SPECIFIC PROVISIONS // Of the proposal that my submission relates to are:

I STRONGLY OPPOSE PLAN CHANGE 51

Rezoning this area will in fact have a large negative impact on the community with only benefit very few people. I use this area for biking and running many times each week as do MANY others. Being active has a huge positive influence on both my health& physical health, and this area plays a key role in maintaining my overall wellbeing.

The area is of outstanding natural beauty and should be protected as such. It was also a key part of the agreement for the first area of subdivision. Many people use this area for recreation, from Wanaka and many communities in the surrounds.

Even if biking / running / public access is stopped to the area it should still not be rezoned as it is of huge importance to the natural beauty of the area.

The purpose of this zone is supported only by the continued protection of these areas from all residential development. The proposed plan change is completely and diametrically opposed to the purpose and policies of this zone. Approval of this plan change could in no possible way advance the outcomes sort by the Open Space Zone.

I SEEK THE FOLLOWING FROM THE LOCAL AUTHORITY HGive precise details:

Do not allow Plan Change 51 - Peninsula Bay NorthSHARE To rezone approximately 6 ha of Open Space zoned I at the north end of Peninsula Bay (legally described as Lot 920 DP 486039) for specific low density residential development.

This area needs to be protected. Rezoning goes against the best interests of the community of Wanaka and surround communities.
