plan 2015-25 and now include an additional set of Department of Internal Affairs (DIA) measures

OTAGO PERFORMANCE IMPROVEMENT FRAMEWORK

THE OTAGO PERFORMANCE IMPROVEMENT FRAMEWORK BENCHMARKS QLDC'S PERFORMANCE AGAINST OTHER LOCAL TERRITORIAL AUTHORITIES. THIS WILL BE INCLUDED IN OUR ANNUAL REPORT.

RISK MITIGATION

HOW WE WILL MANAGE THE EVENTS THAT COULD STOP US DELIVERING

HEALTH, SAFETY AND WELLBEING

ENSURING THAT ALL QLDC ACTIVITIES FOCUS UPON THE HEALTH, SAFETY AND WELLBEING OF THE COMMUNITY AT ALL TIMES

THE PLANNING PROCESS: OUR CORE BUSINESS

The Council delivers 26 core activities, which fall into seven different group activities. These are: Core Infrastructure and Services; Community Services and Facilities; Regulatory Functions and Services; Environment; Economy; Local Democracy; and Financial Support and Services.

Note: Our financial year runs from 1st July to 30th June.

INFRASTRUCTURE

OUR LONG TERM COUNCIL OUTCOME IS TO PROVIDE:

High performing infrastructure and services that:

- > meet current and future user needs and are fit for purpose;
- > are cost effective and efficiently managed on a full life-cycle basis; and
- > are affordable for the District.

WHY SHOULD YOU CARE?

In December 2014 the Council adopted the 30-year Infrastructure Strategy, as required under the 2014 reforms to the Local Government Act 2002. The strategy is recognised as an important document to continuously improve the provision of core services to the community. The document focuses on the core infrastructure services of drinking water supplies, wastewater collection and treatment, stormwater management and discharge, roading and footpaths.

 = 100 PEOPLE

SMALL TOWN FUNDING, WITH BIG CITY DEMAND

99,302

PEOPLE DURING PEAK PERIODS USING THE DISTRICTS INFRASTRUCTURE

AND ONLY

32,410

RESIDENTS FUNDING SERVICES

WHAT WE DELIVER

We will deliver this outcome through the following activities:

1. Water Supply
 2. Stormwater
 3. Wastewater
 4. Waste Management
 5. Transport, including roading, parking and footpaths.
- Collectively known as 3 Waters

2017/18

WHAT WE ARE PLANNING

We are planning to:

- > improve the reliability and quality of existing core infrastructure services to the District;
- > manage risk and improve resilience of core infrastructure services for a variety of future scenarios including natural hazards, technology changes, climate changes and demographic changes;
- > improve stormwater runoff controls and respond to risks which may impact on the environment;
- > ensure that, as a minimum, key service levels (compliance with drinking water standards) are progressively implemented;
- > balance cost increases with affordability and demand management;
- > adopt an integrated approach to the management of 3 Waters and other infrastructure; and
- > develop a Town Centre Masterplan to address issues relating to urban design, including traffic, public transport, civic wellbeing and parking.

HOW WE MEASURE PERFORMANCE

QLDC defined its performance measures in the 2015 10-Year Plan. The following sections are extracted from this document. Results will be reported in the 2017/18 Annual Report.

HOW WE'LL MEASURE OUR PERFORMANCE...	BASELINE PERFORMANCE (HOW WE PERFORM NOW) <i>As at June 2014</i>	2017/18 TARGET
Percentage variance from original budget for A) capital expenditure B) operational expenditure	New measure to be reported from 2015	A) Range of 0% and -10% B) Range of 0% and -5%
Percentage of Requests for Service (RFS) resolved within specified timeframe	3 Waters: 98.6% Solid waste: 96.7% Roading: 95.6% Internal: 95.6% Pollution: to be recorded from 2015	>95%
Percentage of ratepayers who are satisfied with street cleaning	74.8%	>85%

OTAGO REGIONAL PERFORMANCE FRAMEWORK – BENCHMARK MEASURE FOR INFRASTRUCTURE (TO BE REPORTED IN THE 2017/18 ANNUAL REPORT)

HOW WE WILL BENCHMARK PERFORMANCE WITH OTHER COUNCILS IN OTAGO...	2017/18 TARGET
Percentage of the Council's budgeted capital works programme, including renewals, completed annually.	Benchmark measure, no target set

WATER SUPPLY

27,000 CUBIC METRES OF
WATER PER DAY

WHY SHOULD YOU CARE?

A DRIPPING TAP CAN
WASTE OVER
1,000 LITRES
(ONE CUBIC METRE) OF WATER
PER DAY

ABOUT WATER SUPPLY

QLDC is responsible for approximately 449km of water mains and 11 treatment plants serving approximately 22,939 demand units that between them use a total of approximately 27,000 cubic metres of water per day.

The Council adopted a draft 3 Waters Strategy in June 2011. The strategy recognised that the key to the management of its infrastructure is balancing the affordability of maintaining the existing networks and creating additional capacity with a reduction in risk, aging networks, a demand for growth, and an improved level of service.

Supplying safe and clean drinking water is a core responsibility and legal obligation. The Council's view is that we cannot afford to risk lives and health of vulnerable people, a community's economy or the district's reputation through an outbreak of waterborne disease linked to a contaminated public supply. Most of our district is already serviced by a chlorinated supply.

WHAT WE ARE PLANNING

We are planning to:

- > improve the reliability of water pressure for customers on the hills bordering the Wanaka township;
- > investigate the most efficient method of providing water supply services to Cardrona into the future;
- > expand non-lake water sources to diversify water uptakes to manage risk and deliver safe, reliable water to Queenstown and its surrounds;
- > complete the upgrades to the water treatment plants in Wanaka and Queenstown to meet the New Zealand Drinking Water Standards by installing water clarification, advanced control systems and installation of the final chlorination water disinfection units;
- > undertake initial investigations into water supply backflow prevention framework;
- > seek additional advice and information in relation to the potential permanent chlorination of the water supplies for Hawea, Arrowtown and Glenorchy; and
- > ensure all water supplies are equipped to emergency chlorinate, should the need arise.

HOW WE MEASURE PERFORMANCE

QLDC defined its performance measures in the 2015 10-Year Plan. The following sections are extracted from this document. Results will be reported in the 2017/18 Annual Report.

The level of service our community can expect from this activity:

The council provides reliable drinking water that is safe to drink.

HOW WE'LL MEASURE OUR PERFORMANCE...	BASELINE PERFORMANCE (HOW WE PERFORM NOW) <i>As at June 2014</i>	2017/18 TARGET
Annual cost per cubic metre of water supplied	\$0.80	<\$0.94*

NOTES

*Targets account for increased capital, power and treatment costs.

DEPARTMENT OF INTERNAL AFFAIRS MANDATORY MEASURES FOR INFRASTRUCTURE (TO BE REPORTED IN THE 2017/18 ANNUAL REPORT)

HOW THE DEPARTMENT OF INTERNAL AFFAIRS (DIA) WILL MEASURE OUR PERFORMANCE FOR DRINKING WATER...	2017/18 TARGET
Compliance of each municipal water supply with the New Zealand Drinking Water Standards for protecting public health, specifically: A) bacteriological compliance; and B) protozoal compliance.	Full compliance by 2018
Percentage of water lost from each municipal water reticulation network.	<40%
Median response time to attend to urgent and non urgent issues resulting from municipal water reticulation network faults and unplanned interruptions: A) between the time of notification and the time when service personnel reach the site; and B) between the time of notification and resolution of the fault or interruption	A) <60mins B) <4 hours
Number of complaints per 1000 connections to a public water reticulation network about: A) the clarity of drinking water; and B) the taste of drinking water; and C) the odour of drinking water; and D) the pressure or flow of drinking water; and E) the continuity of supply of drinking water; and F) the way in which a local government organisation responds to issues with a water supply.	<5 per 1000 connections
Average consumption of water per person per day.	<590L/person/day

WASTEWATER

WHY SHOULD YOU CARE?

IF YOU LAY ALL THE COUNCIL'S WASTEWATER MAINS
OUT IN A LINE THEY WOULD REACH FROM

QUEENSTOWN TO
FRANZ JOSEF GLACIER

ABOUT WASTEWATER

QLDC is responsible for approximately 408km of wastewater mains, 61 pump stations and 4 treatment plants serving approximately 21,353 demand units that between them discharge a total of approximately 13,200 cubic metres of wastewater per day. This includes the larger plants, namely Project Pure (wastewater treatment plant and disposal to land at Wanaka) and the Shotover Ponds (wastewater treatment plant and disposal to the Shotover River).

2017/18

WHAT WE ARE PLANNING

We are planning to:

- > undertake rationalisation exercise and upgrade wastewater services for the communities on the outskirts of Wanaka;
- > monitor and observe the operations of the newly commissioned Project Shotover wastewater treatment plant prior to handover to Council;
- > investigate the most efficient and effective method of providing wastewater services to Cardrona, Glenorchy and Kingston into the future; and
- > implement the 2014 Trade Waste Bylaw district-wide, including a customer consenting, billing and monitoring/regulatory system.

HOW WE MEASURE PERFORMANCE

QLDC defined its performance measures in the 2015 10-Year Plan. The following sections are extracted from this document. Results will be reported in the 2017/18 Annual Report.

The level of service our community can expect from this activity: <i>The council provides reliable wastewater collection and treatment services that protect public health and the environment.</i>		
HOW WE'LL MEASURE OUR PERFORMANCE...	BASELINE PERFORMANCE (HOW WE PERFORM NOW) <i>As at June 2014</i>	2017/18 TARGET
Median response time to attend to sewage overflows resulting from blockages or other faults of a municipal sewerage system*: A) between the time of notification and the time when service personnel reach the site; and B) Between the time of notification and resolution of the blockage or other fault.	A) 60 minutes B) 3.9 hours	A) <60mins B) <4 hours
Annual cost per cubic metre of wastewater collected and treated	\$2.15	<\$2.30**

NOTES

*Targets account for increased capital, power and treatment costs.

DEPARTMENT OF INTERNAL AFFAIRS MANDATORY MEASURES FOR INFRASTRUCTURE (TO BE REPORTED IN THE 2017/18 ANNUAL REPORT)

HOW THE DEPARTMENT OF INTERNAL AFFAIRS (DIA) WILL MEASURE OUR PERFORMANCE FOR WASTEWATER...	2017/18 TARGET
Annual number of dry weather overflows from a municipal sewerage system per 1000 sewerage connections.	<3 per 1000 connections
Compliance with resource consents for discharge to air, land, or water from a municipal sewerage system, measured by the number of: A) abatement notices; and B) infringement notices; and C) enforcement orders; and D) successful prosecutions.	100%
Median response time to attend to sewage overflows resulting from blockages or other faults of a municipal sewerage system: A) between the time of notification and the time when service personnel reach the site; and B) between the time of notification and resolution of the blockage or other fault.	A) 60 mins B) 4 hours
Number of complaints per 1000 properties connected to a municipal sewerage system about: A) odour; and B) faults C) blockages, and D) the territorial authority's response to issues with its sewerage system	<5 per 1000 properties

STORMWATER

WHY SHOULD YOU CARE?

STORMWATER IS A LEADING CAUSE OF WATER POLLUTION. IT RUNS OFF THE GROUND OR IMPERVIOUS SURFACES AND COLLECTS POLLUTANTS SUCH AS OIL, PESTICIDES, SEDIMENTS, BACTERIA, AND OTHER CHEMICALS, AND THEN DEPOSITS THEM DIRECTLY INTO OUR WATERWAYS. THIS RUNOFF CAN KILL AQUATIC LIFE, AND MAKE OUR WATERWAYS AN UNHEALTHY PLACE TO LIVE, WORK, AND PLAY.

ABOUT STORMWATER

QLDC is responsible for approximately 226km of stormwater mains, 64 detention basins and a number of interceptors (basic stormwater separators) serving around 23,543 demand units. The system caters for an average 10-year flood event (i.e. the scale of a flood that is predicted to occur once a decade).

2017/18

WHAT WE ARE PLANNING

We are planning to:

- > review and update the stormwater management catchment plans in response to the needs of new and existing growth areas.

HOW WE MEASURE PERFORMANCE

QLDC defined its performance measures in the 2015 10-Year Plan. The following sections are extracted from this document. Results will be reported in the 2017/18 Annual Report.

The level of service our community can expect from this activity: <i>The council provides storm water drainage services that protect public health and private properties.</i>		
HOW WE'LL MEASURE OUR PERFORMANCE...	BASLINE PERFORMANCE (HOW WE PERFORM NOW) <i>As at June 2014</i>	2017/18 TARGET
Number of flooding events each year to habitable floors per 1000 properties resulting from overflows from a municipal storm water system*	0.5 per 1000 connections	<2 per year

NOTES

* Also a Department of Internal Affairs mandatory measure

DEPARTMENT OF INTERNAL AFFAIRS MANDATORY MEASURES FOR INFRASTRUCTURE (TO BE REPORTED IN THE 2017/18 ANNUAL REPORT)

HOW THE DEPARTMENT OF INTERNAL AFFAIRS (DIA) WILL MEASURE OUR PERFORMANCE FOR STORMWATER...	2017/18 TARGET
Number of flooding events each year to habitable floors per 1000 properties resulting from overflows from a municipal stormwater system	<2 per 1000 properties
Compliance with resource consents for discharge from a municipal stormwater system, measured by the number of: A) abatement notices; and B) infringement notices; and C) enforcement orders; and D) successful prosecutions.	100%
Median response time between the time of notification and the time when service personnel reach the site when habitable floors are affected by flooding resulting from faults in a municipal stormwater system.	<3 hours
Number of complaints per 1000 properties connected to a municipal stormwater system about: A) faults (including blockages) with a municipal storm water system.	<5 per 1000 properties

NOTE The Council will not report against any flood protection measures as it does not own any major flood protection or control works.

TRANSPORT, INCLUDING ROADING, PARKING AND FOOTPATHS

WHY SHOULD YOU CARE?

HAAST-MAKARORA ROAD

THE RELATIVE TOURISM IMPORTANCE IN DOLLARS OF THE HAAST-MAKARORA ROAD IS EQUIVALENT TO THAT OF THE AUCKLAND HARBOUR BRIDGE, YET THE ANNUAL VOLUME ON THE ROAD IS LESS THAN 1% OF THE BRIDGE.

AUCKLAND HARBOUR BRIDGE

ABOUT ROADS AND FOOTPATHS

The Council is accountable for just over 800km of local roads with a number of public car parks located throughout the district. This includes maintaining street lights and signage. In addition, there are 232km of state highways within the district and these are managed by New Zealand Transport Agency (NZTA). The Council's transport activities are funded from a combination of local and central government funding sources.

2017/18

WHAT WE ARE PLANNING

We are planning to:

- complete Hawthorne Drive, linking the Remarkables Park end of Frankton with SH6 and Glenda Drive;
- use One Network Road Classification and Business Case frameworks within QLDC's processes;
- continue to develop and refine the sealed road and pavement programmes with the New Zealand Transport Agency;
- investigate improved drainage for the district's road network;
- stage upgrades for lighting in Luggate, Glenorchy and Hawea; and
- maintain gravel roads and dust suppression programmes.

HOW WE MEASURE PERFORMANCE

QLDC defined its performance measures in the 2015 10-Year Plan. The following sections are extracted from this document. Results will be reported in the 2017/18 Annual Report.

The level of service our community can expect from this activity: <i>The Council provides a road and footpath network that accommodates seasonal and future growth.</i>		
HOW WE'LL MEASURE OUR PERFORMANCE...	BASELINE PERFORMANCE (HOW WE PERFORM NOW) <i>As at June 2014</i>	2017/18 TARGET
Sealed road closures (planned and unplanned) that exceed the Council's service standard (<i>one per month, no longer than 8 hours and not during peak demand times</i>)	0.83	Not more than 1 per month
Annual cost per km to maintain and operate A) sealed roads B) unsealed roads	A) \$129 per km B) \$85 per km	A) <\$129 B) <\$85
Percentage of ratepayers who are satisfied with unsealed roads	60.2%	69%

NOTES

* Static costs aimed for in order to demonstrate efficiency, but 1.5% anticipated as inflation.

DEPARTMENT OF INTERNAL AFFAIRS MANDATORY MEASURES FOR INFRASTRUCTURE (TO BE REPORTED IN THE 2017/18 ANNUAL REPORT)

HOW THE DEPARTMENT OF INTERNAL AFFAIRS (DIA) WILL MEASURE OUR PERFORMANCE FOR ROADS AND FOOTPATHS...	2016/17 TARGET
The annual change in the number of fatalities and serious injury crashes on the local road network, or the number of deaths and serious injuries per million vehicle km travelled on local roads	To report a decrease on the previous year
The average quality of ride on a sealed local road network, as measured by the Smooth Travel Exposure Index.	>80%
Percentage of a sealed local road network that is resurfaced annually.	<10%
Percentage of a local footpath network that is part of a local road network that falls within a local government organisation's level of service or service standard for the condition of footpaths.	95%
Percentage of customer service requests responded to within a specified time frame.	>95%

WASTE MANAGEMENT

WHY SHOULD YOU CARE?

EACH RESIDENT SENDS THE EQUIVALENT WEIGHT OF AN ADULT POLAR BEAR IN WASTE TO LANDFILL EACH YEAR

ABOUT WASTE MANAGEMENT

Waste minimisation and recycling services include weekly kerbside refuse and recycling collections, recycling litterbins, resource recovery parks, green waste drop off sites, composting facilities and promotion of other waste minimisation initiatives. Rural areas are serviced by rural drop off points where economically viable. A landfill facility at Victoria Flats and transfer stations in Queenstown and Wanaka process waste and manage the safe disposal of hazardous materials. The Council contracts waste and recycling to third parties.

2017/18

WHAT WE ARE PLANNING

We are planning to:

- > investigate long-term options for the re-use or disposal of bio-solids from the upgraded Wanaka and Queenstown wastewater treatment plants; and
- > review waste minimisation plans and activities in response to recent increases in waste volumes at rates greater than population growth.

HOW WE MEASURE PERFORMANCE

QLDC defined its performance measures in the 2015 10-Year Plan. The following sections are extracted from this document. Results will be reported in the 2017/18 Annual Report.

The level of service our community can expect from this activity:

The council provides waste and recycling services that protect public health and the environment.

HOW WE'LL MEASURE OUR PERFORMANCE...	BASLINE PERFORMANCE (HOW WE PERFORM NOW) <i>As at June 2014</i>	2017/18 TARGET
Kilograms of residential waste to landfill per head of population*	188kg	<155kg

NOTES

* Waste and recycling KPI to include a breakdown of commercial waste and waste diverted from landfill (recycling).

COMMUNITY SERVICES AND FACILITIES

OUR LONG TERM COUNCIL OUTCOME IS:

The District's parks, libraries, recreational and other community facilities and services are highly valued by the community.

4 SKATE PARKS

50 PUBLIC TOILETS

2,084HA
OF PARKS AND RESERVES

40
PLAYGROUNDS

12
CEMETERIES

OVER 150KM
OF WALKWAYS, TRACKS AND
MOUNTAIN BIKE TRAILS

QUEENSTOWN GARDENS AND
WANAKA STATION PARK

WHY SHOULD YOU CARE?

IF YOU BORROWED ONE ITEM A WEEK, IT WOULD TAKE YOU

2164 YEARS

TO READ YOUR WAY THROUGH ALL THE BOOKS IN OUR LIBRARIES.

WHAT WE DELIVER

LIBRARY SERVICES

There are seven libraries in the Queenstown Lakes District. These are Queenstown, Wanaka, Arrowtown, Kingston, Glenorchy, Hawea and Makarora. QLDC operates a shared services model with Central Otago District Council, in order to expand the collection and services available for all library patrons. Libraries are a key community resource and an important part of the district's cultural landscape. With literacy at the heart of all activities, QLDC libraries provide high quality electronic and traditional resources to a national standard.

PARKS, RESERVES AND OPEN SPACES

Council is responsible for over 2,084ha of parks and reserves from neighbourhood parks to natural areas, forests and sports parks. It provides an extensive network of modern playgrounds and facilitates a wide

range of activity including golf, bowls, specialised mountain biking parks, skateparks, cross country skiing and other sporting activities.

This activity provides and maintains a network of walking and cycle trails across the District including the New Zealand Cycleway and Te Araroa Walkway.

The Council undertakes maintenance of the Queenstown Gardens and all amenity horticulture work with its own staff, while mowing, tree maintenance and building maintenance is undertaken under contract by Asplundh (NZ) Limited.

Some of the facilities the Council supports and/or maintains include:

- > Queenstown Gardens and Wanaka Station Park;
- > 40 playgrounds and four skate parks;
- > three BMX jump parks in association with local mountain bike clubs;

- > 32 ha of sports fields in Queenstown, Arrowtown and Wanaka and Hawea; and
- > over 150km of walkways, tracks and mountain bike trails.

FORESTS

QLDC owns three forests: Ben Lomond Reserve, Queenstown Hill Reserve and part of the Coronet Forest, shared with Central Otago District Council (CODC), in a 75:25 split.

Forests are designated under the QLDC Operative District Plan. This means that the land can be used primarily for the purpose of planting, tending, managing and harvesting of trees for timber and wood production. As QLDC's forests are production forests the Council can take advantage of spikes in export and domestic log markets by obtaining a profitable return for the valuable timber resource.

