

**APPENDIX 7: Site Context and Viewpoint Location Plan.**

Viewpoint locations 1 - 8 are locations from which photographs have been taken to illustrate points made in the report. All panorama photographs have been taken using a 50mm fixed focal length and approximate the human field of view, being 124 degrees horizontally and 55 degrees vertically. On this plan and on the digital images of Appendix 8, the footprint of the proposed MCSSZ is shown using three colours green, blue and red, as outlined on the legend above.

**Panorama Photograph 1** was taken on the 26th of October 2016.

**Digital Image 1.**

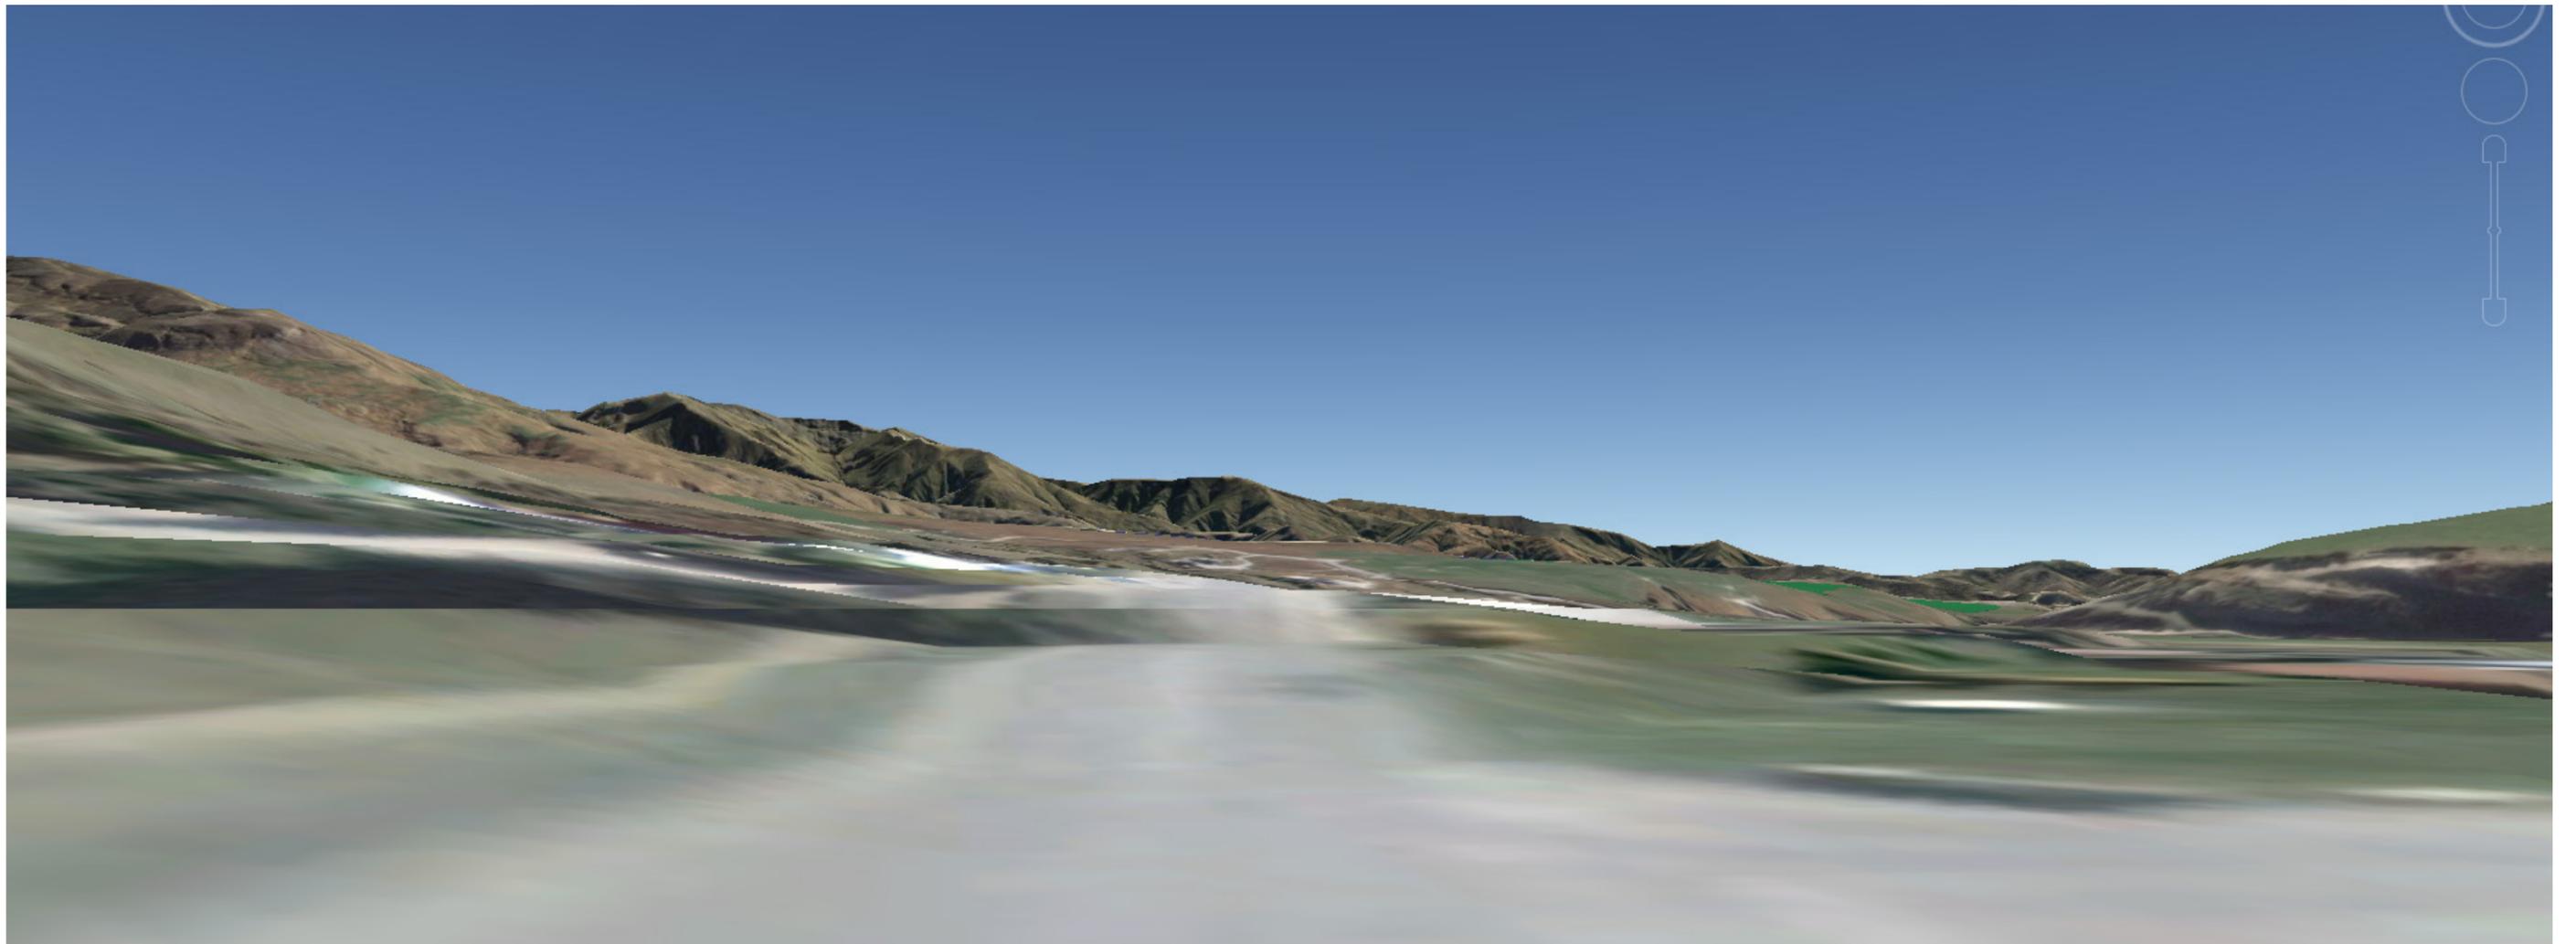

**APPENDIX 8: Viewpoint Location 1**

Located on Cardona Valley Road, approximately 900m north of the Cardona Distillery access way.

The digital images of Appendix 8 are produced using Google Earth Professional. The footprint of the proposed zone has been draped accurately into the digital model and uses the three colours as set out on Appendix 7. The model does not include vegetation and landform has been modelled based on 20 metre contour intervals. As such, these digital models images should be considered approximate.

Panorama Photograph 2 was taken on the 26th of October 2016.
