

Appendix F: GIS Data Sources

| DATA | SOURCE |
|--|--|
| Zoning | As per proposed plan; GIS data from QLDC |
| Spatial outcomes anticipated | As per proposed plan; text |
| ONLs, existing and proposed District Plan | Obtained as per proposed plan; GIS data from QLDC |
| Infrastructure services provided/planned (i.e. water, wastewater, stormwater, roading, trails) | GIS Data from QLDC |
| Soils | Landcare Research - New Zealand Land Resource Inventory GIS dataset |
| Hazards | GIS Data from QLDC |
| Vegetation | Landcare Research - Land Cover Database 4 (LCDB4) |
| Contours | GIS Data from QLDC |
| Slope analysis | GIS Data from QLDC - slope derived by Incisive Mapping |
| Aspect | GIS Data from QLDC - aspect derived by Incisive Mapping |
| Building platforms for consented development that has not been built | GIS Data from QLDC |
| Existing development data (lots/houses) | GIS Data from QLDC |
| SHAs | GIS Data from QLDC |
| Watercourses | Land Information New Zealand - NZTopo Database. Crown Copyright Reserved |
| Heritage | GIS Data from QLDC |
| Geological features | Landcare Research - New Zealand Land Resource Inventory GIS dataset |
| ONF and Visual Amenity Landscape overlays | GIS Data from QLDC |
| Land-use map (including rural 'farming' land uses, recreation/tourist facilities) | *For Land Use Classification map only - Landcare Research - New Zealand Land Resource Inventory GIS dataset |
| Read Report 2014 landscape character units | GIS Data from QLDC |
| Recommended zoning and precincts | Base zoning layer from QLDC |
| Lot size, ownership area, and potential yield datasets | Base property data from QLDC - lot size, common ownership areas, and potential yield derived by Incisive Mapping |