Most of the QLDC forests have been

classified as Pre-1990 forests under the New Zealand Emissions Trading Scheme. QLDC must replant if the forests are felled under this scheme. QLDC has been allocated carbon credits for the restriction on land use.

All forests have a Forestry Plan and are managed in line with these plans.

The reserve forests of Ben Lomond and Queenstown Hill need to be managed for a number of reasons:

- > Exotic species are spreading, smothering indigenous vegetation within the reserves and spreading well beyond the reserve boundaries. There is a need to contain the forest and remove it from areas where native forest can be restored.
- > The forests form the backdrop to Queenstown providing both a recreation resource and a unique scenic landscape. There is a need to protect Queenstown's scenic appeal and enhance recreation opportunities.

- > The forest protects the town from rock fall but also poses a significant fire risk, particularly if wood volumes are left unchecked.
- > The forests contain some of the fastest growing Douglas fir in New Zealand so there is an opportunity to harvest timber in a sustainable manner to generate revenue for the management of the District's parks and reserves and wilding conifer control.

Forestry Management objectives are to:

- > manage exotic forest to recover merchantable timber where amenity can be improved and recreational opportunities and indigenous vegetation enhanced;
- > ensure the logging operations minimise impacts on landscape and recreation values and existing facilities; and
- > ensure the safety of the public and other facilities on the reserve

Coronet Forest is a production forest and needs to be managed so that maximum return is realised at harvest.

The management objectives for the Coronet Forest are to grow a crop of Douglas fir for maximum profitability within the constraints of:

- > good forestry practice;
- > sustainable land use; and
- > respecting the wider social objectives (of landscape and public use) of the QLDC as contained within the District Plan.

However given the wilding pine issue as outlined, the objectives have been revisited.

Coronet Forest only contains one recreational licence holder.

SPORT AND RECREATION

The Sport and Recreation department manages a range of facilities around the district. These include pools, gyms, multiuse indoor facilities, event venues, sport fields, artificial climbing walls, outdoor multi-sport artificial turfs and wedding venues. QLDC provides community programmes, Swim for Life, climbing programmes and multiple community sporting events. Our mantra is, "more people, more active, more often."

PUBLIC TOILETS

The Council provides 50 public toilets in order to enhance the public's experience of our outdoor places and to protect the public environment. The goal is to provide clean, accessible and conveniently located toilets.

The introduction of counters to new toilet facilities and radio frequency tags for maintenance monitoring has enabled the Council to consistently improve toilet facilities available to the community.

CEMETERIES

This activity assists the community by enabling healthy grieving and memorialisation. There are 12 designated cemeteries under QLDC ownership. There are operating cemeteries at Makarora, Queenstown, Glenorchy, Frankton, Kingston, Cardrona, Wanaka, Lake Hawea, Skippers and Arrowtown.

All cemeteries in the District are of major historical importance, including Skippers and Macetown Cemeteries. Of these only Macetown is 'closed'. A cemetery has been provided at Lower Shotover to meet future demand. Its development will continue with the area's opening dependent on need.

WHAT WE ARE PLANNING

COMMUNITY PROPERTY (HOUSING)

The Council manages and maintains nine, one-bedroom elderly person's flats. It further manages and maintains five residential houses and six residential apartments. Council continues to implement ongoing actions and supports the Queenstown Lakes District Housing Trust in the provision of affordable housing in the District.

WANAKA AIRPORT

Wanaka Airport is located off the Wanaka-Luggate Highway (SH6) approximately 13km to the southeast of Wanaka and 2.5km west of the township of Luggate. The Airport occupies approximately 38ha of land.

The airport has two parallel runways. The main runway is sealed and is 1,200m long and 30m wide. The secondary grass runway is 840m long and 40m wide and is primarily used by smaller and vintage aircraft.

The airport has a number of established commercial and private facilities on leased sites, including a range of aviation maintenance businesses, a skydive facility and a helicopter training

establishment.

Wanaka Airport is also the location for the Warbirds Over Wanaka Community Trust tourist attraction, featuring Warbirds aircraft, vintage cars, other museum attractions and a diner-style café.

COMMUNITY GRANTS

The Council is involved in this activity as a way of providing financial support to various community groups. Currently the Council funds a total of \$679,513 to 31 groups and activities in the region, with a further \$105,000 in 16/17 approved through the consultation process for one-off amounts towards specific projects and activities.

The majority of groups supported are either set up as trusts or registered incorporated societies. These groups applied for and use their grant to cover operational costs such as rent or for specific projects each year i.e. track maintenance.

The Council also works to ensure that community groups can access funding available through other agencies.

We are planning to:

- create a new 'Community Services' division and Community Services General Manager. This will ensure community services are developed consistently and to a high quality;
- deliver increased e-resources across the library network - including the range of e-books and e-audio books on offer;
- complete the Wanaka Pool in early 2018 and plan for the Wanaka Sports Hub;
- develop the sports and activities' Regional Facilities Strategy;
- undertake improvements to the open spaces and facilities on the Queenstown and Wanaka lakefronts; and
- develop open space network planning to inform current and future needs.

HOW WE MEASURE PERFORMANCE

QLDC defined its performance measures in the 2015 10-Year Plan. The following sections are extracted from this document. Results will be reported in the 2017/18 Annual Report.

SPORTS AND RECREATION FACILITIES (POOLS AND GYMS)

The level of service our community can expect from this activity:

The council provides pools and gyms that are clean, safe and enjoyable places to visit.

HOW WE'LL MEASURE OUR PERFORMANCE...	BASLINE PERFORMANCE (HOW WE PERFORM NOW) As at June 2014	2017/18 TARGET
*Percentage of residents who are gym members (based on the Wakatipu population within the age range 15-69)	11.35%	12.5%
*Percentage of residents who use their local pool at least once a month for A) Alpine Aqualand B) Wanaka Pool (Based on Wakatipu population and Wanaka population)	A) 15% B) 8%	A) 15% B) 8%
Net direct cost per pool admission (Alpine Aqualand)**	\$2.12 (2014 Yardstick facilities benchmark report)	<\$2.12 or within the top 50% of pools nationally
Number of serious incidents per 10,000 pool admissions (Alpine Aqualand and Wanaka Pool)	0.17 (2014 Yardstick facilities benchmark report)	<0.17 or within the top 25% of pools nationally

NOTES

*Reporting will take into account population growth.

**The net direct operating cost is calculated from the direct operating costs (energy, staff, chemicals, water supply, building maintenance, plant and equipment maintenance) minus the operating revenue received from admissions. This figure is then divided by the total number of admissions. Excludes capital, depreciation and interest costs.

COMMUNITY FACILITIES AND VENUES

The level of service our community can expect from this activity:

The Council provides facilities and venues for community activities and events.

HOW WE'LL MEASURE OUR PERFORMANCE...	BASLINE PERFORMANCE (HOW WE PERFORM NOW) <i>As at June 2014</i>	2017/18 TARGET
Average occupancy rate for community facilities: > Queenstown Events Centre (including indoor and outdoor courts, playing fields, oval and meeting room) > Lake Hayes Pavilion > Queenstown Memorial Centre > Arrowtown Community Hall > Wakatipu Grounds > Lake Wanaka Centre > Wanaka parks and sports fields	60%	>70%
Variance from budget on property expenditure (commercial and community) for: A) capital expenditure B) operational expenditure	New measure to be reported from 2015	A) Range of 0% and -10% B) Range of 0% and -5%

LIBRARIES

The level of service our community can expect from this activity:

The Council provides library facilities for the community to access a wide range of resources for information, leisure and cultural enjoyment.

HOW WE'LL MEASURE OUR PERFORMANCE...	BASLINE PERFORMANCE (HOW WE PERFORM NOW) <i>As at June 2014</i>	2017/18 TARGET
Percentage of residents who are library members and borrow at least once a month (average across all library facilities)	16%	>20%

PARKS AND TRAILS

The level of service our community can expect from this activity:

The Council provides well maintained green space, trails and cycle ways for the community to enjoy sports and leisure activities.

HOW WE'LL MEASURE OUR PERFORMANCE...	BASELINE PERFORMANCE (HOW WE PERFORM NOW) As at June 2014	2017/18 TARGET
Cost per hectare to maintain and manage the district's parks and reserves	\$1967 per hectare	<\$1955
Average daily use of trails	New measure to be recorded from 2015	No target**

NOTES

*The Council maintains 1465 hectares of parks and reserves (including sports fields) across the district. Maintenance costs are inclusive of staff salaries. Annual savings will be as a result of efficiency savings and not changes in the level of service.

**To report an average count of people using the Queenstown trail.

RESIDENT AND RATEPAYER SATISFACTION

The level of service our community can expect from this activity:

The Council provides community services and facilities that users, residents and ratepayers say they are satisfied with.

HOW WE'LL MEASURE OUR PERFORMANCE...	BASELINE PERFORMANCE (HOW WE PERFORM NOW) As at June 2014	2017/18 TARGET
Percentage of community services and facilities users who are satisfied with: A) Sports facilities B) Libraries C) Parks D) Community venues and facilities	New measure to be recorded from 2015	85%
Percentage of ratepayers who are satisfied with: A) Toilets B) Playgrounds C) Trails	A) 71.9% B) 85% C) 90.2%	A) 85% B) 90% C) 95%

OTAGO REGIONAL PERFORMANCE FRAMEWORK – BENCHMARK MEASURE FOR COMMUNITY SERVICES AND FACILITIES

HOW WE WILL BENCHMARK PERFORMANCE WITH OTHER COUNCILS IN OTAGO...	2017/18 TARGET
Percentage of residents and ratepayers who are satisfied with the quantity and quality of community facilities (including percentage of ratepayers who have used a community facility in the last 12 months?)	Benchmark measure, no target set

REGULATORY FUNCTIONS AND SERVICES

PARKING AND
FREEDOM
CAMPING

OUR LONG TERM COUNCIL OUTCOME IS:

Regulatory requirements and services delivered by the Council:

- > encourage compliance;
- > are user friendly;
- > protect the interests of the District;
- > are cost effective; and achieve the regulatory objectives.

ALCOHOL

LITTERING

ANIMAL
CONTROL

WHY SHOULD YOU CARE?

WE HAVE
4541

REGISTERED DOGS. THE MOST COMMON DOG'S NAME IS BELLA – WE HAVE 53 OF THEM REGISTERED, CLOSELY FOLLOWED BY JACK AT 45 AND RUBY AND MOLLY AT 40 EACH

WHAT WE DELIVER

BUILDING CONSENTS

QLDC provides the necessary controls relating to building work and use of buildings, and ensuring that buildings which are constructed are safe, sanitary and have adequate means of escape from fire. This activity primarily relates to the administration of the Building Act 2004 and Regulations. Activities include receiving, considering and (where appropriate) issuing building consents within the prescribed time limits, carrying out inspections of building work in progress and certifying buildings on completion. The Council works with the other design professionals, builders and owners to encourage them to provide their certification and documentation for their responsibilities. Other activities undertaken include issuing Project Information Memoranda (PIMs), Land Information Memoranda (LIMs), Compliance Schedules and receiving Building Warrants of Fitness from building owners on an annual basis.

ENFORCEMENT

Parking and Freedom Camping

Patrols are undertaken seven days a week across the District to ensure compliance with national legislation and local regulations. The Freedom Camping Bylaw will be reviewed this year to meet community needs.

Animal Control

QLDC enforces the Dog Control Act 1996 and Council Bylaws relating to Dog Control, in addition to the enforcement of the Animal Welfare Act 1999 as it relates to dogs, so that residents are safe, nuisances are minimised and the welfare of animals is protected.

Alcohol

QLDC provides enforcement and monitoring of licensed premises and events to ensure compliance with the Sale and Supply of Alcohol Act 2012.

Noise

QLDC provides a 24/7 noise complaint service in response to antisocial

behaviour regarding noise. The majority of complaints relate to stereo noise and associated people noise.

Whilst people noise is a matter for the Police, QLDC works collaboratively in these situations and will seize stereos to abate the noise where necessary.

Littering

QLDC works with the community to reduce the level of littering and enforces the Litter Act 1979.

Waterways

QLDC provides a range of recreational boating facilities so that the community can safely utilise waterways for recreation and commercial activity. This includes the provision of a harbourmaster to enforce bylaws and regulations to promote water safety.

QLDC provides a range of boat ramps, jetties and moorings to facilitate the use of waterways and maintains a register of waterway structures and foreshore licences. This includes the maintenance

and development of Council owned waterways facilities including ramps and jetties. The Council maintains boat ramps and associated structures at Glenorchy, Sunshine Bay, St Omer Park, Bay View (Kelvin Peninsula), Frankton Marina, Kingston, Hawea foreshore and Roys Bay (Wanaka).

A programme of regular inspections are undertaken by qualified personnel to ensure waterway facilities are safe, that routine maintenance is being undertaken and that capital repairs are forecast and planned well ahead of time. QLDC has also developed a Jetties and Moorings Policy which gives guidance to those who already own a jetty or mooring and those wishing to do so, on Frankton Arm, Queenstown Bay and Kingston Arm. It allows council to fully consider the cumulative effects of new applications and it sets out the issues of public access.

The purpose of this function is to control, inspect, enforce and promote

2017/18

WHAT WE ARE PLANNING

waterway safety in all respects. It includes the provision of Harbourmaster services, which is contracted to Southern Lakes Monitoring Services. Harbourmaster services are provided 365 days a year.

Environmental Health

The Environmental Health Team's regulatory role is to promote, protect and improve the health of our community, through the application of various legislative requirements regarding premises such as food businesses, hairdressers, camping grounds and offensive trades.

We are planning to:

- > continue to build capacity and expertise in the building consents team to meet targets, despite unprecedented growth in the district and numbers of building consent applications;
- > enhance awareness of wearing life jackets by taking part in a world record attempt campaign run jointly with Maritime NZ;
- > review the following bylaws - Brothel bylaw, Navigation Safety bylaw, Waterways and Ramp Fees bylaw, Alcohol Ban bylaw, and Freedom Camping bylaw;
- > increase freedom camping patrols in Queenstown and Wanaka, and expand the areas for 'clamping';
- > target priority areas and increase the monitoring of resource consents;
- > undertake a strategic analysis of alcohol related harm and targets, and increase the monitoring of licensed premises and licensed events;
- > closely monitor the food premises involved in the Year 1 Food Act transition; and
- > increase parking and animal control enforcement in Wanaka, continue the evening patrols in Queenstown as part of the town centre strategy, and heighten the focus on Arrowtown and Frankton.

HOW WE MEASURE PERFORMANCE

QLDC defined its performance measures in the 2015 10-Year Plan. The following sections are extracted from this document. Results will be reported in the 2017/18 Annual Report.

BUILDING CONSENTS

The level of service our community can expect from this activity:

The Council provides effective and cost effective processing of resource and building applications

HOW WE'LL MEASURE OUR PERFORMANCE...	BASELINE PERFORMANCE (HOW WE PERFORM NOW) <i>As at June 2014</i>	2017/18 TARGET
Percentage of building consents processed within statutory timeframes	New measure to be reported from 2015	100%

ENFORCEMENT

The level of service our community can expect from this activity:

The Council provides effective and appropriate enforcement and control of activities to minimise the potential harm to the public.

HOW WE'LL MEASURE OUR PERFORMANCE...	BASELINE PERFORMANCE (HOW WE PERFORM NOW) <i>As at June 2014</i>	2017/18 TARGET
Percentage of urgent requests responded to (between time of notification and personnel arriving on site) within two hours for A) animal control B) water safety	New measure to be reported from 2015	100%
Percentage of very high and high risk liquor* premises inspected at least quarterly	New measure to be reported from 2015	25% quarterly / 100% annually
Percentage of registered food premises that are grading inspected at least annually	95%	100%**
Percentage of ratepayers who are satisfied with Council management of enforcement activity for: A) Freedom camping B) Noise complaints C) Dog control D) Harbourmaster	A) New measure to be recorded from 2015 B) 52.3% C) 50.8% D) New measure to be recorded from 2015	A) 60% B) 65% C) 65% D) 60%

NOTES

*The framework for determining very high and high risk liquor premises can be found on the Council's website. The framework weights premises according to their type, latest alcohol sales time and number of enforcements within the last 18 months.

**the new Food Act may amend the inspection requirements for food premises and therefore affect this target

OTAGO REGIONAL PERFORMANCE FRAMEWORK – BENCHMARK MEASURE FOR REGULATORY FUNCTIONS AND SERVICES

HOW WE WILL BENCHMARK PERFORMANCE WITH OTHER COUNCILS IN OTAGO...	2017/18 TARGET
Percentage of building and resource consents issued within statutory times, and average building and resource consent processing days	Benchmark measure, no target set

ENVIRONMENT

OUR LONG TERM COUNCIL OUTCOME IS THAT:

The District's natural and built environment is high quality and makes the District a place of choice to live, work and visit.

WHY SHOULD YOU CARE?

LAKE HAWEA IS
OUR DISTRICT'S
DEEPEST LAKE AT

392M

WHAT WE DELIVER

DISTRICT PLAN

The District Plan explains how Council will manage the environment, in accordance with the requirements of the Resource Management Act. It sets out what activities you can do as of right, what activities you need resource consent for, and how certain activities may be carried out. It also sets out a strategic direction for the District in terms of where and how development should occur.

The Queenstown Lakes District Plan was made fully operative on 10 December 2009.

Council has been working on a review of that plan and notified Stage 1 of a new Proposed District Plan on 26 August 2015. The submission period ended in mid December 2015 and the hearings

into the submissions received have been held throughout 2016 and are scheduled to continue through to late 2017. Notification of Stage 2 of the proposed plan is scheduled to occur mid 2017.

RESOURCE CONSENTS

A Resource Consent is a written approval from the Council to undertake an activity that is not permitted as of right in the District Plan (a permitted activity). The process for granting a Resource Consent is governed by the Resource Management Act 1991 and the District Plan. The types of Resource Consent issued by QLDC include:

- > Land use consents - this term applies to most resource consents and includes things like constructing a building, undertaking an activity,

running an event, carrying out earthworks, clearance of large areas of vegetation, and commercial activities such as jet boat operating, fishing guiding, and kayak hire/ guiding. etc.

- > Subdivision consents - subdividing land to create one or more additional lots or Unit Titles or altering a boundary.

POLLUTION

QLDC is one of the guardians of our unique environment, working in partnership with the Otago Regional Council, the Department of Conservation and a number of valued interest groups. QLDC is responsible for contracting services that relate to swift management of pollution discharges to land and water.

WHAT WE ARE PLANNING

We are planning to:

- > develop a housing and accommodation taskforce to tackle issues relating to growth and affordability;
- > launch a review of visitor accommodation and investigate the case for change;
- > progress the case for a housing accord with central government;
- > complete stage two of the proposed District Plan; and
- > improve the ability of the resource consents team to achieve monthly targets, despite unprecedented growth in the district and in application numbers.

HOW WE MEASURE PERFORMANCE

QLDC defined its performance measures in the 2015 10-Year Plan. The following sections are extracted from this document. Results will be reported in the 2017/18 Annual Report.

RESOURCE CONSENTS

The level of service our community can expect from this activity:

The Council provides efficient and cost effective processing of resource and building applications that are considered for environmental impact.

HOW WE'LL MEASURE OUR PERFORMANCE...	BASELINE PERFORMANCE (HOW WE PERFORM NOW) As at June 2014	2017/18 TARGET
Percentage of total resource consents made by the owner as applicant (non-professional)	36%	>50%
Median charge per resource consent (including levied and incurred cost) by: A) Notified B) Building consents	New measure to be recorded from 2015	A) <\$12,000 B) <\$1,500
Percentage of consents processed within statutory timeframes: A) Resource consents B) Building consents	A) 100% B) 93%	A) 100% B) 100%
Percentage of applicants who are satisfied with the consenting process	New measure to be recorded from 2015	100%

ENVIRONMENT

The level of service our community can expect from this activity:

The Council takes all practicable steps to protect the environment.

HOW WE'LL MEASURE OUR PERFORMANCE...	BASELINE PERFORMANCE (HOW WE PERFORM NOW) <i>As at June 2014</i>	2017/18 TARGET
Percentage of ratepayers who are satisfied with the steps Council is taking to protect the environment	New measure to be reported from 2015	60%
Percentage of pollution related Requests for Service (RFS) resolved within specified timeframes*	New measure to be reported from 2015	100%

NOTES

* Pollution relates to discharges to land and water. Discharges to air are dealt with by the Otago Regional Council.

ECONOMY

OUR LONG TERM COUNCIL OUTCOME IS:

The District has a resilient and diverse economy.

WHY SHOULD YOU CARE?

WHAT WE DELIVER

ECONOMIC DEVELOPMENT

Economic development is the combination of policies, investments and actions that improve the ability of organisations and people in a community to more productively and effectively respond to opportunities. QLDC's aim is to achieve a high standard of living and quality of life for all residents.

The district faces a range of economic strengths and challenges, that need to be taken into account. With a vibrant entrepreneurial spirit and a highly skilled workforce, it's unsurprising that the visitor economy has thrived amongst the incredible natural amenities available. However, our size and location, the cost of living and the pressure of visitor numbers on infrastructure has challenged the growth of a diverse and sustainable economy.

QLDC's economic development strategy proposes four clear objectives to address initially:

- > Enhance the quality of our natural, business and living environments.
- > Facilitate the growth of the knowledge-based sector that reflect the District's advantages.
- > Attract higher contributing visitors and generate a proportionately higher level of expenditure from visitors.
- > Develop a long-term, sustainable approach to investing in infrastructure, that will support and enable future growth.

TOURISM PROMOTION

The Council actively encourages tourist operations that not only share our natural environment with visitors from around the globe, but also treat it with the respect and care it deserves.

The Council supports Destination Queenstown, Lake Wanaka Tourism and the Arrowtown Promotion Board through a mixture of levies and rates. The Council collects levies from local businesses on behalf of each of

these Regional Tourism Organisations (RTOs), and also contributes 5% of their total funding by way of rates, so all ratepayers contribute towards the international promotion of our district.

EVENTS STRATEGY

The Council has committed to provide significant investment to support both commercial and community events in the District. QLDC's vision of this strategy is to promote and support a balanced portfolio of sporting, arts and cultural events that meet community objectives for the District as a whole in respect of recreational activities, community infrastructure and economic growth.

FILM

Regional Film Offices (RFOs) are what are referred to internationally as 'film offices' or 'film commissions'. Broadly speaking, they carry out activities alongside and in partnership with other stakeholders to stimulate economic

growth for their region through screen production attraction and marketing, sector development initiatives for businesses and the internal sector and policy development, screen facilitation and permitting. RFOs successfully facilitate the relationship between the screen sector, government, community and others impacted or benefited by its activity.

COMMERCIAL PROPERTY (INCLUDING CAMPGROUNDS)

The Council administers some recreation reserve land set aside for camping grounds. There are eight Council owned public camping grounds and holiday parks across the District which provide accommodation for holidaymakers. This type of quality short-term camping accommodation is available to support the District's economy and growth. All of the premises are managed for the Council by private operators under various commercial lease arrangements.

WHAT WE ARE PLANNING

We are planning to:

- > continue to support the development of the RTOs, the Events Office and the Film Office;
- > work closely with the business communities and groups across the district to develop effective economic development plans; and
- > launch a contestable Economic Development Fund, to support local initiatives that support the objectives of the Economic Development Strategy.

HOW WE MEASURE PERFORMANCE

QLDC defined its performance measures in the 2015 10-Year Plan. The following sections are extracted from this document. Results will be reported in the 2017/18 Annual Report.

The level of service our community can expect from this activity:

The Council facilitates economic growth in the district.

HOW WE'LL MEASURE OUR PERFORMANCE...	BASELINE PERFORMANCE (HOW WE PERFORM NOW) <i>As at June 2014</i>	2017/18 TARGET
Percentage of commercial ratepayers satisfied with how the tourism promotion rate is being used to market the district	New measure to be reported from 2015	60%
Growth in new and emerging sectors TBC	New measure to be reported from 2015	Target to be developed

LOCAL DEMOCRACY

OUR LONG TERM COUNCIL OUTCOME IS:

The community is well informed and engaged in the activities of Council.

WHY SHOULD YOU CARE?

IN 2015, EACH COUNCILLOR REPRESENTS THE VOICE OF
3,700 RESIDENTS

IN 2025, EACH COUNCILLOR WILL REPRESENT THE VOICE OF
5,700 RESIDENTS

IN A GROWING DISTRICT,
PARTICIPATION AND GOOD
GOVERNANCE HAS NEVER
BEEN MORE IMPORTANT

WHAT WE DELIVER

GOVERNANCE

Governance supports elected members (Council, its Committees and the Wanaka Community Board) in their leadership role, enabling them to make informed decisions and monitor the delivery of services. The activity enables community participation in strategic agenda setting.

The Local Government Act 2002 creates a model of participative democracy to enable decision making for the benefit and well-being of the community. Elected members lead the decision making process for the community. Decisions are made taking into consideration the views of the community, but the elected members are accountable for those decisions.

Council staff plan and prepare the agendas for these meetings, ensure

the meetings follow the approved procedures (standing orders) and minute the record of each meeting. Agenda and minutes are available to the community through the Council website and all meetings are open to the community and provide for a period of public forum where Councillors can be directly addressed.

Governance is responsible for:

- > developing strategic priorities for the activities that the Council will deliver;
- > developing and approving the long-term strategic and financial plan for the Council (the long-term plan);
- > monitoring the Council's performance in the achievement of the plans;
- > communicating priorities, plans and achievements to the community;
- > ensuring the Council's obligations

and responsibilities under more than sixty different laws and a large number of regulations are met on a continuing basis. Staff are responsible for advising the Council on pending and actual changes to legislation; and

- > providing access to public information the Council holds, within the restrictions of the Privacy Act 1993 and complying with the Local Government Official Information and Meetings Act 1987.

Current Representation Arrangements

QLDC is made up of the Mayor and 10 Councillors with the District divided into three wards:

Mayor

Jim Boulton

Arrowtown Ward

Scott Stevens

Wakatipu Ward

Craig (Ferg) Ferguson

Alexa Forbes

Tony Hill

Penny Clark

Valerie Miller

John MacDonald

Wanaka Ward

Calum MacLeod (Deputy Mayor)

Ella Lawton

Ross McRobie

Wanaka Community Board

The Wanaka Community Board is not a committee of Council but a separate unincorporated body established under Section 49 of the Local Government Act 2002. The role of the Wanaka Community Board is to represent and act as an advocate for the Wanaka community. The Council has given extensive delegation to the Wanaka Community Board to make decisions on many of the facilities and services located within the Wanaka Ward. The membership of this Community Board is:

Wanaka Community Board

Rachel Brown (Chair)
Quentin Smith (Deputy)
Ruth Harrison
Ed Taylor
Councillor Lawton
Councillor MacLeod
Councillor McRobie

Committees

The Council reviews its committee structure after each triennial election. At the last review the Council resolved to reinstate standing committees and to meet on a six-weekly basis in full.

The membership of these committees is:

Audit, Finance and Risk Committee

Councillor McRobie (Chair)
Councillor Hill (Deputy)
Stuart McLauchlan
Roger Wilson

Planning & Strategy Committee

Councillor Hill (Chair)
Councillor Lawton (Deputy)
Councillor McRobie
Councillor Miller
Councillor MacDonald

Infrastructure Committee

Councillor Forbes (Chair)
Councillor MacLeod (Deputy)
Councillor Ferguson
Councillor Clark
Councillor MacDonald

Community & Services Committee

Councillor Stevens (Chair)
Councillor Ferguson (Deputy)
Councillor Clark
Councillor Lawton
Councillor Miller
Councillor McRobie

Governance Subcommittee

Mayor Boulton
Councillor Hill
Chief Executive Mike Theelen

Elected Member Conduct Committee

All elected members of the Council and an independent person to be appointed by Council

Appeals Subcommittee

The Chair of the Planning & Strategy Committee and any two members of the Planning & Strategy Committee

District Licensing Committee

Bill Unwin (Chair)
John Mann
Lyal Cocks
Michael MacAvoy
Bob McNeil
Neil Gillespie

Chief Executive Performance Review Committee

Mayor Boulton
Councillor Forbes
Councillor McRobie

Dog Control Committee

All elected members of which any three may form a hearings panel.

The Mayor may attend and vote at any meeting of Council or its committees, and Councillors are entitled to attend (but not vote at) any committee meeting of which they are not a member. The exception to this is the District Licensing Committee which has powers of a commission of enquiry under the Sale and Supply of Alcohol Act 2012.

COMMUNITY ENGAGEMENT

This activity aims to empower the communities of the Queenstown Lakes District to participate meaningfully in shaping the District's services, facilities and policies. This includes encouraging people to participate in democracy by being involved in making decisions about the community where they live.

COMMUNITY LEADERSHIP

This activity supports elected members (Council, Committees and Wanaka Community Board) in their leadership role, to make informed decisions and monitor the delivery of services.

The focus of the Council's contribution to the wider public interest will be to provide the activities of local democracy, infrastructure, local public services and performance of regulatory functions whilst ensuring these activities provide quality (efficient, effective and appropriate to present and future circumstances) and are economically sustainable (cost-effective for households and businesses).

LOCAL ELECTIONS

Council used the First Past the Post (FPP) electoral system for the 2016 triennial election. Electors vote by indicating their preferred candidate(s), and the candidate(s) that receives the most votes is declared the winner regardless of the proportion of votes that candidate(s) obtained.

The Queenstown Lakes District consists of three wards: Wakatipu, Arrowtown and Wanaka. The Mayor is elected at large throughout the District. Six Councillors are elected from the Wakatipu ward, one from the Arrowtown ward and three from the Wanaka ward.

Elections for the Queenstown Lakes District Council (Mayor and Councillors and Wanaka Community Board), Otago Regional Council, Southern District Health Board and Central Otago Health (Wanaka ward) are held every three years on the second Saturday in October.

EMERGENCY MANAGEMENT

The Council has broad responsibilities under the Civil Defence Emergency Management (CDEM) Act 2002 to:

- > identify the hazards and risks that the communities of the District face;
- > reduce the likelihood and consequences of hazards, building resilience;
- > enable communities, the Council, partner response organisations and infrastructure providers to be ready for emergencies;
- > respond effectively to emergencies in partnership with communities, businesses and partner organisations;
- > direct and coordinate response and recovery efforts when necessary; and
- > support communities to recover holistically and sustainably from emergencies.

The Council is required to be an active member of the Otago CDEM Group. An Emergency Management Officer is employed by the Council to coordinate the delivery of its emergency management responsibilities within the Council and the District and with partner organisations in Queenstown, across the region and at a national level.

The Emergency Management Officer maintains the Local Emergency Management Plan and coordinates the efforts of the Council, local partner organisation and communities in achieving the intent of the CDEM Act, National CDEM Strategy, National CDEM Plan, and the Otago CDEM Group Plan.

2017/18

WHAT WE ARE PLANNING

We are planning to:

- > consult extensively with the community in relation to the development of the 2018 10-Year Plan; and
- > continue to work with communities to build resilience and expertise in relation to emergency management.

HOW WE MEASURE PERFORMANCE

QLDC defined its performance measures in the 2015 10-Year Plan. The following sections are extracted from this document. Results will be reported in the 2017/18 Annual Report.

The level of service our community can expect from this activity: <i>The Council ensures the community has a 'voice'.</i>		
HOW WE'LL MEASURE OUR PERFORMANCE...	BASELINE PERFORMANCE (HOW WE PERFORM NOW) <i>As at June 2014</i>	2017/18 TARGET
Percentage of ratepayers who are satisfied with Council consultation	53.9%	65%
Percentage of ratepayers who are satisfied with Elected Members	59.3%	80%

OTAGO REGIONAL PERFORMANCE FRAMEWORK – BENCHMARK MEASURE FOR LOCAL DEMOCRACY	
HOW WE WILL BENCHMARK PERFORMANCE WITH OTHER COUNCILS IN OTAGO...	2017/18 TARGET
Percentage of ratepayers who are satisfied with overall Council performance	Benchmark measure, no target set
Percentage of ratepayers who are satisfied with Council communications	Benchmark measure, no target set

FINANCIAL SUPPORT AND SERVICES

OUR LONG TERM COUNCIL OUTCOME IS THAT:

- > Council expenditure is cost-effective and sustainable.
- > The Council is trusted and respected for its customer service and stewardship of the District.

WHAT WE DELIVER

FINANCE

The finance team within QLDC:

- > provides financial expertise, knowledge and tools required by QLDC's managers to make informed decisions
- > provides finance services to other QLDC teams and activities
- > ensures the finance function is structured in a way that provides flexibility to meet future demands and pressures
- > ensures QLDC continues to appropriately manage its financial risk and fulfil its regulatory and statutory obligations
- > ensures QLDC maintains a consistent culture of financial literacy and fiscal responsibility

HUMAN RESOURCES

The role of the Human Resources function is to ensure that QLDC has the right people, with the right skills and attitude, in the right place, at the right time in order to deliver on organisational objectives.

We proactively work with managers and team leaders, aligning our focus with both the business plan and needs.

Our key areas of responsibility are:

- > Attraction, recruitment and selection;
 - > Organisational culture and employee engagement;
 - > Organisational development and careers;
 - > Leadership and employment relations; and
 - > Systems policies and processes.
-
- > Ensure Council proactively meets its Health & Safety responsibilities

KNOWLEDGE MANAGEMENT

The Knowledge Management team manages the Information and Communication Technology (ICT) infrastructure, as well as providing mapping services, data and business analysis and records management.

LEGAL COMPLIANCE

As a territorial authority, the Council has certain regulatory functions to administer. The Council is generally obliged to observe the wording of the relevant Act and must act as an impartial decision maker weighing the evidence placed in front of it by the parties. To the extent possible, the Council is required to separate its regulatory functions from the other activities it is involved with. The principle statutes that the Council is required to administer are the:

- > Reserves Act 1977;
- > Resource Management Act 1991;

- > Building Act 2004;
- > Local Government Act 2002;
- > Food Act 2014 (and associated Regulations);
- > Health Act 1956;
- > Sale and Supply of Alcohol Act 2012;
- > Dog Control Act 1996; and the
- > Litter Act 1979.

The Council also makes bylaws to deal with specific issues of public health and safety.

CUSTOMER SERVICES

The Customer Services team provide the first point of contact for most of the community's interaction with QLDC. The Customer Services team provide face to face contact in our Gorge Road, Shotover Street and Ardmore Street offices. They are responsible for answering all phone enquiries and emails to the services@qldc.inbox.

WHAT WE ARE PLANNING

PROCUREMENT

QLDC has revised its procurement policy which sets out how goods and services should be purchased by the Council. This policy has been developed with reference to the guidance available to public entities on procurement, particularly the Office of the Auditor General's Procurement guidance for public entities (Controller and Auditor General, 2008), procurement guidance published by the Ministry of Business, Innovation and Employment, and procurement information published by Auckland Council and Tauranga City Council.

The policy is based on four key principles of procurement:

- > quality and value for money
- > transparency and fairness
- > accountability and integrity
- > sustainability

We are planning to:

- > continue to take pride in being the 'can-do council'. This culture is being directed through a programme of training, development and communications;
- > investigate options for the consolidation of Queenstown-based staff within one facility, to better be able to meet the needs of the community;
- > evaluate all technology and development requirements through a prioritised project programme, in order to meet the needs of the community; and
- > collate all operational and capital costs for the development of the 2018 10-Year Plan

HOW WE MEASURE PERFORMANCE

QLDC defined its performance measures in the 2015 10-Year Plan. The following sections are extracted from this document. Results will be reported in the 2017/18 Annual Report.

CUSTOMER SERVICE

The level of service our community can expect from this activity:

The Council handles customer communications efficiently and competently.

HOW WE'LL MEASURE OUR PERFORMANCE...	BASLINE PERFORMANCE (HOW WE PERFORM NOW) <i>As at June 2014</i>	2017/18 TARGET
Percentage of customer calls that meet the service level (answered within 20 seconds)	New measure to be recorded from 2015	80%
Percentage of communication is responded to within specified timeframes: A) Official Information Act Requests within 20 days B) Councillor enquiries within 5 days	A) 97% B) 61%	A) 100% B) 95%
Percentage of rates invoices that are sent via email	10.65%	Trend towards 100%
Percentage of ratepayers who are satisfied with dealings with Council staff	66.9%	80%

FINANCIAL SERVICES

The level of service our community can expect from this activity:

The Council follows a financial strategy that balances the need for growth and debt servicing.

HOW WE'LL MEASURE OUR PERFORMANCE...	BASELINE PERFORMANCE (HOW WE PERFORM NOW) <i>As at June 2014</i>	2017/18 TARGET
Weighted average interest rate	5.44%	<6%
Debt servicing to rates revenue	New measure to be recorded from 2015	<15%
Percentage of debt owing 90days plus	New measure to be recorded from 2015	<30%
Rates as a percentage of household income	3%	<3%
Capex to depreciation ratio	New measure to be recorded from 2015	1

OTAGO REGIONAL PERFORMANCE FRAMEWORK – BENCHMARK MEASURE FOR FINANCIAL SUPPORT AND SERVICES

HOW WE WILL BENCHMARK PERFORMANCE WITH OTHER COUNCILS IN OTAGO...	2017/18 TARGET
Rates per ratepayer as a percentage of household income	Benchmark measure, no target set
Cost of Administrative and Support Services as a percentage of organisational (the Councils) running cost	Benchmark measure, no target set

DEPARTMENT OF INTERNAL AFFAIRS MANDATORY MEASURES FOR FINANCIAL SUPPORT AND SERVICES

HOW THE DEPARTMENT OF INTERNAL AFFAIRS (DIA) WILL MEASURE OUR PERFORMANCE FOR FINANCE...	2017/18 TARGET
Rates income complies with the limits set in the financial strategy (Affordability benchmark/rates benchmark)	<55%
Debt complies with the limits set in the council's financial strategy (Affordability benchmark/debt benchmark)	<175%
Rates per rating unit	<\$2,800
Net debt per rating unit	<\$7,300
Revenue (excluding income from development and financial contributions, revaluations and vested assets) exceeds operating expenditure (Sustainability benchmark/balanced budget benchmark)	>100%
Capital expenditure on the five network infrastructure services equals or exceeds depreciation on those five services (Sustainability benchmark/balanced budget benchmark)	>100%
Borrowing costs are less than 10% of operating revenue (or 15% for those with projected growth at or above NZ average) (Sustainability benchmark/ Debt servicing benchmark)	<15%
Net cash flow from operations equals or exceeds budget (Predictability benchmark/operations control benchmark)	>100%
Net debt is less than or equal to forecast net debt in the local authority's long term plan (Predictability benchmark/Debt control benchmark)	<100%

SECTION 4

**FINANCIAL
INFORMATION**

FINANCIAL STATEMENTS

PROSPECTIVE STATEMENT OF FINANCIAL PERFORMANCE FOR THE YEAR ENDING 30 JUNE (\$'000)

ANNUAL PLAN		ANNUAL PLAN	10 YEAR PLAN		
2016/17	Operating Revenue	2017/18	2017/18	Variance	Explanation
	Revenue from non-exchange transactions				
60,000	Targeted Rates	64,310	62,873	1,437	Changes in timing for Wanaka Sports Facility and Project Shotover (completed 16/17), Wanaka Pool (in progress) partially offset by delay in Queenstown Convention Centre.
2,524	General Rates	2,760	2,872	(112)	
4,338	User Charges - subsidised	5,250	3,566	1,684	Increase in user fees for Regulatory Services & Aquatics
14,366	Grants and Subsidies	12,391	36,436	(24,045)	Deferral of Queenstown Convention Centre

STATEMENT OF RESERVE FUNDS FOR THE YEAR ENDING 30 JUNE 2018 (\$'000)

	OPENING BALANCE	DEPOSITS	WITHDRAWALS	CLOSING BALANCE
	2017/18			2017/18
Reserve Fund - Purpose of the Fund	\$000	\$000	\$000	\$000
Development Funds	8,533	6,688	(7,897)	7,324
These arise from Development and Financial Contributions levied by the Council for capital works and are intended to contribute to the growth related capital expenditure of Roothing, Water Supply, Sewerage, Stormwater, Reserve Land and Improvements and Community Facilities.				
Asset Renewal Funds	2,865	11,606	(11,634)	2,837
The Council sets aside funding to meet the renewal of its infrastructural and operating assets to ensure the continued ability to provide services.				
Emergency Reserve	2,188	-	-	2,188
Funds set aside to assist with the repair of infrastructural assets such as Roothing, Water Supply and Sewerage, in case of natural disaster.				
Asset Sale Reserves	630	-		630
Proceeds from asset sales which are used to fund the portion of capital expenditure attributable to increased level of service for Roothing, Water Supply, Sewerage, Stormwater, Reserve Land and Improvements and Community Facilities.				
Arrowtown Endowment Land Reserve	740	-	-	740
Proceeds from asset sales from Arrowtown endowment land.				
Trust Funds	3,212	-	-	3,212
Funds held on behalf of various community organisations.				
Queenstown Airport Dividend Reserve	828	3,852	(3,852)	828
Unallocated portion of dividends received from QAC.				
Total Reserve Funds	18,996	22,146	(23,383)	17,759

STATEMENT OF ACCOUNTING POLICIES

REPORTING ENTITY

The Queenstown Lakes District Council (the Council) is a Territorial Local Authority governed by the Local Government Act 2002.

The Council has controlling interests in Queenstown Events Centre Trust (100% - dormant), Lakes Combined Afforestation Committee (75%) and Queenstown Airport Corporation Limited (75.01%). Pursuant to the Local Government Act 2002, these controlled entities are council controlled organisations (CCOs). The Council has elected not to consolidate the CCOs for the purposes of the prospective financial information contained in this Annual Plan in accordance with the Local Government Act 2002.

The primary objective of the Council is to provide goods or services for the community or social benefit rather than making a financial return. Accordingly, the Council has designated itself as a public benefit entity for the purposes of Public Benefit Entity Standards.

The prospective financial information contained in this Annual Plan relates to the Queenstown Lakes District Council only as the controlling entity of the economic entity. The Council has not presented prospective financial statements for the economic entity because the Council believes that the controlling entity prospective financial statements are more relevant to users. The main purpose of prospective financial statements in the Annual Plan is to provide users with information about the core services that the Council intends to provide ratepayers, the expected cost of those services and as a consequence how much the Council requires by way of rates to fund the intended levels of service. The level of rate funding required is not affected by controlled entities except to the extent that the Council obtains distributions from those controlled entities. Distributions from the Council's controlled entity, Queenstown Airport Corporation Ltd are included in the prospective financial statements of the Council.

STATEMENT OF COMPLIANCE

The prospective financial statements of the Council have been prepared in accordance with the requirements of the Local Government Act 2002: Part 6, Section 95 and Part 2 of Schedule 10, which includes the requirement to comply with New Zealand generally accepted accounting practice (NZ GAAP).

The prospective financial statements comply with Public Benefit Entity (PBE) Standards for Tier 1 entities.

BASIS OF PREPARATION

The preparation of prospective financial statements in conformity with PBE Standards requires those responsible for preparing the financial statements to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, revenue and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances. The results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and in future periods if the revision affects both current and future periods.

The prospective financial statements have been prepared on the basis of historical cost, except for the revaluation of certain non-current assets and financial instruments. Cost is based on the fair values of the consideration given in exchange for assets.

Accounting policies are selected and applied in a manner which ensures that the resulting financial information satisfies the concepts of relevance and reliability, thereby ensuring that the substance of the underlying transactions or other events is reported.

The accounting policies set out below have been applied consistently to all periods presented in these financial statements.

The prospective financial statements are presented in New Zealand dollars and all values are rounded to the nearest thousand dollars (\$'000) unless otherwise stated. New Zealand dollars are the Council's functional currency.

The following accounting policies which materially affect the measurement of results and financial position have been applied:

REVENUE RECOGNITION

Revenue is recognised to the extent that it is probable that the economic benefits or service potential will flow to the Council and the revenue can be reliably measured, regardless of when the payment is being made.

Revenue is measured at the fair value of the consideration received or receivable and represents amounts receivable, taking into account contractually defined terms of payment, net of discounts and GST.

The specific recognition criteria described below must also be met before revenue is recognised.

(I) REVENUE FROM NON-EXCHANGE TRANSACTIONS

(a) General and Targeted Rates

General and targeted rates are set annually and invoiced within the year. The Council recognises revenue from rates when the Council has set the rate and provided the rates assessment. Rates revenue is measured at the amount assessed, which is the fair value of the cash received or receivable.

(b) User Charges and Other Income – subsidised

Rendering of services at a price that is not approximately equal to the value of the service provided by the Council is considered a non-exchange transaction. This includes rendering of services where the price does not allow the Council to fully recover the cost of providing the service (such as community activities, liquor licencing, water connections, dog licensing, etc.), and where a shortfall is subsidised by income from other activities, such as rates. Generally, there are no conditions attached to such revenue.

Revenue from subsidised services is recognised when the Council issues the invoice for the service. Revenue is recognised at the amount of the invoice, which is the fair value of the cash received or receivable for the service. Revenue is recognised by reference to the stage of completion of the service to the extent that the Council has an obligation to refund the cash received from the service (or to the extent that the customer has the right to withhold payment from the Council) if the service is not completed.

(c) Grants and Subsidies

Government grants are received from NZTA, which subsidises part of the Council's costs in maintaining the local roading infrastructure. The subsidies represent revenue from non-exchange transactions and are recognised as revenue upon entitlement as conditions pertaining to eligible expenditure have been fulfilled.

Other grants and subsidies are recognised upon entitlement as conditions pertaining to eligible expenditure have been fulfilled.

A deferred revenue liability is recognised instead of revenue to the extent that there is a condition attached that would give rise to a liability to repay the grant amount or to return the granted asset.

(d) Vested Assets

Certain infrastructural assets have been vested to the Council as part of the subdivision covenant process. Vested assets are recognised at fair value at the date of recognition with an equal amount recognised as revenue unless there are conditions attached to the asset in which case revenue is deferred as a liability until the conditions are met.

(e) Development Contributions

The revenue recognition point for development and financial contributions is at the later of the point when the Council is ready to provide the service for which the contribution was levied, or the event that will give rise to a requirement for a development or financial contribution under the legislation.

(II) REVENUE FROM EXCHANGE TRANSACTIONS

(a) User Charges and Other Income – full cost recovery

Revenue from the rendering of services (such as resource consents, building consents, waste management, car parking etc.) is recognised by reference to the stage of completion of the service. Stage of completion is measured by reference to labour hours incurred to date as a percentage of total estimated labour hours for each contract. When the contract outcome cannot be measured reliably, revenue is recognised only to the extent that the expenses incurred are eligible to be recovered.

(b) Interest Revenue

Interest revenue is accrued on a time basis, by reference to the principal outstanding and the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount. Interest revenue is included in Other Revenue.

(c) Dividend Revenue

Dividends are recognised when the entitlement to the dividends is established.

(d) Property Sales

Net gains or losses on the sale of investment property, property plant and equipment, property intended for sale and financial assets are recognised when an unconditional contract is in place and it is probable that the Council will receive the consideration due.

GRANT EXPENDITURE

Non-discretionary grants are those grants that are awarded if the grant application meets the specified criteria and are recognised as expenditure when an application that meets the specified criteria for the grant has been received.

Discretionary grants are those grants where the Council has no obligation to award on receipt of the grant application and are recognised as expenditure when a successful applicant has been notified of the Council's decision.

BORROWING COSTS

All borrowing costs are expensed in the period they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. The Council has chosen not to capitalise borrowing costs directly attributable to the acquisition, construction or production of assets.

LEASES

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

Rentals payable under operating leases are charged to the Statement of Financial Performance on a basis representative of the pattern of benefits to be derived from the leased asset.

(a) Council as Lessor

Amounts due from lessees under finance leases are recorded as receivables at the amount of the net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the leases.

Rental income from operating leases is recognised on a straight line basis over the term of the relevant lease.

(b) Council as Lessee

Assets held under finance leases are recognised at their fair value or, if lower, at amounts equal to the present value of the minimum lease payments, each determined at the inception of the lease. The corresponding liability to the lessor is included in the Statement of Financial Position as a finance lease obligation.

Lease payments are apportioned between finance charges and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are charged directly against income, unless they are directly attributable to qualifying assets, in which case they are capitalised.

Rentals payable under operating leases are charged to income on a straight line basis over the term of the relevant lease.

(c) Lease Incentives

Benefits received and receivable as an incentive to enter into an operating lease are also spread on a straight line basis over the lease term.

GOODS AND SERVICES TAX

Revenues, expenses, assets and liabilities are recognised net of the amount of goods and services tax (GST), except for receivables and payables which are recognised inclusive of GST. Where GST is not recoverable as an input tax it is recognised as part of the related asset or expense.

CASH AND CASH EQUIVALENTS

Cash and cash equivalents comprise cash on hand, cash in banks and other short-term highly liquid deposits that are readily convertible to a known amount of cash.

FINANCIAL INSTRUMENTS

Financial assets and financial liabilities are recognised on the Council's Statement of Financial Position when the Council becomes a party to contractual provisions of the instrument.

Investments are recognised and derecognised on trade date where purchase or sale of an investment is under a contract, whose terms require delivery of the investment within the timeframe established by the market concerned, and are initially measured at fair value, net of transaction costs, except for those financial assets classified as fair value through surplus or deficit which are initially valued at fair value.

(I) FINANCIAL ASSETS

Financial Assets are classified into the following specified categories: financial assets 'at fair value through surplus or deficit', 'held-to-maturity' investments, 'available-for-sale' financial assets, and 'loans and receivables'. The classification depends on the nature and purpose of the financial assets and is determined at the time of initial recognition.

The effective interest method, referred to below, is a method of calculating the amortised cost of a financial asset and of allocating interest income over the relevant period. The effective interest rate is the interest rate that exactly discounts estimated future cash receipts through the expected life of the financial asset, or, where appropriate, a shorter period.

Financial Assets at Fair Value Through Surplus or Deficit

Financial assets are classified as financial assets at fair value through surplus or deficit where the financial asset:

- Has been acquired principally for the purpose of selling in the near future;
- Is a part of an identified portfolio of financial instruments that the Council manages together and has a recent actual pattern of short-term profit-taking; or
- Is a derivative that is not designated and effective as a hedging instrument.

Financial assets at fair value through surplus or deficit are stated at fair value, with any resultant gain or loss recognised in the Statement of Comprehensive Revenue and Expense. The net gain or loss is recognised in the Statement of Comprehensive Revenue and Expense and incorporates any dividend or interest earned on the financial asset. Fair value is determined in the manner described later in this note.

Held-to-Maturity Investments

Investments are recorded at amortised cost using the effective interest method less impairment, with revenue recognised on an effective yield basis.

The Council does not hold any financial assets in this category.

Available-for-Sale Financial Assets

Equity Investments held by the Council classified as being available-for-sale are stated at fair value. Fair value is determined in the manner described later in this note. Gains and losses arising from changes in fair value are recognised directly in other comprehensive revenue or expenses, with the exception of impairment losses which

are recognised directly in the Statement of Comprehensive Revenue and Expense. Where the investment is disposed of or is determined to be impaired, the cumulative gain or loss previously recognised in other comprehensive revenue or expenses is included in the Statement of Comprehensive Revenue and Expense for the period.

Dividends on available-for-sale equity instruments are recognised in the Statement of Comprehensive Revenue and Expense when the Council's right to receive payments is established.

Loans and Receivables

Trade receivables, loans and other receivables that have fixed or determinable payments that are not quoted in an active market are classified as 'loans and receivables'. Loans and receivables are measured at amortised cost using the effective interest method less impairment. Interest is recognised by applying the effective interest rate.

Trade and other receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment. A provision for impairment is established when there is objective evidence that the Council will not be able to collect all amounts due according to the original terms of the receivables. The amount of the provision is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the effective interest rate. The amount of the provision is expensed in the Statement of Comprehensive Revenue and Expense.

Loans, including loans to community organisations made by the Council at nil, or below-market interest rates are initially recognised at the present value of their expected future cash flows and discounted at the current market rate of return for a similar asset/investment. They are subsequently measured at amortised cost using the effective interest method. The difference between the face value and present value of expected future cash flows of the loan is recognised in the Statement of Comprehensive Revenue and Expense as a grant.

Impairment of Financial Assets

Financial assets, other than those at fair value through surplus or deficit, are assessed for indicators of impairment at each balance sheet date. Financial assets are impaired where there is objective evidence that as a result of one or more events that occurred after the initial recognition of the financial asset the estimated future cash flows of the investment have been impacted. For financial assets carried at amortised cost, the amount of the impairment is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate.

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of trade receivables where the carrying amount is reduced through the use of an allowance account. When a trade receivable is uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against the allowance account. Changes in the carrying amount of the allowance account are recognised in the Statement of Comprehensive Revenue and Expense.

With the exception of available-for-sale equity instruments, if, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed through the Statement of Comprehensive Revenue and Expense to the extent the carrying amount of the investment at the date of impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

(II) FINANCIAL LIABILITIES

Trade and Other Payables

Trade payables and other accounts payable are recognised when the Council becomes obliged to make future payments resulting from the purchase of goods and services.

Trade and other payables are initially recognised at fair value and are subsequently measured at amortised cost, using the effective interest method.

Borrowings

Borrowings are recorded initially at fair value, net of transaction costs.

Subsequent to initial recognition, borrowings are measured at amortised cost with any difference between the initial recognised amount and the redemption value being recognised in the Statement of Financial Performance over the period of the borrowing using the effective interest method.

(III) DERIVATIVE FINANCIAL INSTRUMENTS

The Council enters into certain derivative financial instruments to manage its exposure to interest rate risk, including interest rate swaps.

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re measured to their fair value at each balance date. The resulting gain or loss is recognised in the Statement of Financial Performance

immediately unless the derivative is designated and effective as a hedging instrument, in which event the nature and timing of the recognition in profit or loss depends on the nature of the hedging relationship. Council does not undertake hedge accounting in relation to its derivative financial instruments.

A derivative is presented as a non current asset or a non current liability if the remaining maturity of the instrument is more than 12 months and is not expected to be realised or settled within 12 months. Other derivatives are presented as current assets or current liabilities.

Fair Value Estimation

The fair value of financial instruments traded in active markets (such as listed equities) is based on quoted market prices at the balance date. The quoted market price used for financial assets held by the Council is the current bid price; the appropriate quoted market price for financial liabilities is the current offer price.

The fair value of financial instruments that are not traded in an active market is determined using valuation techniques. The Council uses a variety of methods and makes assumptions that are based on market conditions existing at each balance date.

Quoted market prices or dealer quotes for similar instruments are used for long-term investment and debt instruments held.

Embedded Derivatives

Derivatives embedded in other financial instruments or other host contracts are treated as separate derivatives when their risks and characteristics are not closely related to those of host contracts and the host contracts are not measured at fair value with changes in fair value recognised in the Statement of Financial Performance.

DEVELOPMENT PROPERTIES

Development properties are stated at the lower of cost or net realisable value. Cost includes planning expenditure and any other expenditure to bring the development property to its present condition.

INVENTORIES

Inventories are valued at the lower of cost and net realisable value. Cost is determined on a weighted average basis with an appropriate allowance for obsolescence and deterioration.

PROPERTIES INTENDED FOR SALE

Properties intended for sale are measured at the lower of carrying amount and fair value less costs to sell. Properties are classified as intended for sale if their carrying amount will be recovered through a sale transaction rather than through continuing use.

PROPERTY, PLANT AND EQUIPMENT

The Council has the following classes of property, plant and equipment:

Operational Assets

- > Land, buildings and building improvements, foreshore structures, plant and equipment, furniture and office equipment and library books.

Infrastructure Assets

- > Infrastructure assets are the fixed utility systems owned by the Council. Each asset type includes all items that are required for the network to function:
 - > Sewer, stormwater, water
 - > Roads, bridges and lighting
 - > Land under roads

Cost

Operational Assets and Land under Roads are recorded at cost less accumulated depreciation and any accumulated impairment losses. Cost includes expenditure that is directly attributable to the acquisition of the assets. Where an asset is acquired for no cost, or for a nominal cost, it is recognised at fair value at the date of acquisition. When significant, interest costs incurred during the period required to construct an item of property, plant and equipment are capitalised as part of the asset's total cost.

Accounting for Revaluations

Infrastructural assets other than Land under Roads are stated at fair value less accumulated depreciation and any impairment losses recognised after the date of revaluation.

Infrastructure assets, land and buildings acquired or constructed after the date of the latest revaluation are carried at cost, which approximates fair value. Revaluations are carried out with sufficient regularity to ensure that the carrying amount does not differ materially from fair value at the balance sheet date.

The results of revaluing are credited or debited to an asset revaluation reserve via other comprehensive revenue or expenses for that class of asset. Where this results in a debit balance in the asset revaluation reserve, this balance is expensed to the Statement of Financial Performance. Any subsequent increase in revaluation that offsets a previous decrease in value recognised in the Statement of Financial Performance will be recognised first in the Statement of Financial Performance up to the amount previously expensed, and then credited to the revaluation reserve via other comprehensive revenue or expenses for that class of asset.

Sewer, Stormwater, Water

Sewer, stormwater and water assets are stated at fair value, which is optimised depreciated replacement cost value as at 1 July 2013 by Rationale, independent valuers. Acquisitions subsequent to 1 July 2013 are at cost.

Roads, Bridges and Lighting

Roading assets are stated at fair value, which is optimised depreciated replacement cost value as at 1 July, 2013 by GHD Limited, independent valuers. Bridges and lighting are stated at valuation which is optimised depreciated replacement cost value.

Depreciation

Operational assets with the exception of land, are depreciated on a straight-line basis to write-off the asset to its estimated residual value over its estimated useful life.

Infrastructural assets, with the exception of land under roads, are depreciated on a straight-line basis to write off the fair value of the asset to its estimated residual values over its estimated useful life.

Expenditure incurred to maintain these assets at full operating capability is charged to the Statement of Financial Performance in the year incurred.

The following estimated useful lives are used in the calculation of depreciation.

Operational Assets	Rate (%)	Method
Buildings	2.0% - 33%	SL
Building improvements	1.67% - 6.67%	SL
Plant and equipment	5.5% - 28%	SL
Motor vehicles	20% - 26%	DV
Furniture and office equipment	10% - 33%	SL
Computer equipment	25%	SL
Library books	10%	SL

Infrastructural Assets		
Sewerage	1.67% - 10%	SL
Water Supply	1.67% - 10%	SL
Stormwater	1.67% - 10%	SL
Roading	1% - 10%	SL

The estimated useful lives, residual values and depreciation method are reviewed at the end of each annual reporting period.

Disposal

An item of property, plant and equipment is derecognised upon disposal or recognised as impaired when no future economic benefits are expected to arise from the continued use of the asset.

Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the Statement of Financial Performance in the period the asset is derecognised.

FORESTRY ASSETS

Forestry assets are independently revalued annually at fair value less estimated point of sale costs. Fair value is determined based on the present value of expected net cash flows discounted at a current market determined pre-tax rate.

Gains or losses arising on initial recognition of biological assets at fair value less estimated point of sale costs and from a change in fair value less estimated point of sale costs are recognised in the Statement of Financial Performance.

The costs to maintain the forestry assets are included in the Statement of Financial Performance.

EMISSION TRADING SCHEME ACCOUNTING POLICY

New Zealand Units (NZUs) allocated as a result of the Council's participation in the Emissions Trading Scheme (ETS) are treated as intangible assets, and recorded at cost.

The difference between initial cost and the disposal price of the units is treated as revenue in Surplus/(Deficit) for the period.

Liabilities for surrender of NZUs (or cash) are accrued at the time the forests are harvested, or removed in any other way, in accordance with the terms of the ETS legislation.

Liabilities are accounted for at settlement value, being the cost of any NZUs on hand to meet the obligation plus the fair value of any shortfall in NZUs to meet the obligation.

INVESTMENT PROPERTIES

Investment properties are held to earn rentals and/or for capital gains. Property held to meet service delivery objectives are excluded from Investment Properties and included with Property, Plant and Equipment. The investment properties are measured at fair value at the reporting date. Gains or losses arising from changes in the fair value of the investment properties are included in the Statement of Financial Performance in the period in which they arise.

FINITE LIFE INTANGIBLE ASSETS

Finite life intangible assets are recorded at cost less accumulated amortisation. Amortisation is charged on a straight line basis over their estimated useful life. The estimated useful life and amortisation period is reviewed at the end of each annual reporting period.

Intangible assets acquired in a business combination

All potential intangible assets acquired in a business combination are identified and recognised separately from goodwill where they satisfy the definition of an intangible asset and their fair value can be measured reliably.

Intangible Assets - Software acquisition and development

Acquired computer software licenses are recorded at cost less accumulated amortisation. Amortisation is charged on a straight line basis over their estimated useful life. The estimated useful life and amortisation period is reviewed at the end of each annual reporting period.

Costs associated with maintaining computer software are recognised as an expense when incurred. Costs that are directly associated with the development of software for internal use by the Council are recognised as an intangible asset. Direct costs include the software development employee costs and an appropriate portion of relevant overheads.

IMPAIRMENT OF NON-FINANCIAL CASH-GENERATING ASSETS

At each reporting date, the Council reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where the asset does not generate cash flows that are independent from other assets, the Council estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Goodwill, intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment annually and whenever there is an indication that the asset may be impaired. An impairment of goodwill is not subsequently reversed.

Recoverable amount is the higher of fair value less costs to sell and value in use. Value in use is depreciated replacement cost for an asset where the future economic benefits or service potential of the asset are not primarily dependent on the asset's ability to generate net cash inflows and where the entity would, if deprived of the asset, replace it's remaining future economic benefits or service potential. In assessing value in use for cash-generating assets, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised in the Statement of Financial Performance immediately, unless the relevant asset is carried at fair value, in which case the impairment loss is treated as a revaluation decrease, via other comprehensive revenue or expenses.

Where an impairment loss subsequently reverses, the carrying amount of the asset (cash-generating unit) is increased to the revised estimate of its recoverable amount, but only to the extent that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (cash-generating unit) in prior years. A reversal of an impairment loss is recognised in the Statement of Financial Performance immediately, unless the relevant asset is carried at fair value, in which case the reversal of the impairment loss is treated as a revaluation increase, via other comprehensive revenue or expenses.

EMPLOYEE BENEFITS

Provision is made for benefits accruing to employees in respect of wages and salaries, annual leave, long service leave, and sick leave when it is probable that settlement will be required and they are capable of being measured reliably.

Provisions made in respect of employee benefits expected to be settled within 12 months, are measured at their nominal values using the remuneration rate expected to apply at the time of settlement.

Provisions made in respect of employee benefits which are not expected to be settled within 12 months are measured as the present value of the estimated future cash outflows to be made by the Council in respect of services provided by employees up to reporting date.

PROVISIONS

Provisions are recognised when the Council has a present obligation, the future sacrifice of economic benefits is probable, and the amount of the provision can be measured reliably.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cashflows estimated to settle the present obligation, its carrying amount is the present value of those cashflows.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognised as an asset if it is virtually certain that recovery will be received and the amount of the receivable can be measured reliably.

STATEMENT OF CASH FLOWS

Cash means cash balances on hand, held in bank accounts and demand deposits that the Council invests in as part of its day to day cash management.

Operating activities include cash received from all income sources of the Council and record the cash payments made for the supply of goods and services.

Investing activities are those activities relating to the acquisition and disposal of non-current assets.

Financing activities comprise the change in equity and debt structure of the Council.

EQUITY

Equity is the community's interest in the Council and is measured as the difference between total assets and total liabilities. Equity is disaggregated and classified into a number of reserves.

Reserves are a component of equity generally representing a particular use to which various parts of equity have been assigned. Reserves may be legally restricted or created by Council.

RESTRICTED AND COUNCIL CREATED RESERVES

Restricted reserves are a component of equity generally representing a particular use to which various parts of equity have been assigned. Reserves may be legally restricted or created by the Council.

Restricted reserves are those subject to specific conditions accepted as binding by the Council and which may not be revised by the Council without reference to the Courts or a third party. Transfers from these reserves may be made only for certain specified purposes or when certain specified conditions are met.

Also included in restricted reserves are reserves restricted by Council decision. The Council may alter them without references to any third party or the Courts. Transfers to and from these reserves are at the discretion of the Council.

FINANCIAL GUARANTEE CONTRACTS

A financial guarantee contract is a contract that requires the Council to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due.

Financial guarantee contracts are initially recognised at fair value. If a financial guarantee contract was issued in a stand-alone arm's length transaction to an unrelated party, its fair value at inception is equal to the consideration received. When no consideration is received a provision is recognised based on the probability the Council will be required to reimburse a holder for a loss incurred, discounted to present value. The portion of the guarantee that remains unrecognised, prior to discounting to fair value, is disclosed as a contingent liability.

Financial guarantees are subsequently measured at the initial recognition amount less any amortisation, however if the Council assesses that it is probable that expenditure will be required to settle a guarantee, then the provision for the guarantee is measured at the present value of the future expenditure.

ALLOCATION OF OVERHEADS

Direct costs are charged directly to significant activities. Indirect costs are charged to significant activities based on the cost drivers and related activity/usage information.

Direct costs are those costs that are directly attributable to a significant activity. Indirect costs are those costs that cannot be identified in an economically feasible manner with a specific significant activity.

BALANCING THE BUDGET

The Local Government Act 2002 contains a requirement to balance the budget.

Section 100 states:

1. *A local authority must ensure that each year's projected operating revenues are set at a level sufficient to meet that years projected operating expenses.*
2. *Despite subsection (1), a local authority may set projected operating revenues at a different level from that required by that subsection if the local authority resolves that it is financially prudent to do so, having regard to -*
 - a) *The estimated expenses of achieving and maintaining the predicted levels of service provision set out in the 10-Year Plan, including the estimated expenses associated with maintaining the service capacity and integrity of assets throughout their useful life; and*
 - b) *The projected revenue available to fund the estimated expenses associated with maintaining the service capacity and integrity to assets throughout their useful life; and*
 - c) *The equitable allocation of responsibility for funding the provision and maintenance of assets and facilities throughout their useful life; and*
 - d) *The funding and financial policies adopted under section 102.*

Council comfortably meets these requirements over the timeframe of the plan. The forecasted Statement of Financial Performance shows a strong operating surplus, which demonstrates that Council balances its budget requirements overall.

Funding of Depreciation

The funding of depreciation is an implied requirement of the “balanced budget” provision. It requires that the Council fully fund all operating costs, including reductions in the useful life or quality of assets. The requirement arises from Government concern that some local authorities were not adequately maintaining infrastructural assets. In instances where this occurred, current ratepayers were paying too little and leaving a major financial burden for future generations. The Council has in recent years provided adequately for asset renewal. A major effort has been made over the past decade to address deferred maintenance and the budgets have provided for the renewal of infrastructure.

The Council now has far more reliable asset information and a much better understanding of the life cycle of its assets. The new Act provides a more flexible approach in the requirement to fully fund depreciation.

This has allowed the Council flexibility in four key areas which we have taken advantage of in preparing these budgets:

- (i) The Council needs to fund depreciation only on its share of roading expenditure. The component attributable to NZTA should not be funded as the NZTA subsidy covers this. Allowing for all subsidisable costs, 53% of roading depreciation will be funded in 2017/18 (2016/17 53%);
- (ii) Depreciation on Community facilities may not need to be funded as they are often funded by non-Council sources and will never be replaced in the same form at the end of their useful life. Depreciation on halls, libraries and other facilities (including the Events Centre) will therefore not be funded;
- (iii) The Council has accepted that it is not reasonable to fund depreciation where a community has funded a water or sewerage scheme by lump sum contributions or loan charges. That community would end up paying twice – for loan charges and depreciation;
- (iv) Because we have generally maintained the value of our infrastructure, the Council will use funded depreciation to finance renewal projects and repay loans. It cannot be used to fund new assets or asset improvements.

These changes have focused on the intent of legislation, the maintenance of the capacity of major operational assets. Council has had this focus for some time now and so is not greatly affected by the new provisions.

The impact of the above decision has led to the following amounts of depreciation not being funded:

	TOTAL DEPRECIATION 2017/18 (\$000)	DEPRECIATION NOT FUNDED 2017/18 (\$000)
Roading	9,770	4,596
Sewerage	4,480	2,201
Water Supply	3,035	1,161
Stormwater	1,952	761
Community/other	5,132	3,114
Total	24,369	11,833

ANNUAL PLAN DISCLOSURE STATEMENT FOR YEAR ENDING 30 JUNE 2018

WHAT IS THE PURPOSE OF THIS STATEMENT?

The purpose of this statement is to disclose the Council's planned financial performance in relation to various benchmarks to enable the assessment of whether the Council is prudently managing its revenues, expenses, assets, liabilities, and general financial dealings.

The Council is required to include this statement in its annual plan in accordance with the Local Government (Financial Reporting and Prudence) Regulations 2014 (the regulations). Refer to the regulations for more information, including definitions of some of the terms used in this statement.

BENCHMARK		PLANNED	MET
Rates affordability benchmark			
• income	55% of total revenue	48.5%	Yes
• increases	6.0%	7.3%	No*
Debt affordability benchmark			Yes
• Net Debt/Total Revenue	200%	155%	
• Net Debt/Equity	20%	17%	
• Interest/Total Rates	25%	12.8%	
• Interest/Total Revenue	15%	7.1%	
Balanced budget benchmark	100%	103%	Yes
Essential services benchmark	100%	258%	Yes
Debt servicing benchmark	15%	8.8%	Yes

NOTES

Rates affordability benchmark

For this benchmark, —

- (a) the Council's planned rates income for the year is compared with a quantified limit on rates contained in the financial strategy included in the Council's long-term plan; and
- (b) the Council's planned rates increases for the year are compared with a quantified limit on rates increases for the year contained in the financial strategy included in the Council's long-term plan.

The Council meets the rates affordability benchmark if —

- (a) its planned rates income for the year equals or is less than each quantified limit on rates;
- (b) its planned rates increases for the year equal or are less than each quantified limit on rates increases.

* The proposed rates increase for 2017/18 is higher than the benchmark set. This is due primarily to higher than expected growth in the district. After allowing for growth, the effective net increase is 4.15%.

DEBT AFFORDABILITY BENCHMARK

For this benchmark, the Council's planned borrowing is compared with quantified limits on borrowing contained in the financial strategy included in the Council's long-term plan.

The Council meets the debt affordability benchmark if its planned borrowing is within each quantified limit on borrowing.

BALANCED BUDGET BENCHMARK

For this benchmark, the Council's planned revenue (excluding development contributions, vested assets, financial contributions, gains on derivative financial

instruments, and revaluations of property, plant, or equipment) is presented as a proportion of its planned operating expenses (excluding losses on derivative financial instruments and revaluations of property, plant, or equipment).

The Council meets the balanced budget benchmark if its revenue equals or is greater than its operating expenses.

ESSENTIAL SERVICES BENCHMARK

For this benchmark, the council's planned capital expenditure on network services is presented as a proportion of expected depreciation on network services.

The Council meets the essential services benchmark if its planned capital expenditure on network services equals or is greater than expected depreciation on network services.

DEBT SERVICING BENCHMARK

For this benchmark, the Council's planned borrowing costs are presented as a proportion of planned revenue (excluding development contributions, financial contributions, vested assets, gains on derivative financial instruments, and revaluations of property, plant, or equipment).

Because Statistics New Zealand projects that the Council's population will grow faster than the national population growth rate, it meets the debt servicing benchmark if its planned borrowing costs equal or are less than 15% of its planned revenue.

FEE REVIEW 2017/18

BACKGROUND

A funding and rates review was completed as part of the 2016/17 Annual Plan process. During the 2017/18 financial year, two changes are required to adhere to our funding policy as follows:

AMENDED FEES FOR 2017/18

SWIM SCHOOL & HOLIDAY PROGRAMMES

The fees for these activities were not reviewed in the funding and rates review of 2016/17. In order to meet the Council's cost recovery targets, there is a need to increase the fees in the table below. Many of these fees have not been reviewed for at least 5 years.

CATEGORY	CURRENT	AMENDED	INCREASE
Swim Education - Child Group Lesson	\$9.50	\$10.50	\$1.00
Swim Education - Adult Group Lesson (Casual)	\$77.50/block	\$85.00/block	\$7.50
Swim Education - Adult Group Lesson (Member)	\$47.50	\$52.50	\$5.00
Swim Education - Adult Private Lesson	\$40.00	\$45.00	\$5.00
Swim Education - Holiday Swim Weeks	\$47.50/5 lessons	\$52.50/5 lessons	\$5.00/5 lessons
	\$76.00/10 lessons	\$80/10 lessons	\$4.00/10 lessons
Holiday Programme Base Fee	\$24.00 Juniors 8.00am-3.30pm	\$30.00 Juniors * 8.00am-3.30pm	\$6.00 Juniors
	\$27.00 Seniors 8.00am-3.30pm	\$30.00 Seniors * 8.00am-3.30pm	\$3.00 Seniors
	\$10.00 Late session 3.30-5.30pm	\$10.00 Late session 3.30-5.30pm	No change

* Note some activities, i.e. jetboating, are charged in addition to the base fee.

BUILDING AND RESOURCE CONSENTS

The full fee schedule for Building and Resource Consents was reviewed in 2016/17. Since that time, Council has identified that a small number of changes are required to help with the consistent and smooth administration of regulatory functions. The changes are made under the Building Act and Resource Management Act. Please refer to the Council's website for details of these changes.

FUNDING IMPACT STATEMENT

BACKGROUND

Clause 20 of Schedule 10 to the Local Government Act 2002 requires each Council to prepare a Funding Impact Statement as part of its Annual Plan, which states:

- A** The revenue and financing mechanisms to be used by the local authority each year.
- B** An indication of the level or amount of funds to be funded by each mechanism for each year.
- C** In relation to any general rate:
 - i. The valuation system on which the general rate is to be assessed.
 - ii. Whether a uniform annual general charge is to be included.
 - iii. If a uniform annual general charge is to be included, how that uniform annual general charge will be calculated.
 - iv. Whether the general rate is to be set differentially, and if so:
 - The categories of rateable land, within the meaning of section 14 of the Local Government (rating) Act 2002, to be used.
 - The objectives of the differential rate, in terms of the total revenue sought from each category of rateable land or of the relationship between the rates set of rateable land in each category.

- D** In relation to each targeted rate:
 - i. The activities or groups of activities for which the targeted rate is to be set.
 - ii. The category, or categories, of rateable land, within the meaning of section 17 of the Local Government (Rating) Act 2002, to be used.
 - iii. For each such category, how liability for the targeted rate is to be calculated.
 - iv. If the targeted rate is set differentially, the total revenue sought from each category of rateable land or the relationship between the rates set on the rateable land in each category.

Following is the Funding Impact Statement for the year commencing 1 July 2017. This has been prepared solely to comply with the Local Government (Financial Reporting and Prudence) Regulations 2014. It does not comply with generally accepted accounting practice as stated by S111 (2) of the Local Government Act 2002, and should not be relied upon for any other purpose.

2017/18 RATES AND CHARGES

The rating system used by Council is based on Capital Value. Property valuations produced by Quotable Value as at 1 July 2014 are to be used for the 2017/18 rating year. All proposed rates in the section that follows are inclusive of GST.

UNIFORM ANNUAL GENERAL CHARGE

Pursuant to sections 15 of the Local Government (Rating) Act 2002 (the Act), Council proposes to set a uniform annual general charge of \$81.00 on each separately used of inhabited part of every rating unit in the district.

The uniform annual general charge revenue (\$1,991,621) will be used to fund the costs associated with the following activities:

- Cemeteries.
- Community development and grants.
- Property, including housing and Wanaka airport.
- A general contribution to the promotion of the district.

SPORTS, HALLS & LIBRARIES ANNUAL CHARGE

Pursuant to sections 16, 17 and 18 of the Act, Council proposes to set a targeted annual charge on each separately used or inhabited part of every rating unit with a residential component in the district as follows:

1.	Residential	\$331.00
2.	Residence/Country Dwelling plus Flat	\$463.40
3.	Hydro Electric/Utilities	\$0.00
4.	Vacant Sections	\$331.00
5.	Accommodation	\$0.00
6.	CBD Accommodation	\$0.00
7.	Commercial	\$0.00
8.	CBD Commercial	\$0.00
9.	Primary Industry	\$331.00
10.	Country Dwelling	\$331.00
11.	Other	\$0.00
12.	Mixed Use Apportioned	\$331.00

The targeted Sports, Halls & Libraries Annual charge revenue (\$6,962,176) will be used to fund the costs associated with the following activities:

- Community grants (for recreational activities).
- District library services.
- Public halls and other community facilities.
- Active recreation facilities including sports fields and community swimming pools (excludes Alpine Aqualand and Wanaka Aquatic Centre).

GOVERNANCE RATE

Pursuant to sections 16, 17 and 18 of the Act, Council proposes to set a targeted differential governance rate based on land use on the rateable capital value of all property within the Queenstown Lakes District as follows:

1. Residential	0.000163 cents in the \$
2. Residence/Country Dwelling plus Flat	0.000163 cents in the \$
3. Hydro Electric/Utilities	0.000082 cents in the \$
4. Vacant Sections	0.000163 cents in the \$
5. Accommodation	0.000163 cents in the \$
6. CBD Accommodation	0.000163 cents in the \$
7. Commercial	0.000163 cents in the \$
8. CBD Commercial	0.000163 cents in the \$
9. Primary Industry	0.000116 cents in the \$
10. Country Dwelling	0.000163 cents in the \$
11. Other	0.000163 cents in the \$
12. Mixed Use Apportioned	See note (i)

Note (i): The mixed use apportioned properties will be treated as 25% Commercial or Accommodation and 75% Residential (or plus Flat) or Country Dwelling (or plus Flat) as appropriate.

The governance rate revenue (\$3,093,319) will be used to fund 80% of the costs associated with the following activities:

- Cost of democratic functions including Council and standing committees
- Cost of communications and management of Council including corporate, financial and rating administration services.

REGULATORY RATE

Pursuant to sections 16, 17 and 18 of the Act, Council proposes to set a targeted differential regulatory rate based on land use on the rateable capital value of all property within the Queenstown Lakes District as follows:

1. Residential	0.000257 cents in the \$
2. Residence plus Flat	0.000257 cents in the \$
3. Hydro Electric/Utilities	0.000116 cents in the \$
4. Vacant Sections	0.000257 cents in the \$
5. Accommodation	0.000270 cents in the \$
6. CBD Accommodation	0.000270 cents in the \$
7. Commercial	0.000231 cents in the \$
8. CBD Commercial	0.000231 cents in the \$
9. Primary Industry	0.000167 cents in the \$
10. Country Dwelling	0.000239 cents in the \$
11. Country Dwelling plus Flat	0.000239 cents in the \$
12. Other	0.000257 cents in the \$
13. Mixed Use Apportioned	See note (i)

Note (i): The mixed use apportioned properties will be treated as 25% Commercial or Accommodation and 75% Residential (or plus Flat) or Country Dwelling (or plus Flat) as appropriate.

The regulatory rate revenue (\$4,730,424) will be used to fund 80% of the costs associated with the following activities:

- Regulatory and advisory services relating to planning and resource management, the district plan, building control, dog control and health and liquor licensing.

GOVERNANCE & REGULATORY CHARGE

Pursuant to sections 16, 17 and 18 of the Act, Council proposes to set a targeted Governance & Regulatory Charge on each separately used or inhabited part of every rating unit in the district as follows:

1. Residential	\$71.00
2. Residence/Country Dwelling plus Flat	\$99.40
3. Hydro Electric/Utilities	\$130.00
4. Vacant Sections	\$71.00
5. Accommodation	\$98.00
6. CBD Accommodation	\$98.00
7. Commercial	\$130.00

8.	CBD Commercial	\$130.00
9.	Primary Industry	\$162.00
10.	Country Dwelling	\$71.00
11.	Other	\$71.00
12.	Mixed Use Apportioned	See note (i)

Note (i): The mixed use apportioned properties will be treated as 25% Commercial or Accommodation and 75% Residential (or plus Flat) or Country Dwelling (or plus Flat) as appropriate.

The Governance & Regulatory Charge revenue (\$1,955,936) will be used to fund 20% of the costs associated with the following activities:

- Cost of democratic functions including Council and standing committees
- Cost of communications and management of Council including corporate, financial and rating administration services.
- Regulatory and advisory services relating to planning and resource management, the district plan, building control, dog control and health and liquor licensing.

RECREATION & EVENTS RATE

Pursuant to sections 16, 17 and 18 of the Act, Council proposes to set a targeted differential recreation and events rate based on land use on the rateable capital value of all property within the Queenstown Lakes District as follows:

1.	Residential	0.000264 cents in the \$
2.	Residence plus Flat	0.000264 cents in the \$
3.	Hydro Electric/Utilities	0.000096 cents in the \$
4.	Vacant Sections	0.000264 cents in the \$
5.	Accommodation	0.000956 cents in the \$
6.	CBD Accommodation	0.000956 cents in the \$
7.	Commercial	0.000193 cents in the \$
8.	CBD Commercial	0.000193 cents in the \$
9.	Primary Industry	0.000034 cents in the \$
10.	Country Dwelling	0.000100 cents in the \$
11.	Country Dwelling plus Flat	0.000100 cents in the \$
12.	Other	0.000264 cents in the \$
13.	Mixed Use Apportioned	See note (i)

Note (i): The mixed use apportioned properties will be treated as 25% Commercial or Accommodation and 75% Residential (or plus Flat) or Country Dwelling (or plus Flat) as appropriate.

The recreation and events rate revenue (\$5,133,258) will be used to fund 50% of the costs associated with the following activities:

- Passive recreation areas, gardens, walkways and reserves.
- The provision on public toilets.
- Provision of events and facilitation events.
- Contribution to the operating shortfall of Alpine Aqualand attributable to non-residents

RECREATION & EVENTS CHARGE

Pursuant to sections 16, 17 and 18 of the Act, Council proposes to set a new targeted Recreation & Events Charge on each separately used or inhabited part of every rating unit in the district as follows:

1.	Residential	\$163.00
2.	Residence plus Flat	\$228.20
3.	Hydro Electric/Utilities	\$253.00
4.	Vacant Sections	\$163.00
5.	Accommodation	\$822.00
6.	CBD Accommodation	\$822.00
7.	Commercial	\$253.00
8.	CBD Commercial	\$253.00
9.	Primary Industry	\$110.00
10.	Country Dwelling	\$110.00
11.	Country Dwelling plus Flat	\$154.00
12.	Other	\$163.00
13.	Mixed Use Apportioned	See note (i)

Note (i): The mixed use apportioned properties will be treated as 25% Commercial or Accommodation and 75% Residential (or plus Flat) or Country Dwelling (or plus Flat) as appropriate.

The recreation and events charge revenue (\$5,133,258) will be used to fund 50% of the costs associated with the following activities:

- Passive recreation areas, gardens, walkways and reserves.
- The provision on public toilets.
- Provision of events and facilitation events.
- Contribution to the operating shortfall of Alpine Aqualand attributable to non-residents

GENERAL RATE

Pursuant to Sections 13 and 14 of the Act, Council proposes to set a differential general rate based on land use on the rateable capital value of all property within the Queenstown Lakes District as follows:

1. Residential	0.000059 cents in the \$
2. Residence plus Flat	0.000059 cents in the \$
3. Hydro Electric/Utilities	0.000024 cents in the \$
4. Vacant Sections	0.000059 cents in the \$
5. Accommodation	0.000074 cents in the \$
6. CBD Accommodation	0.000074 cents in the \$
7. Commercial	0.000048 cents in the \$
8. CBD Commercial	0.000048 cents in the \$
9. Primary Industry	0.000068 cents in the \$
10. Country Dwelling	0.000064 cents in the \$
11. Country Dwelling plus Flat	0.000064 cents in the \$
12. Other	0.000059 cents in the \$
13. Mixed Use Apportioned	See note (i)

Note (i): The mixed use apportioned properties will be treated as 25% Commercial or Accommodation and 75% Residential (or plus Flat) or Country Dwelling (or plus Flat) as appropriate.

The general rate revenue (\$1,182,389) will be used to fund the costs associated with the following activities:

- Provision of emergency services (civil defence & rural fire).
- Waste management including landfill establishment.
- Forestry including wilding pine control

ROADING RATE (WANAKA WARD)

Pursuant to sections 16, 17 and 18 of the Act, Council proposes to set a targeted differential roading rate based on land use on the rateable capital value of all property within the Wanaka ward on the Queenstown Lakes District as follows:

1. Residential	0.000645 cents in the \$
2. Residence plus Flat	0.000645 cents in the \$
3. Hydro Electric/Utilities	0.000161 cents in the \$
4. Vacant Sections	0.000968 cents in the \$
5. Accommodation	0.002419 cents in the \$
6. CBD Accommodation	0.002419 cents in the \$
7. Commercial	0.002419 cents in the \$

8. CBD Commercial	0.002419 cents in the \$
9. Primary Industry	0.000522 cents in the \$
10. Country Dwelling	0.000658 cents in the \$
11. Country Dwelling plus Flat	0.000658 cents in the \$
12. Other	0.000645 cents in the \$
13. Mixed Use Apportioned	See note (i)

Note (i) the mixed use apportioned properties will be treated as 25% Commercial or Accommodation and 75% Residential (or plus Flat) or Country Dwelling (or plus Flat) as appropriate.

The Wanaka roading rate revenue (\$5,364,410) will be used to fund the costs associated with the following activities:

- Wanaka wards roading network, which includes footpaths and other amenities within the road reserve.
- The development of town centre areas.
- The maintenance and upgrading of roading drainage systems.

ROADING RATE (QUEENSTOWN/WAKATIPU AND ARROWTOWN WARDS)

Pursuant to sections 16, 17 and 18 of the Act, Council proposes to set a targeted differential roading rate based on land use on the rateable capital value of all property within the Queenstown/Wakatipu and Arrowtown wards of the Queenstown Lakes District as follows:

1. Residential	0.000370 cents in the \$
2. Residence plus Flat	0.000370 cents in the \$
3. Hydro Electric/Utilities	0.000093 cents in the \$
4. Vacant Sections	0.000555 cents in the \$
5. Accommodation	0.001388 cents in the \$
6. CBD Accommodation	0.001388 cents in the \$
7. Commercial	0.001388 cents in the \$
8. CBD Commercial	0.001388 cents in the \$
9. Primary Industry	0.000300 cents in the \$
10. Country Dwelling	0.000377 cents in the \$
11. Country Dwelling plus Flat	0.000377 cents in the \$
12. Other	0.000370 cents in the \$
13. Mixed Use Apportioned	See note (i)

Note (i) the mixed use apportioned properties will be treated as 25% Commercial or Accommodation and 75% Residential (or plus Flat) or Country Dwelling (or plus Flat) as appropriate.

The Wakatipu/Arrowtown roading rate revenue (\$8,265,893) will be used to fund the costs associated with the following activities:

- Wakatipu/Arrowtown ward's roading network, which includes footpaths and other amenities within the road reserve.
- The development of town centre areas.
- The maintenance and upgrading of roading drainage systems.

STORMWATER RATE (WANAKA WARD)

Pursuant to sections 16, 17 and 18 of the Act, Council proposes to set a targeted stormwater rate based on land use of the rateable capital value of the following categories of property within the Wanaka ward of the Queenstown Lakes District as follows:

1.	Residential	0.000154 cents in the \$
2.	Residence plus Flat	0.000154 cents in the \$
3.	Hydro Electric/Utilities	0.000039 cents in the \$
4.	Vacant Sections	0.000154 cents in the \$
5.	Accommodation	0.000154 cents in the \$
6.	CBD Accommodation	0.000154 cents in the \$
7.	Commercial	0.000154 cents in the \$
8.	CBD Commercial	0.000154 cents in the \$
9.	Other	0.000154 cents in the \$
10.	Mixed Use Apportioned	See note (i)

Note (i) the mixed use apportioned properties will be treated as 25% Commercial or Accommodation and 75% Residential as appropriate.

The Wanaka stormwater rate revenue (\$650,012) will be used to fund the costs associated with the following activities

- The maintenance and upgrading of stormwater reticulation systems.

STORMWATER RATE (QUEENSTOWN/WAKATIPU AND ARROWTOWN WARDS)

Pursuant to sections 16, 17 and 18 of the Act, Council proposes to set a targeted stormwater rate based on land use of the rateable capital value of the following categories of property within the Queenstown/Wakatipu and Arrowtown wards of the Queenstown Lakes District as follows:

1.	Residential (ii)	0.000111 cents in the \$
2.	Residence plus Flat (ii)	0.000111 cents in the \$
3.	Hydro Electric/Utilities	0.000028 cents in the \$
4.	Vacant Sections (ii)	0.000111 cents in the \$
5.	Accommodation	0.000111 cents in the \$
6.	CBD Accommodation	0.000111 cents in the \$
7.	Commercial	0.000111 cents in the \$
8.	CBD Commercial	0.000111 cents in the \$
9.	Other	0.000111 cents in the \$
10.	Mixed Use Apportioned	See note (i)

Note (i) The mixed use apportioned properties will be treated as 25% Commercial or Accommodation and 75% Residential (or plus Flat) as appropriate.

Note (ii) Excludes property within the Jacks Point Special Zone.

The Wakatipu/Arrowtown stormwater rate revenue (\$1,079,454) will be used to fund the costs associated with the following activities:

- The maintenance and upgrading of stormwater reticulation systems.

TOURISM PROMOTION RATE (WANAKA WARD)

Pursuant to sections 16, 17 and 18 of the Act, Council proposes to set a targeted tourism promotion rate based on land use on the rateable capital value of the following categories of property within the Wanaka ward of the Queenstown Lakes District as follows:

1.	Accommodation	0.001571 cents in the \$
2.	CBD Accommodation	0.001571 cents in the \$
3.	Commercial	0.001571 cents in the \$
4.	CBD Commercial	0.001571 cents in the \$
5.	Hydro Electric/Utilities	0.000393 cents in the \$
6.	Mixed Use Apportioned	See note (i)

Note (i) the mixed use apportioned properties will be treated as 25% Commercial or Accommodation and 75% Residential (or plus Flat) or Country Dwelling (or plus Flat) as appropriate.

The Wanaka tourism promotion rate revenue (\$1,145,584) will be used to fund the costs associated with the following activities:

- To finance promotional activities of Lake Wanaka Tourism.

TOURISM PROMOTION RATE (QUEENSTOWN/WAKATIPU WARDS)

Pursuant to sections 16, 17 and 18 of the Act, Council proposes to set a targeted tourism promotion rate based on land use on the rateable capital value of the following categories of property within the Queenstown/Wakatipu Wards of the Queenstown Lakes District as follows:

1. Accommodation	0.001202 cents in the \$
2. CBD Accommodation	0.001202 cents in the \$
3. Commercial	0.001202 cents in the \$
4. CBD Commercial	0.001202 cents in the \$
5. Hydro Electric/Utilities	0.000301 cents in the \$
6. Mixed Use Apportioned	See note (i)

Note (i) the mixed use apportioned properties will be treated as 25% Commercial or Accommodation and 75% Residential (or plus Flat) or Country Dwelling (or plus Flat) as appropriate.

The Wakatipu tourism promotion rate revenue (\$3,814,111) will be used to fund the costs associated with the following activities:

- To finance promotional activities of Destination Queenstown

TOURISM PROMOTION RATE (ARROWTOWN WARD)

Pursuant to sections 16, 17 and 18 of the Act, Council proposes to set a targeted tourism promotion rate based on land use on the rateable capital value of the following categories of property within the Arrowtown Ward of the Queenstown Lakes District as follows:

1. Accommodation	0.001482 cents in the \$
2. CBD Accommodation	0.001482 cents in the \$
3. Commercial	0.001482 cents in the \$
4. CBD Commercial	0.001482 cents in the \$
5. Hydro Electric/Utilities	0.000371 cents in the \$
6. Mixed Use Apportioned	See note (i)

Note (i) the mixed use apportioned properties will be treated as 25% Commercial or Accommodation and 75% Residential (or plus Flat) or Country Dwelling (or plus Flat) as appropriate.

The Arrowtown tourism promotion rate revenue (\$136,318) will be used to fund the costs associated with financing the following activities:

- To finance promotional activities of the Arrowtown Promotion Association.

WASTE MANAGEMENT CHARGES

Pursuant to sections 16, 17 and 18 of the Act, Council proposes to set a targeted waste management charge on each separately used or inhabited part of every rating unit in the district, as follows:

1. Residential	\$130.00
2. Residence/Country Dwelling plus Flat	\$182.00
3. Hydro Electric/Utilities	\$93.00
4. Vacant Sections	\$93.00
5. Accommodation	\$93.00
6. CBD Accommodation	\$93.00
7. Commercial	\$93.00
8. CBD Commercial	\$93.00
9. Primary Industry	\$130.00
10. Country Dwelling	\$130.00
11. Other	\$93.00
12. Mixed Use Apportioned	\$130.00

The Waste Management Charge revenue (\$2,922,989) will be used to fund the costs associated with the following activities:

- To fund the operating deficit of the transfer stations and the recycling initiatives proposed in the Waste Management Strategy.

AQUATIC CENTRE CHARGE (QUEENSTOWN/WAKATIPU AND ARROWTOWN WARDS)

Pursuant to sections 16, 17 and 18 of the Act, Council proposes to set a targeted Aquatic Centre charge on each separately used or inhabited part of every rating unit with a residential component in the Queenstown / Wakatipu and Arrowtown Wards as follows:

1. Residential	\$102.00
2. Residence/Country Dwelling plus Flat	\$142.80
3. Hydro Electric/Utilities	\$0.00
4. Vacant Sections	\$102.00
5. Accommodation	\$0.00
6. CBD Accommodation	\$0.00
7. Commercial	\$0.00
8. CBD Commercial	\$0.00

9. Primary Industry	\$102.00
10. Country Dwelling	\$102.00
11. Other	\$0.00
12. Utilities	\$0.00
13. Mixed Use Apportioned	\$102.00

The Aquatic Centre Charge revenue (\$1,316,637) will be used to fund the costs associated with the following activities:

- To fund the operating shortfall of Alpine Aqualand attributable to residents

AQUATIC CENTRE CHARGE (WANAKA WARD)

Pursuant to sections 16, 17 and 18 of the Act, Council proposes to set a targeted Aquatic Centre charge on each separately used or inhabited part of every rating unit with a residential component in the Wanaka Ward as follows:

1. Residential	\$141.00
2. Residence/Country Dwelling plus Flat	\$197.40
3. Hydro Electric/Utilities	\$0.00
4. Vacant Sections	\$141.00
5. Accommodation	\$0.00
6. CBD Accommodation	\$0.00
7. Commercial	\$0.00
8. CBD Commercial	\$0.00
9. Primary Industry	\$141.00
10. Country Dwelling	\$141.00
11. Other	\$0.00
12. Utilities	\$0.00
13. Mixed Use Apportioned	\$141.00

The Aquatic Centre Charge revenue (\$1,135,564) will be used to fund the costs associated with the following activities:

- To fund the operating shortfall of Wanaka Aquatic Centre attributable to residents

WATER SUPPLY RATES

i QUEENSTOWN AND DISTRICT WATER SUPPLY, ARROWTOWN WATER SUPPLY AND WANAKA WATER SUPPLY

Pursuant to sections 16, 17 and 18 of the Act, Council proposes to set a targeted rate for water supply on each separately used or inhabited part of every connected or serviceable rating unit within the respective water supply areas as follows:

Queenstown and District water supply:	\$260.00
Arrowtown water supply:	\$180.00
Wanaka and District water supply:	\$180.00

Pursuant to sections 16, 17 and 18 of the Act, Council proposes to set a targeted differential water supply rate based on land use on the rateable capital value of all rating units connected in the following water supply areas.

	Queenstown (cents in the \$)	Arrowtown (cents in the \$)	Wanaka (cents in the \$)
1. Residential	0.000274	0.000275	0.000233
2. Residential plus Flat (ii)	0.000274	0.000275	0.000233
3. Accommodation	0.000493	0.000495	0.000419
4. CBD Accommodation	0.000493	0.000495	0.000419
5. Commercial	0.000400	0.000402	0.000340
6. CBD Commercial	0.000400	0.000402	0.000340
7. Primary Industry	0.000203	0.000204	0.000172
8. Country Dwelling	0.000225	0.000226	0.000191
9. Country Dwelling plus Flat (ii)	0.000225	0.000226	0.000191
10. Other	0.000274	0.000275	0.000233
11. Mixed Use Apportioned	See note (i)	See note (i)	See note (i)

Note (i) the mixed use apportioned properties will be treated as 25% Commercial or Accommodation and 75% Residential (or plus Flat) or Country Dwelling (or plus Flat) as appropriate.

Note (ii) those properties comprising a Residence/Country Dwelling plus Flat will be charged the targeted rate at a factor of 1.5.

ii OTHER WATER SUPPLIES

Pursuant to sections 16, 17 and 18 of the Act, Council proposes to set a targeted rate for water supply on each separately used or inhabited part of every rating unit connected to the respective scheme, and a half charge on each separately used or inhabited part of every serviceable rating unit.

Water Supply	Full Charge (\$)	Half Charge (\$)
Arthurs Point	600.00	300.00
Glenorchy	750.00	375.00
Hawea	350.00	175.00
Lake Hayes	600.00	300.00
Luggate	580.00	290.00

The Targeted Water Supply Rates revenue (\$8,693,464) will be used to fund the costs associated with the following activities:

(i) To provide supplies of potable (drinkable) water to the above communities.

Note (i) those properties comprising a Residence/Country Dwelling plus Flat will be charged the targeted rate at a factor of 1.5.

WATER SCHEME LOAN RATE

(i) Lake Hayes Water Supply Area

Pursuant to sections 16, 17 and 18 of the Act, Council proposes to set a targeted water scheme loan rate of \$426.27 on every connected or serviceable rating unit within the Lake Hayes water supply area, other than those in respect of which ratepayer has elected to make the lump sum.

The Targeted Water Scheme Loan Revenue (\$12,603) will be used to fund the costs associated with the following activities

Revenue sought by way of annual loan charges is to cover the cost of financing loans raised to pay for the capital cost of water schemes.

SEWERAGE RATES

Pursuant to sections 16, 17 and 18 of the Act, Council proposes to set a targeted sewerage rate on every rating unit connected to a district sewerage scheme, on the basis on one full charge per first pan or urinal connected, with a discounted charge

on every subsequent pan or urinal connected. A half charge will apply to every serviceable rating unit. The charges for each scheme are set out in the schedule below.

Note (i): every rating unit used exclusively or principally as a residence of not more than one household is deemed to have not more than one connection.

Note (ii) those properties comprising a Residence/Country Dwelling plus Flat will be charged the targeted rate at a factor of 1.5.

Sewerage Scheme	Charge for 1st pan connected (\$)	Half Charge capable of connection (\$)	Charge per pan after 1 connected (\$)
Wanaka/Albert Town	568.00	284.00	284.00
Arrowtown	680.00	340.00	340.00
Arthurs Point	530.00	265.00	381.60
Hawea	550.00	275.00	275.00
Lake Hayes	530.00	265.00	265.00
Luggate	650.00	325.00	325.00
Queenstown	610.00	305.00	305.00

The Targeted Sewerage Rates revenue (\$12,411,918) will be used to fund the costs associated with providing public sewerage services to the above communities.

SEWERAGE SCHEME LOAN RATES

(i) Lake Hayes Sewerage Area

Pursuant to sections 16, 17 and 18 of the Act, Council proposes to set a targeted sewerage scheme loan rate on every serviceable rating unit within the Lake Hayes Sewerage scheme area, on the basis of one charge per pan or urinal connected or capable of being connected of \$353.18, on the first pan or urinal, and \$176.59 for each subsequent pan or urinal.

Note:

- The targeted sewerage scheme loan rate will not apply to those properties in respect of which the ratepayer elected to make the lump sum contribution; and
- Every rating unit used exclusively or principally as a residence of not more than one household is deemed to have not more than one connection.

The Targeted Sewerage Scheme Loan Rates revenue (\$22,127) will be used to fund the costs associated with the following activities:

- Revenue sought by way of annual loan charges is to cover the costs of financing loans raised to pay for the capital cost of sewerage schemes.

DUE DATES FOR PAYMENTS

The Council proposes that the above rates and charges for the financial year commencing on the 1st day of July 2017 are payable in four instalments, the due dates and last days for payment without penalty being as follows:

	Due Date	Last Day for Payment (without 10% penalty)
Instalment One	4 September 2017	29 September 2017
Instalment Two	20 October 2017	24 November 2017
Instalment Three	19 January 2018	23 February 2018
Instalment Four	20 April 2018	25 May 2018

PAYMENT OF RATES

Rates payments can be made during normal office hours at:

- Civic Centre, 10 Gorge Road, Queenstown
- Wanaka Service Centre, Ardmore Street, Wanaka
- Arrowtown Public Library, Buckingham Street, Arrowtown

Or by direct debit and internet banking.

ADDITIONAL CHARGES (PENALTIES)

Pursuant to Sections 24, 57 and 58 of the Act, Council proposes that the following penalties will apply under delegated authority to the Rating Administrator:

- A penalty of 10% will be added to the rates and charges levied in each instalment which remains unpaid on the day after the last day for payment date as shown above (i.e. the penalty will be added on 30 September 2017, 25 November 2017, 24 February 2018 and 26 May 2018 respectively).
- A penalty of 10% will be added to the amount of rates or instalments (including penalties) levied in any previous financial year and remaining unpaid on 30 September 2017.

- A second penalty of 10% will be added to the amount of rates or instalments (including penalties) levied in any previous financial year which remains unpaid on 31 March 2018.

DIFFERENTIAL MATTERS USED TO DEFINE CATEGORIES OF RATEABLE LAND

Where Council's propose to assess rates on a differential basis they are limited to the list of matters specified in Schedule Two of the Local Government (Rating) Act 2002. Council is required to state which matters will be used for what purpose, and the category or categories of any differentials.

Differentials by Land Use

The categories are:

1. RESIDENTIAL

All rating units which are used exclusively or principally for residential purposes, but excluding properties categorised as pursuant to clause 9 (Primary Industry), clause 10 (Country Dwelling) or to clause 13 (Mixed Use Apportioned).

2. RESIDENCE PLUS FLAT

All rating units comprising a single dwelling and a residential flat which are used exclusively or principally for residential purposes, excluding properties categorised as pursuant to clause 11 (Country Dwelling plus Flat).

3. HYDRO ELECTRIC / UTILITIES

All rating units on which there are structures used exclusively or principally for, or in connection with, the generation of hydro-electric power, including structures used to control the flow of water to other structures used for generating hydro-electric power and all rating units used exclusively or principally for network utility services including water supply, wastewater, stormwater, electricity, gas & telecommunications.

4. VACANT SECTIONS

All rating units which are vacant properties and suitable for development.

5. ACCOMMODATION

All rating units used exclusively or principally for the accommodation of paying guests on a short term basis (nightly, weekly or for periods up to a month) including hotels, motels, houses and flats used for such purposes, commercial time share units, managed apartments, bed and breakfast properties, motor camps and home stay properties; but excluding properties categorised as pursuant to clause 13 (Mixed Use Apportioned) or clause 5 (CBD Accommodation).

6. CBD ACCOMMODATION

All rating units used exclusively or principally for the accommodation of paying guests on a short term basis including hotels, motels, houses and flats used for such purposes, commercial time share units, managed apartments, bed and breakfast properties, motor camps and home stay properties located within the Town Centre Zones contained in the Queenstown Lakes District Council's District Plan as at 1 July of the current rating year; but excluding properties categorised as pursuant to clause 13 (Mixed Use Apportioned).

7. COMMERCIAL

All rating units used exclusively or principally for commercial activities including industrial, retail, transport, utility services, storage, recreation and tourist operations, offices, or rest homes; but excluding properties categorised as Hydro-Electric Power, Accommodation, CBD Accommodation, Primary Industry, or pursuant to clause 13 (Mixed Use Apportioned) or clause 7 (CBD Commercial).

8. CBD COMMERCIAL

All rating units used exclusively or principally for commercial activities including industrial, retail, transport, utility services, storage, recreation and tourist operations, offices, or rest homes located within the Town Centre Zones contained in the Queenstown Lakes District Council's District Plan as at 1 July of the current rating year; but excluding properties categorised as CBD Accommodation or pursuant to clause 13 (Mixed Use Apportioned).

9. PRIMARY INDUSTRY

All rating units:

Used exclusively or principally for agricultural or horticultural purposes including dairying, stock fattening, arable farming, sheep, market gardens, vineyards, orchards, specialist livestock, forestry or other similar uses, or

Which are ten hectares or more in area and located in any of the Rural or Special Zones contained in the Queenstown Lakes District Council's District Plan as at 1 July of the current rating year.

10. COUNTRY DWELLING

All rating units of less than 10 hectares, located in any of the Rural Zones (except for the land zoned as Rural Residential north of Wanaka township in the vicinity of Beacon Point Road bounded by the low density residential zone to the south, Penrith Park zone to the north and Peninsula Bay to the east and the land zoned as Rural General

off Mt Iron Drive comprising of Liverpool Way; Cascade Drive; Bevan Place and Islington Place) or Special Zones (excluding Penrith Park; Remarkables Park; Quail Rise; Woodbury Park; Lake Hayes Estate; Shotover Country; Jacks Point; Peninsula Bay; and Meadow Park) as shown in the Queenstown Lakes District Council's District Plan, which are used exclusively for residential purposes.

11. COUNTRY DWELLING PLUS FLAT

All rating units comprising a single dwelling pursuant to clause 10 and a residential flat which are used exclusively or principally for residential purposes.

12. OTHER

Any rating unit not classified under any of the other categories.

13. MIXED USE APPORTIONED

All rating units which are used in part, but not exclusively, for residential purposes, and in part, but not principally, for commercial or accommodation purposes. Usage in part may be determined by:

- a. The physical portion of the rating unit used for the purpose, or
- b. The amount of time (on an annual basis) that the rating unit is used for the purpose.

Note: the Mixed Use Apportioned classification will not be applied to residential rating units used for accommodation purposes for a single period of up to 28 consecutive days in any rating year.

These categories are used to differentiate the following rates:

- > general rate, targeted rates: sports halls & libraries charge; governance rate; regulatory rate; recreation & events rate; governance & regulatory charge; recreation & events charge; roading rate; stormwater rate; tourism promotion rates; waste management charge; aquatic centre charges; water supply rates.

TARGETED RATES BASED ON LOCATION

The categories are:

1. Location within the Wanaka ward.
2. Location within the Queenstown/Wakatipu ward or the Arrowtown ward.

These categories are used to differentiate the following targeted rates:

- > roading rate; stormwater rate; tourism promotion rates; aquatic centre charge.

TARGETED RATES BASED ON AVAILABILITY OF SERVICE

The categories are:

1. Connected

Any rating unit that is connected to a Council operated water scheme or is connected to a public sewerage drain.

2. Serviceable

Any rating unit within the area of service that is not connected to a Council operated water scheme but is within 100 metres of any part of the waterworks and to which water can be supplied. Any rating unit within the area of service, that is not connected to a public sewerage drain, but is within 30 metres of such a drain, and is capable of being connected.

These categories are used to differentiate the following targeted rates:

- > water supply rates, water scheme loan rates, sewerage rates, sewerage scheme loan rates.

DEFINITION OF 'SEPARATELY USED OR INHABITED PARTS OF A RATING UNIT'

Where rates are calculated on each separately used or inhabited part of a rating unit, the following definitions will apply:

- > Any part of a rating unit that is used or occupied by any person, other than the ratepayer, having a right to use or inhabit that part by virtue of a tenancy, lease, licence, or other agreement.
- > Any part or parts of a rating unit that is used or occupied by the ratepayer for more than one single use.

The following are considered to be separately used parts of a rating unit:

- > Individual flats or apartments
- > Separately leased commercial areas which are leased on a rating unit basis
- > Vacant rating units
- > Single rating units which contain multiple uses such as a shop with a dwelling or commercial activity with a dwelling
- > A residential building or part of a residential building that is used, or can be used as an independent residence.

An independent residence is defined as a liveable space with its own kitchen, living and toilet/bathroom facilities that can be deemed to be a secondary unit to the main residence. Note: the definition of a kitchen comes from the District Plan.

The following are not considered to be separately used parts of a rating unit:

- > A residential sleep-out or granny flat that does not meet the definition of an independent residence
- > A hotel room with or without kitchen facilities
- > A motel room with or without kitchen facilities
- > Individual storage garages/sheds/portioned areas of a warehouse
- > Individual offices or premises of business partners.

District Plan definition of a Kitchen:

Means any space, facilities and surfaces for the storage, rinsing preparation and/or cooking food, the washing of utensils and the disposal of waste water, including a food preparation bench, sink, oven, stove, hot-plate or separate hob, refrigerator, dish-washer and other kitchen appliances.

AMENDMENTS TO THE 2017/18 POLICY ON DEVELOPMENT CONTRIBUTIONS AND FINANCIAL CONTRIBUTIONS

We have completed consultation on the proposed amendments to the Policy on Development Contributions for 2017/18. In total 4 submissions were received in relation to this matter and after due consideration of the issues raised, Council intends to adopt the amendments as proposed.

The main amendment is the annual update of contribution levels resulting from the incorporation of the latest actual expenditure and the revised capital programme as outlined in the Annual Plan 2017/18.

Other amendments that will simplify and clarify areas of the policy that have not been amended since the policy was first introduced have also been adopted. The proposed changes involve the introduction of clearer definitions and a simpler assessment methodology for non-residential subdivisions where the details of the proposed development are not known. These changes are as follows:

- a.** Clarification of when Council will assess development contributions when a development requires both resource and building consent.
- b.** Remove the 2012 provision to allow for recalculation of development contributions after 24 months.
- c.** Clarification of when a development contribution assessment may be reviewed
- d.** Amendment to Country Dwelling Category in the Dwelling Equivalent Calculation Table.
- e.** Change to the methodology of how non-residential developments are assessed at subdivision stage
- f.** Amendment of the multi-unit residential development definition to include reference to apartments.
- g.** Inclusion of the rates Residential flat definition to provide clarification of when a development contribution is required under either a Resource Consent or Building Consent.
- h.** Update to the Greenfield and Brownfield definitions as they relate to reserve land requirements.
- i.** Inclusion of Unusual Development definition to allow Council to assess those developments that have unusual demand characteristics.
- j.** Inclusion of reference to the ability of Council to withhold a certificate of acceptance under the Building Act as per the Local Government Act.
- k.** Simplification and clarification of the rules determining when credits may apply.

These changes will apply to any application for resource consent, building consent or application for service connection lodged on or after 1 July 2017.

POLICY ON DEVELOPMENT CONTRIBUTIONS AND FINANCIAL CONTRIBUTIONS

OVERVIEW

The Queenstown Lakes District is experiencing significant growth in its population, visitors, development and the local economy. This growth generates high levels of subdivision and development activity which places increasing pressure on the assets and services provided by the Council. Significant investment in additional assets and services is accordingly required to meet the demands of growth.

Historically, Council has sought a contribution towards the expansion of the District's reserves, community facilities and infrastructure from those developments which place additional demands on these services. In order to levy these contributions Council may employ:

Financial Contributions imposed as a condition of a resource consent pursuant to Section 108, 220, 407 or 409 of the Resource Management Act (RMA) 1991. Council has withdrawn most of the provision relating to Financial Contributions from Section 15 of the District Plan.

Development Contributions as defined by the provisions of Part 8 Subpart 5 and Schedule 13 of the Local Government Act 2002 (LGA 2002). To make use of these provisions Council must adopt a Policy on Development Contributions as part of the Council's 10-Year Plan. Note that this can be amended at any time. Development Contributions are based on the fiscal implications of growth.

Development contributions may be sought in respect of any development that generates a demand for reserves, network or community infrastructure. Council will assess whether development contributions are payable in relation to the development when an application for one of the following is made:

- i. Resource Consent
- ii. Building Consent
- iii. Authorisation for a Service Connection

When a development has both a resource consent and building consent, QLDC intend to assess DC's on the consent that contains all the required information to make the correct assessment, for example subdivisions creating newly serviced lots will be assessed at the subdivision resource consent stage and land use consents that require a building consent to give effect to the development will be assessed under the relevant building consent once the final plans and gross floor areas of the development are confirmed. For land use consents with no related building consents (i.e. registration of a building platform and some change in use consents) will be assessed at the land use resource consent stage.

This policy has been prepared to meet the requirements of Section 106(2) of the LGA 2002. The full methodology that demonstrates how the calculations for development contributions were made is contained in a separate document which is available to the public as per section 106 (3) of the Act.

REASONS FOR USING DEVELOPMENT AND FINANCIAL CONTRIBUTIONS

Council intends to entirely fund the portion of capital expenditure (CAPEX) that is attributable to growth by either Financial or Development Contributions wherever it is legally, fairly, reasonably and practically possible to do so.

Council considers that Development and Financial Contributions are the best mechanism available to ensure the cost of growth sits with those who have created the need for that cost. Council considers it inappropriate to burden the community as a whole, by way of rating or other payment means, to meet the cost of existing growth.

Section 101(3) of the LGA 2002 requires that the following be considered:

The funding needs of the local authority must be met from those sources that the local authority determines to be appropriate, following consideration of:

A in relation to each activity to be funded -

- the community outcomes to which the activity primarily contributes; and
- the distribution of benefits between the community as a whole, any identifiable part of the community, and individuals; and
- the period in or over which those benefits are expected to occur; and
- the extent to which the actions or inaction of particular individuals or a group contribute to the need to undertake the activity; and
- the costs and benefits, including consequences for transparency and accountability, of funding the activity distinctly from other activities; and

B the overall impact of any allocation of liability for revenue needs on the current and future social, economic, environmental, and cultural well-being of the community

Council's Revenue & Financing Policy considers each of these factors in relation to each activity to be funded. In addition, Council has specifically considered these factors in relation to the Development Contributions and Financial Contributions Policy:

(I) COMMUNITY OUTCOMES

This policy contributes to:

- Managing growth in a sustainable way
- Quality landscapes, natural environment and enhanced public access
- Effective and efficient infrastructure that meets the needs of growth
- High quality urban environments respectful of the character of the individual communities.

(II) DISTRIBUTION OF BENEFITS

Council apportions all capital expenditure into the classifications of growth, renewal, level of service and statutory obligations, by the geographic areas of benefit. This apportionment represents the distribution of benefit to the community as a whole, to identifiable parts of the community and to individuals.

(III) PERIOD OVER WHICH THE BENEFITS ARE EXPECTED TO OCCUR

Once a Development or Financial contribution has been paid in relation to a subdivision or development, the benefits of the asset, service, or environmental enhancement shall occur indefinitely (at a set level of service for that asset, service, or environmental enhancement as defined at any one time).

(IV) ACTION OR INACTION THAT CONTRIBUTES TO THE NEED FOR THIS ACTIVITY

The provision of assets, services, or environmental standards that promote the community outcomes may not be willingly provided by the development community. In addition Council is often the only viable supplier (often legally required to provide services) of these services and therefore Council has a moral and legal obligation to provide additional assets, services to meet the new community needs.

(V) COSTS AND BENEFITS OF FUNDING THIS ACTIVITY (DEVELOPMENT AND FINANCIAL CONTRIBUTIONS)

The benefits to the existing community are significantly greater than the cost of policy making, calculations, collection, accounting and distribution of funding for development and financial contributions.

(VI) ALLOCATION OF LIABILITY FOR REVENUE NEEDS

The liability for revenue falls directly with the development community. At the effective date of this Policy, Council does not perceive any impact on the social, economic, environmental and cultural well-being of this particular sector of the community. At any stage in the future where there maybe impacts of this nature, Council may revisit this Policy.

ASSETS INCLUDED IN THE DEVELOPMENT AND FINANCIAL CONTRIBUTIONS POLICY

Assets included in this policy are:

- Network infrastructure for water supplies, wastewater, stormwater and transportation.
- Reserve land.
- Community infrastructure including the development and acquisition of reserve land to use as reserve and facilities needed on that reserve and other public amenities such as halls, libraries, public toilets, parking facilities and the like.

- Other Assets. Financial Contributions can be required to avoid remedy or mitigate adverse effects of development that are of a non-fiscal nature. These may include contributions that avoid, remedy or mitigate the effects of development on biodiversity, landscape, amenity values or the provision of specific assets by the developer/subdivider (i.e. access easements in gross). As the Development Contributions provisions of the LGA 2002 specifically relate to fiscal impacts or effects of growth, Financial Contributions for non-fiscal impacts of effects of development will need to be assessed through the RMA and District Plan processes. Chapter 15 of the District Plan (not operative) and any subsequent variations shall be considered in this policy.

WHICH CONTRIBUTIONS WILL APPLY

Council has completed the process of removing parts of the Financial Contributions rules, policies and objectives under the provisions of Part 15 of the Queenstown Lakes District Plan. This has made Section 15 operative and Council can no longer impose Financial Contributions pursuant to Section 489 of the RMA.

Until the 2007 version of the Policy, Council has assessed Development Contributions on any application for resource consent, building consent or service connection lodged after 8 May 2004 and granted on or after 1 July 2004. It is now deemed appropriate to amend the application date of the Policy so that Development Contributions may also be assessed on any application for resource consent, building consent or service connection lodged before 8 May 2004 and granted on or after 1 July 2007. This amendment will affect very few applications as most applications received prior to 8 May 2004 have either been granted previously or withdrawn.

The Council cannot require a Development Contribution for a reserve; network infrastructure or community infrastructure if and to the extent that it has under Section 108, 407 or 409 of the RMA imposed a condition on a resource consent in relation to the same development for the same purpose. Council shall in requiring contributions, clearly identify under what circumstances and upon which legislation (RMA 1991, LGA 2002) a contribution is required.

The following tables indicate:

- Where Financial and Development Contributions are to be sought such that no duplication of levy for the same effect/benefit will occur.
- How much is to be charged per dwelling equivalent for each asset type within each area

Aubrey Road Rural Res.	3,016	6,813	1,863	2,071		1,220	993	15,976	27.5m ²

* Reserve Improvements contribution excludes requirement for 27.5m² reserve land contribution.

¹ The contributing area for the Eastern Access Road is not the same as the contributing area for Frankton Flats Stormwater. Refer to the map of the Eastern Access Road contributing area at Appendix A to see where this development contribution applies

Notes:

- Development Contributions for water supply, wastewater, stormwater, reserves and community facilities have been assessed and will be collected using the LGA 2002 from 1 July 2004.
- Transportation development contributions have been assessed and will be collected using the LGA 2002 from 1 July 2006.
- Development contributions are triggered and may become payable on the granting of:
 - A Resource Consent.
 - A Building Consent.
 - An authorisation for a service connection.

Those Sites that apply for consents that result in additional demand beyond what has been assessed will be reviewed and further contributions required if the units of demand exceed those previously paid for.

OVERVIEW OF CALCULATION METHODOLOGY

A brief introduction to the development contributions calculation method is presented herein. A full disclosure of the methodology and calculations is available from QLDC for public inspection at:

- Wanaka Service Centre, Ardmore Street, Wanaka.
- Civic Centre, 10 Gorge Road, Queenstown.

The current Development Contributions model applies to Water Supply, Wastewater, Stormwater, Reserves, Community Facilities and Transportation.

The key concept of the approach is to define the total capital expenditure (CAPEX) for growth consumed by the growth population over a period of time. This consumption of CAPEX for growth is then apportioned among the increased number of units of demand (dwelling equivalents) over the same time period. This defines the long run average cost of growth per unit of demand, defined as the dwelling equivalent contribution. This can be represented by the following formula.

Dwelling Equivalent Contribution	=	$\frac{\text{Sum of capex for growth consumed in analysis period}}{\text{Sum of new dwelling equivalents in analysis period}}$
--	---	--

The calculation method can be simplified according to the following steps:

- STEP 1:** Assess capital expenditure for growth on an asset by asset basis using financial reports (past expenditure) and projected expenditure.
- STEP 2:** Apportion capital expenditure for growth by the growth population (dwelling equivalents) over the design life of the asset, to assess the \$/unit of demand.
- STEP 3:** For each year in the analysis period determine the total consumption of asset capacity for each asset identified, namely – \$/unit of demand x the number units of demand.
- STEP 4:** Sum for all assets in each year in the analysis period, namely total capacity consumed in that year, measured in \$.
- STEP 5:** Sum each year in the ten year analysis period and divide by the growth population (new dwelling equivalents) projected over the analysis period to determine the dwelling equivalent contribution.

CAPITAL EXPENDITURE

Only capital expenditure (CAPEX) is considered in the model. All Operational Expenditure is excluded, including internal overheads.

Capital expenditure is identified from two sources, namely:

- a)** Activity Management Plans (formally Asset Management plans) and
- b)** Financial Reports.

The Activity Management Plans are used for assessing projected CAPEX. The AMPs are formal planning documents that include long term expenditure forecasts.

CAPEX FOR GROWTH APPORTIONMENTS

The CAPEX identified above has been apportioned into five cost drivers. These being Growth, Renewal, Level of Service, Statutory and Deferred Works/Other. The growth apportionment is the significant driver for assessing development contributions. The cost drivers have been assessed using several methods.

These are:

- Asset Capacity.
- Using Design Life of New Assets to Approximate Growth Percentage.
- Assessed using professional judgement.

Following the completion of the growth study, Council updated its infrastructure models for water supply (WaterGEMS - Bentley Systems), wastewater (SewerGEMS - Bentley Systems) and developed a Transportation and Parking model (Tracks - Gabites Porter). These models provide a detailed insight into the effects of growth and consequently accurate growth apportionments can be made.

LAND USE DIFFERENTIALS

Land use differentials are an important part of the calculations. They enable all development and subdivision types (residential and non-residential) to be considered. Non-residential activities can be described using a common unit of demand, which in this case is the dwelling equivalent.

The following table summarises how to calculate the number of dwelling equivalents (DE's) for a non-residential subdivision or development based on the Gross Floor Area (GFA).

DWELLING EQUIVALENT CALCULATION TABLE

	WATER SUPPLY		WASTEWATER	STORMWATER	RESERVE IMPROVEMENTS AND COMMUNITY FACILITIES		RESERVE LAND		TRANSPORTATION		TRANSPORTATION – EASTERN ACCESS ROAD
Category	Dwelling Equivalents per 100m² GFA	Plus Network Factor Dwelling Equivalents	Dwelling Equivalents per 100m² GFA	Dwelling Equivalents per 100m² Impervious Surface Area	Dwelling Equivalents per 100m² GFA for Wakatipu	Dwelling Equivalents per 100m² GFA for Wanaka	Dwelling Equivalents per 100m² GFA for Wakatipu	Dwelling Equivalents per 100m² GFA for Wanaka	Dwelling Equivalents per 100m² GFA for Wakatipu	Dwelling Equivalents per 100m² GFA for Wanaka	Dwelling Equivalents per 100m² GFA
Residential	1 Dwelling Equivalent (DE) per Dwelling Unit										
Residential Flat	0.37	0.40	0.62	0.38	0.62	0.62	0.62	0.62	0.62	0.62	0.62
Multi Unit Residential	0.37	0.40	0.62	0.38	0.62	0.62	0.62	0.62	0.62	0.62	0.62
Accommodation	0.25	1.30	0.50	0.38	0.90	1.71	0.90	1.71	1.72	2.17	1.36
Commercial	0.16	1.17	0.20	0.38	0.04	0.06	0.00	0.00	2.15	2.56	2.99
Industrial	0.16	1.17	0.20	0.38	0.04	0.06	0.00	0.00	1.04	1.19	0.88
Country Dwelling	n/a		n/a	n/a	1 DE per Dwelling		0.66 DE's per Dwelling		1.34 DE's per Dwelling	3.01 DE's per Dwelling	-
Other	To be individually assessed at the time of application										
CBD Accommodation	0.25	1.30	0.50	0.38	0.90	1.71	0.90	1.71	1.72	2.17	-
CBD Commercial	0.16	1.17	0.20	0.38	0.04	0.06	0.00	0.00	2.15	2.56	-
Mixed Use Accommodation	1 DE per Dwelling		1 DE per Dwelling	0.38	0.78	0.95	0.78	0.95	1.30	1.38	0.81
Mixed Use Commercial	1 DE per Dwelling		1 DE per Dwelling	0.38	0.78	0.95	0.59	0.71	0.97	0.99	1.21
Primary Industry	1 DE per Dwelling		1 DE per Dwelling	1 DE per Dwelling	1 DE per Dwelling		0.66 DE's per Dwelling		1.69 DE's per 27Ha	1.83 DE's per 41Ha	-
Restaurant/Bar	0.83	1.17	0.46	0.38	0.04	0.06	0.00	0.00	2.15	2.56	2.99
Unusual Developments	To be individually assessed at the time of application - refer to page 160 for definition										

Note: **1.** A residential property is always 1 Dwelling Equivalent (DE) or has 160m² GFA. **2.** A residential property is always assumed to have 260m² Impermeable Surface Area (ISA). **3.** Non-residential developments (Commercial, Industrial, CBD Commercial, Mixed Use Commercial and Restaurant/Bar) will not be assessed for a Reserve Improvements Contribution.

The detailed methodology and formulas used to develop the above table are explained in the Detailed Supporting Document dated 1 July 2015 which is available on the QLDC website.

If the Gross Floor Area (GFA) is unknown, which may be the case at the subdivision consent stage, then the following table will be used to estimate the GFA.

LAND USE	ESTIMATED GFA (OR EQUIVALENT)	IMPERVIOUS SURFACE AREA (ISA) - USED FOR STORMWATER CALCULATION
Residential	One dwelling equivalent per lot	One dwelling equivalent per lot
Rural Lifestyle and Rural Residential	One dwelling equivalent per lot	One dwelling equivalent per lot
Rural General	One Country dwelling equivalent per lot - (refer to the Dwelling Equivalent Calculation Table on page 155)	One Country dwelling equivalent per lot - (refer to the Dwelling Equivalent Calculation Table on page 155)
Non-residential: Commercial / Industrial/ Restaurant/Bar/Visitor Accommodation	50m ² gross floor area for lots <= 500m ² 100m ² gross floor area for lots > 500m ² <= 2,000m ² 400m ² gross floor area for lots >2,000m	62.5m ² ISA for lots <= 500m ² . 125m ² ISA for lots > 500m ² <= 2,000m ² 500m ² ISA for lots >2,000m

MULTI UNIT RESIDENTIAL DEVELOPMENTS

This relates to any development that involves the development of three or more residential units/apartments within a single site, it does not include additions, alterations or accessory buildings.

When assessing the number of dwelling equivalents for multi-unit developments, instead of allowing one dwelling equivalent per unit, the assessment will be done using the GFA of the development and the multi-unit residential differentials shown in the above table. This method more clearly defines the impact of multi-unit residential developments when compared to visitor accommodation and will make most developments of this type more affordable.

RESIDENTIAL FLATS

Council requires development contributions to be assessed for all residential flats.

A residential flat for the purposes of this policy is a residential building or part of a residential building that is used, or can be used as independent residence containing its own kitchen, living and toilet bathroom facilities that is secondary to the main residence. Note: the definition of a kitchen comes from the District Plan.

Dwelling equivalents for residential flats will be calculated using the GFA of the residential flat and the differentials shown in the above table.

RESERVE LAND CONTRIBUTION

A portion of development contributions paid to Council is utilised for the provision and improvement of reserve land within the Queenstown Lakes District. It is Council's aim to have adequate provision of accessible reserve land of high quality to serve its growing population. However, the reserve land development contribution level is significant relative to the cost of an overall development and can have an adverse effect of deterring investment in development within the Queenstown Lakes District.

This can be one of the barriers towards the provision of affordable housing. Through this policy, Council will ensure reserve land contributions are only applicable where there is currently limited provision. The following Reserve Land Contribution Policy has been established based on how the District is currently served by accessible reserve land, and how Council aims to meet demand for future provision of reserves.

The Queenstown Lakes District currently has a publicly accessible park provision of approximately 1,813 hectares. Based on a usual resident population of 29,500 this equates to 61.45 hectares of park per 1000 residents. This level of service is significantly higher than the national average of approximately 21 hectares per 1000 residents and while it is desirable to maintain the current ratio of recreational land to population, it is not considered necessary to increase the level of recreational land provision per capita unless to enable a specific recreation asset (e.g. sports fields) that cannot be accommodated within existing reserve land or is to service new developments in Greenfield sites.

Existing residential areas enjoy a good provision of local parks, sports fields, esplanade strips adjoining lake and river margins, lakeside beaches, significant walking and biking trails, and track network and surrounding Department of Conservation reserves. Queenstown Lakes District residents and visitors use a mix of different types of these reserve areas for a variety of active and passive recreation purposes.

Although provision of land used for recreation purposes is high, much of the land is underdeveloped and continual improvement is required to ensure reserve land is functional and of high quality. This generates the ongoing need for development contributions for reserve improvements as new developments continue to increase the usage of reserves across the District.

Whilst development contributions for reserve improvements remain applicable, in respect to the future requirement for obtaining reserve land, there is scope to reduce development contributions for reserve land acquisition in residential areas that currently have adequate reserve provision. This revised policy looks to ensuring that land acquisition only occurs when real demand exists and also ensures that maintenance costs for reserve land are sustainable.

For new developments within areas that do not have adequate reserve provision there will be a need for additional reserves to meet the recreational demand of the new residents in those areas. Accordingly, development contributions for reserve land will continue to be required in these areas.

The land contribution has been assessed at 27.5m² for each residential property that requires a reserve land contribution component. In this policy the term 'residential' includes visitor accommodation.

The below helps identify those areas which are deemed to have reserve land take requirements.

Greenfield in Urban Areas

Where residential development is proposed in **urban areas**¹ and does not have resource consent for future development by 1 July 2017, consideration for reserve land contributions will be on a case by case basis.

Consideration will be given to whether there is existing **accessible**² reserve land within 800m of the site, and whether the reserve is of an appropriate size and **purpose**³ relative to the proposed development and existing surrounding developments.

Greenfield in Rural Areas

Where residential development is proposed in **rural areas**⁴ and does not have resource consent for future development by 1 July 2017, consideration for reserve land contributions will be on a case by case basis.

Consideration will be given to whether there is existing **accessible** reserve land within 800m of the site, and whether the reserve is of an appropriate size and purpose relative to the size of the proposed development and surrounding development.

Should these lots be required to pay a Reserve Land contribution, and not connected to Councils water or wastewater reticulation and are larger than 4000m² they will be assessed under the Country Dwelling category and subject to a reduced level of reserve land development contributions as the demand for reserve land tends to be less than the demand generated by new land parcels that are smaller and within more highly developed areas.

As the establishment of piecemeal reserves through rural areas is undesirable, land contributions in lieu of cash contributions will not be accepted for this type of development/subdivision.

Brownfield Sites

Brownfield sites are developed land parcels in urban areas that contain existing development or have been subdivided previously for residential purposes.

The Queenstown Lakes District has good provision of accessible reserve land in developed urban areas. As such there is an opportunity to reduce development contributions for reserve land in these areas. Reserve land contributions will therefore not be applicable to the development of Brownfield sites.

In addition, there is a desire to encourage infill development in respect of residential flats, so neither urban nor rural sites will be required to pay reserve land contributions for a residential flat that accompanies a primary dwelling.

¹ 2015 Estimate based on medium growth from 2013 census - Queenstown Lakes District Projections for Resident Population, Dwellings and Rating Units to 2065 April 2014

² Parks Strategy 2002

³ As per the Local Government Act amendments 2014

Note

- ¹ Urban areas in this policy are all zones that are not zoned Rural General, Rural Residential or Rural Lifestyle)
- ² For a reserve to be 'accessible' it is considered it should easily accessed by pedestrians. Council retains discretion on the consideration of what is appropriately accessible in any given case.
- ³ For reserve land to meet its purpose for recreation, it includes reserve areas that can be used for active and passive recreation including flat, open park spaces usable for play activities e.g. kicking a ball. To avoid doubt, reserves do not include Department of Conservation land, Ministry of Education land, road reserves, esplanade reserves, drainage reserves or public walkways with ROW easements in favour of Council.
- ⁴ Rural areas in this policy are Rural General, Rural Residential or Rural Lifestyle zones.

When a Reserve Land Contribution is Required

At Council's discretion the reserves contribution can be either land or cash or a combination of both. Consultation with Council is required prior to an application for an outline development plan, a plan change, a resource or building consent being lodged. In some instances, Council may accept or require a contribution to the equivalent value in the form of land or infrastructure.

An outcome of the consultation will be to form a developer's agreement as to whether cash or land or both are appropriate in any given case. For example, to allow reserve assets to vest in Council through the subdivision consent process, where they are considered of a suitable standard in terms of Council's reserve requirements, and credit them against the contributions required.

Land offered to Council in lieu of cash development contributions for Reserve Land acquisition must be of a suitable standard, size and purpose to be accepted by Council. This shall be at the discretion of Council and the following guidelines will assist developers to provide proposals for suitable land:

CHARACTERISTIC	STANDARD
Gradient	Land offered shall be generally easily maintainable flat land. This will ensure costly maintenance of unsuitable high gradient land is not borne by ratepayers in the future and land provided is suitable for recreational purposes. In some cases, where Council deems it appropriate, land not meeting this gradient standard may be acceptable to allow land not suitable for active use to be accepted to protect amenity or landscape features, to protect scenic backdrops and heritage landscapes or to create walking or cycling connections that cannot otherwise be made on gentler gradients.
Size	27.5m ² per potential residential unit. Reserves shall be of a usable size. Pocket parks are generally not to be accepted unless they protect amenity or landscape features, or protect scenic backdrops and heritage landscapes or create walking or cycling connections that cannot otherwise be made through the provision of existing reserves or new larger reserves.
Unrestricted	No legal covenants that will restrict Council from meeting its Reserves Act Obligations
Accessible	Within 800m of housing or accommodation it serves

If a cash contribution is required, the value of the land shall fall into the category of either urban or township. The land values for the two wards have been calculated as averages as follows:

CATEGORY OF LAND	LAND VALUE*
Wakatipu Ward	
Urban	\$335/m ²
Township	\$150/m ²
Wanaka Ward	
Urban	\$235/m ²
Township	\$150/m ²

*Land values are GST exclusive

These values will be reviewed yearly; see Maximum Contributions below.

If the applicant considers these values to be incorrect, then the applicant may request Council to obtain a valuation of the land which is at the applicant's expense. Where this process is applied, payment shall be calculated as follows:

- A** The market value of the new sites is the sale value of the sites at the date on which the valuation is requested.
- B** The market value of the new sites shall be capped at \$1500 per m² and this maximum value will be reviewed by Council annually.
- C** Lots for roads, utilities, reserves, access or similar purposes shall be excluded from the calculation.
- D** Market value of a new site in the case of a stratum title under the Unit Titles Act, where the site is not situated on the ground, shall be calculated as if the site were on the ground.
- E** In Rural Zones (except for Rural Visitor Zones), where the lots created are greater than 4000m², the market value of each lot shall be the market value of the rural residential site of 4000m² within that lot, being the most likely site for a building platform.
- F** The value of the land contribution per m², in Rural Zones (except for Rural Visitor Zones) shall be the market value as defined in (e) above divided by 1000m².

Most of the existing reserve land in the District is under developed and funding is needed to enhance reserves, particularly to provide for future population growth projections. Generally land should not be taken for reserves unless it is required for Greenfield development or in some rare cases to protect scenic backdrops and heritage landscapes, or to create new walking or cycling connections that cannot otherwise be made.

An analysis of projected demand for reserve land has been completed using two contributing areas for the district. It is expected that the total value of reserve land that will be needed over the next 10 years is estimated to be \$19.1m. This is based on the 27.5m² desired level of service for each new dwelling equivalent. 100% of this demand can be attributed to growth and will be provided through development contributions either through the provision of land or as cash contribution. Forecasts show that 70% of this total demand is likely to be provided through the provision of vested land from developers.

MAXIMUM CONTRIBUTIONS

Section 203 of the Local Government Act 2002 allows the following maximum contributions.

“Development contributions for reserves must not exceed the greater of -

- A** 7.5% of the value of the additional allotments created by a subdivision; and
- B** the value equivalent of 20 square metres of land for each additional household unit created by the development.”

Note: Council will ensure that the statutory maximum is not exceeded in the application of the policy and calculation methods.

SIGNIFICANT ASSUMPTIONS USED IN THE CALCULATION OF DEVELOPMENT CONTRIBUTIONS

As both the TYP and this Policy rely on the same base data, the significant forecasting assumptions disclosed in Volume 2 of the TYP pp 4-8 also apply to this Policy. All information used in the calculations of either development or financial contributions is the best available at the time. Council is proceeding with numerous strategic studies which will aid in delivering improved information. Council is committed to updating its contribution calculations as the results of these studies become available.

FINANCIAL CONSIDERATIONS

The following are key financial considerations applied in the model:

- All figures are in current New Zealand dollars - effective 1 July 2015.
- Inflation is applied to past capital projects only.
- Interest costs have been assessed based on the weighted average cost of capital (WACC) over the first 10 year period from 1 July 2015. The cumulative net deficit between the contributions anticipated to be collected and the growth costs over the 10 year period are used to determine the proportion of the growth cost that will be funded by debt. A 6.0% interest rate has been applied.
- Capital expenditure projections are those that have been applied in the TYP effective at 1 July 2015 and subsequent Annual Plans. The public nature and auditability of these capital projections provides additional confidence to the process. Schedule 10 of the LGA 2002 prescribes a number of disclosures including growth, renewal and level of service apportionments.

GROWTH PROJECTIONS

These have been estimated using the best information available.

- Growth Projections 2014 – Council engaged services from the market place to complete its own growth study. These projections detailed residential, visitor and commercial/ industrial growth. The results of this study have been applied to all infrastructure studies completed since including water, wastewater and transportation.

Council produces a six monthly dwelling capacity study. This study identifies the ultimate number of dwellings in specific areas given the existing district plan zonings. This is used as a guide to define where growth in specific contributing areas will cease. Growth projections are converted into units of demand or dwelling equivalents which are used to apportion the growth cost to define a dwelling equivalent contribution. Assessing total dwelling equivalents involves converting non-residential land uses into dwelling equivalents and adding this to the number of dwellings. This is completed using land use conversion factors.

MONITORING AND REVIEW OF DEVELOPMENT CONTRIBUTIONS POLICY

Council will monitor and review the following:

- **Annual Calculation Updates:**
 - > Identify capital expenditure actually undertaken and whether the projections remain reasonable. This may include adding or deleting capital projects.
 - > Update capital costs to reflect a year of inflation. This will be based on SNZ Labour cost index and Producer Price Index.
 - > Review population projections.
 - > Any asset planning initiatives including changing levels of service, updated capital projections.
 - > Update any new information that has become available. This may include updated population projections, additional zoning and scheme boundary changes.
 - > Correction of any errors or omissions.

- **Annual Policy Reviews:**

- > Any changes to the policy direction of Council that affects this policy. This may include changes to the TYP, Revenue and Financing Policy and strategic studies.
- > New information affecting the land use differential analysis.
- > Inclusion of any Financial Contributions as derived from a variation to the District Plan and in particular Chapter 15.

POSTPONEMENT OR REMISSION

Council may allow for postponement or remission of contributions in the following circumstances:

- A** Council may accept or require a contribution to the equivalent value in the form of land or infrastructure. It may be appropriate, for example, to allow reserve assets to vest in Council through the subdivision consent process, where they meet Council's reserve requirements, and credit them against the contributions required. Any such proposals will need to be the subject of an agreement with Council before the consent is issued, and will be dealt with on a case by case basis.
- B** Where an applicant can demonstrate that a development creates a significantly different demand on infrastructure than could usually be expected under the relevant land use category, Council will individually assess any such development taking into account the unusual demand characteristics.

All applications for Postponement or Remission must be made in writing to the Chief Executive Officer of the Council.

UNUSUAL DEVELOPMENTS

Council reserves the right to individually assess contributions on any development that it deems to create a significantly different demand on infrastructure than could usually be expected under their relevant land use category. This may include a development that Council deems does not fit into the land use categories.

RECONSIDERATIONS & OBJECTIONS

An applicant may request Council to reconsider the requirement to pay a development contribution if the applicant has grounds to believe that:

- A** the development contribution was incorrectly calculated or assessed under the Council's development contributions policy; or
- B** Council incorrectly applied its development contributions policy; or
- C** the information used to assess the person's development against the development contributions policy, or the way Council has recorded or used it when requiring a development contribution, was incomplete or contained errors.

A request for reconsideration must be made in writing stating clearly on which grounds the applicant believes the Council has erred. The request for reconsideration must be made within 10 working days after the date on which the person lodging the request receives notice from Council of the level of development contribution that Council requires. This request should be addressed to:

- Development Contribution Officer (QLDC), Private Bag 50072, Queenstown 9348
- Email: developmentcontributions@qldc.govt.nz

The steps that Council will apply when reconsidering the requirement to make a development contribution are:

- i)** The appropriate Council officer shall review the reconsideration request,
- ii)** The Council officer may request further relevant information from the applicant,
- iii)** The Council officer will make a recommendation to the delegated authority,
- iv)** Council will, within 15 working days after the date on which it receives all required relevant information relating to a request, give written notice of the outcome of its reconsideration to the person who made the request.

A reconsideration cannot be requested if the applicant has already lodged an objection. If the applicant is not satisfied with the outcome of the reconsideration, they may lodge an objection as specified in the Local Government Act 2002 Amendment Act (No 3) 2014, s199C to s199N.

REFUNDS AND REIMBURSEMENT

Where Council required a development/financial contribution as part of subdivision or development activities and where the documentation (resource consent, building consent or connection authorisation) permitting that subdivision or development has lapsed, Council will refund the contribution. This does not prevent Council from requiring development/financial contributions in the future. Council may retain a portion of the contribution of a value equivalent to the costs incurred by the Council in processing/assessing the contribution required by the subdivision or development.

WHEN WILL PAYMENT BE REQUIRED

Development contributions may be sought in respect of any development that generates a demand for reserves, network or community infrastructure. Council will assess whether development contributions are payable in relation to the development when an application for one of the following is made:

- i)** Resource Consent
- ii)** Building Consent
- iii)** Authorisation for a Service Connection

Any Development contributions assessed will be payable on granting of consent with a due date for payment as follows:

- Resource consent (subdivision) – prior to the issue of S224c certificate;
- Resource consent (other) – prior to commencement of the consent except where a building consent is required then payment shall be prior to the issue of the code of compliance certificate, certificate of acceptance or prior to the connection to Council services, whichever comes first.
- Building consent – prior to the issue of the code of compliance certificate, certificate of acceptance or prior to the connection to Council services, whichever comes first.
- Service connection – prior to connection.

If payment is not received the Council may (under section 208 of the LGA):

- Withhold S224c Certificate on a subdivision;
- Prevent the commencement of a resource consent for a development
- Withhold a code of compliance certificate under the Building Act
- Withhold a certificate of acceptance under the Building Act
- Withhold a service connection to a development.

In each case the Council may register the Development Contribution under the Statutory Land Charges Registration Act 1928 as a charge on the title of the land for which the contribution was required.

CREDITS

Assessing Additional Demand - Existing Demand and Credits

The following existing demand and credit considerations apply to all development contribution assessments:

- The existing demand of any lot that is to be developed will be converted to a dwelling equivalent credit when assessing development contributions. Thus, development contributions are solely for additional demand created by the new development.
- Credits will be specific to the activity for which they were paid (i.e. a water supply credit will not be able to offset a wastewater contribution).
- Credits are to be site specific (not transferable) and non-refundable unless the refund provisions of the Act apply.

There are three types of development contribution credits that may be applied:

The applications of existing demand and credits are described in the table below:

TABLE OF CREDIT TYPES

When do they apply?	Information to be provided by the developer	The following situations are anticipated		Exceptions	Comments
		Type of Development	Details		
Existing Demand					
Redevelopment of lots with an existing demand on infrastructure where a development contribution has never been paid.	The existing use of the site prior to redevelopment expressed in the appropriate unit of demand (e.g. Gross Floor Area (GFA), Impermeable Surface Area (ISA), number of residential units etc.) Should the developer be unable to provide confirmation of credits, no credits will be allocated.	Redevelopment	The existing demand will be quantified in dwelling equivalents using the current development contributions policy.	Lots that have a consent notice registered on the certificate of title stating that the lot has not been serviced by Councils water, wastewater or stormwater. In these instances no credits will be given unless the developer is able to provide otherwise.	Only the current (existing) demand will be assessed and not any historic use of the site.
Actual Credit					
Development of lots when development contributions have already been paid. This will apply to all lots created after 1 July 2004.	Records of development contributions paid. Should the developer be unable to provide confirmation of credits, no credits will be allocated.	All lots.	The actual credit will be quantified in dwelling equivalents for each activity based on the policy under which the payment was made.	Lots that have a consent notice registered on the certificate of title stating that the lot has not been serviced by Councils water, wastewater or stormwater. In these instances no credits will be given unless the developer is able to provide otherwise.	Any surplus credits will remain on the land for future development.

TABLE OF CREDIT TYPES CONTINUED

When do they apply?	Information to be provided by the developer	The following situations are anticipated		Exceptions	Comments
		Type of Development	Details		
Deemed Credit					
Deemed credit to apply to vacant lots that existed prior to the requirement for development contributions (2004) and has not paid development contributions.	Developer to provide the certificate of title for the lot(s) to prove that the lot has existed prior to 2004.	Residential	One dwelling equivalent per lot.	- Lots that have a consent notice registered on the certificate of title stating that the lot has not been serviced by Councils water, wastewater or stormwater. In these instances no credits will be given unless the developer is able to provide otherwise. - Any excess historical credits that are identified as a result of an amalgamation of individual titles will accrue on the new amalgamated title but will lapse if not utilised within a period of three years - Some areas may not be due a full dwelling equivalent credit as pre 2004 Council owned water and wastewater infrastructure was not available to all sites. The general exceptions are: - Vacant lots in Lake Hayes (water supply & wastewater) were not required to pay a capital contribution when the schemes were introduced. As such full DC's are payable at the time of development. - Glenorchy: A small number of property owners paid a lump sum contribution towards the Glenorchy water scheme. All other property owners are required to pay for new water connections. Please contact the DCN officer at QLDC to determine whether your property paid. - Luggate: - Luggate Lots created pre July 2004: no credits for water or wastewater as vacant sites were not required to pay a capital contribution when the schemes were introduced - Luggate Lots created between July 2004 and July 2014: no credits for wastewater (credit for water however) - Luggate Lots created post July 2014: all credits should apply - Aubrey Road, Studholme Road, and Tucker Beach Road: Council owned water reticulation has been progressively extended. These sites may not have a credit for water or wastewater. Applicant to provide evidence of connection and payment	A deemed credit will only apply when an actual credit does not exist.
		Rural sites	For Rural general sites, one dwelling equivalent per registered building platform. For all other rural sites one dwelling equivalent will apply for reserves and roading. Owner to provide evidence that water and wastewater should also receive a credit.		
		Commercial / Industrial	50m ² gross floor area and impervious site area for lots <= 500m ² . 100m ² gross floor area and impervious site area for lots > 500m ² <= 2,000m ² . 400m ² gross floor area and impervious site area for lots >2,000m ² .		

DELEGATIONS

The Chief Executive is delegated the power to determine in accordance with this policy whether a development or financial contribution will be sought. This includes the power to:

- increase the quantum of those contributions under the authority of section 106(2B) of the Local Government Act 2002;
- the power to enter into a development agreement;

The Chief Executive has delegated authority to approve a reduction or a postponement in a development contribution levied on a developer in accordance with the terms of this Policy. No delegation is provided to the Chief Executive for hardship related remissions or remissions not otherwise provided for in this policy.

The Chief Executive may sub-delegate any of these powers. For the avoidance of doubt, the exercise of these powers is not a transaction as defined within the financial delegations register. Therefore specified transaction limits in the financial delegations do not apply to the exercise of these powers.

The Chief Executive will ensure the Policy is implemented.

CAPITAL EXPENDITURE ATTRIBUTED TO GROWTH

The following tables demonstrate the nature and level of expected capital expenditure required by Council and the portion that is attributable to growth. A table is produced for each activity (asset type) which shows the CAPEX for each geographic area where a contribution has been assessed. The CAPEX attributable to growth is apportioned equitably among the growth population to define a set charge for each unit of demand. The unit of demand is expressed in terms of a dwelling equivalent.

Additional tables are provided which detail the debt funding ratio which will apply to each area.
